Group Urges Special Session

The Third District Parent-Teacher Association, in session here yesterday, adopted a resolution urging Gov. Earle Clements to call a special session of the General Assembly in order that more money may be appropriated for public education.

Similar action was taken by the First District PTA, which met at Murray State College.

The resolution asked that the General Assembly allot another \$10,000,000 a year for schools. During the recent legislative session, \$24,500,000 was set aside for the common school fund during each year of the 1950-52 biennium.

A telegram sent to Governor Clements by the Third District Association charged that schools are faced with a grave emergency due to lack of sufficient funds, that transportation facilities are inadequate and outmoded, that teaching materials and equipment are sorely needed and that buildings are needed to relieve "desperately overcrowded" conditions.

Recipients of the association's annual recognition awards were:

Memorial Consolidated, Hart county, the unit with less than 100 members last year showing the greatest percentage increase; Guthrie, the unit with more than 100 members last year showing the greatest percentage increase.

Franklin-Simpson, the unit with the most members subscribing to the national PTA magazine, and Leitchfield, the unit with the best publicity books.

Eleventh Street school was judged third in publicity book competition. Greenwood received honorable mention.

Blood Donors Of County Are Asked For 125 Pints

The army has called for Red Cross blood for use in Korea, and Warren county's quota for the bloodmobile's visit to Bowling Green next Tuesday has been increased from 100 to 125 pints.

Because Bowling Green in the past six months has raised only 75 per cent of its old quota of 100 pints of whole blood for each visit of the bloodmobile, H. B. Gray, chairman of the Bowling Green-Warren County Red Cross chapter, today issued an urgent appeal for all-out aid from the 40 local organizations pledged to support the blood program.

"If each organization will stick to its pledge and provide the small number of blood donors assigned each group," Mr. Gray said, "the local quota for next Tuesday's visit

of the bloodmobile could be reached without difficulty."

BOWLING GREEN provided only half of its quota of blood on the last visit of the bloodmobile to Bowling Green six weeks ago.

Mr. Gray pointed out that Gen. George C. Marshall, president of the American National Red Cross, has accepted the request of Secretary of Defense Louis Johnson that the Red Cross become the official agency for the procurement of blood for the armed forces when such blood and its derivatives are needed.

In his letter of acceptance General Marshall assured Secretary Johnson the Red Cross would prepare at once "to increase the output of its national blood program to provide the armed forces with the blood that may be required."

"While we deplore the situation which requires this action," General Marshall said, "it is the sensible thing to do, particularly in view of world conditions".

Bowling Green organizations pledged to support the Red Cross blood program and the number of donors each has promised to provide for the bloodmobile visit here next Tuesday are as follows:

AMERICAN ASSOCIATION of University Women 2, American Legion 8, American Legion Auxiliary 3, Business and Professional Women's club 4, Barons club 2, Bowling

"Because local schools are closed for summer vacations", Mr. Gray said, "their quotas may not be met, and it will be necessary to get additional donors outside organized groups."

Individuals desiring to aid in the program by donating a pint of blood are requested to communicate immediately with the local Red Cross office, 528 East Main street, Phone 1821.

OUR EMBLEM

THE emblem of the National Congress of Parents and Teachers is the oak tree, the trunk of which represents the national organization; the main branches, the state congresses; the small limbs, the districts and councils; the twigs, the local associations; and the leaves, the individual members. Each in turn draws its life from the parent tree. The emblem represents a definite pledge of service and protection to childhood and youth.

—MABEL K. RAYMOND
*National Chairman of Founders Day,
1935-37, 1940-43*

OUR OBJECTS

To promote the welfare of children and youth in home, school, church, and community.

To raise the standards of home life.

To secure adequate laws for the care and protection of children and youth.

To bring into closer relation the home and the school, that parents and teachers may cooperate intelligently in the training of the child.

To develop between educators and the general public such united efforts as will secure for every child the highest advantages in physical, mental, social, and spiritual education.

B.U. Provides 51 Of 160 Blood Donors

Fifty-one of the 160 persons who volunteered blood Tuesday during the last visit of the American Red Cross bloodmobile came from Bowling Green Business University, it was disclosed yesterday.

BU has consistently furnished approximately 33 per cent of all Warren county donors during the trips here by the Nashville bloodmobile. The local institution far outstrips any other group.

Registration of Western State College students on the day of the bloodmobile visit caused the other local college to be rendered almost totally inactive Tuesday. Because of the registration conflict, Western was represented by just one donor, which is far below the creditable showing made by Western students during past months. Western has ranked second only to BU in blood donors.

NINETEEN MEN and women gave blood in appreciation of blood received by friends and relatives. Thirteen donors were listed in the miscellaneous group, while Pet Milk Company was represented by 11 donors. The Lions club furnished nine while the Training School PTA furnished six.
