ELUNA 2017 Conference

ELUNA 2017 conference will be held at the Renaissance Schaumburg in Schaumburg IL. (*ring a bell anyone ?*)

The ELUNA Annual meeting will begin with the reception on the evening of May 9, and end late afternoon on Friday, May 12th.

We will hold **Developers Day** on May 9th, 2017.

ELUNA will be preceded by the Ex Libris Technical Seminar on May 8 – 9.

Making the Case to Attend ELUNA 2017

If you need to convince your managers that ELUNA 2017 is a good investment both for you and your institution, please consider the following:

- ELUNA Conference registration is a bargain compared to many other conferences. Discounts are offered for early registration and for presenting. Consider submitting a proposal for a presentation and receive a **\$100.00 speaker discount**.
- The meeting is focused on Ex Libris products and related current professional issues. Total attendance is expected to **reach or surpass** 700. Most meetings have an audience of less than 50 people which allows a lot of opportunities to ask questions and interact with presenters and Ex Libris staff.
- The meeting will be held in one building. Breakfasts and lunches are included in your registration as well.
- The training and information gained from the conference is a great investment for your institution. The information you bring back will result in practical skills that can be shared with all staff at your institution.
- Networking with other users in the ELUNA community is a great way to gain fresh ideas and learn about the cutting edge uses that others have developed for their Ex Libris products. The ELUNA user community has a long history of helping each other.
- As a conference attendee, you will have access after the conference to all conference presentation materials in the ELUNA Documents Repository.

Future ELUNA Conferences

- It is never too early to start thinking about being a host site for future ELUNA conferences!

Future ELUNA Conferences

- It is never too early to start thinking about being a host site for future ELUNA conferences!
