-:- PREFACE -:-

In offering this, the First Volume of the Bowling Green Classified Business Directory, we do so trusting that it may be found valuable to those who have occasion to use it. Painstaking efforts have been put forth to make it complete accurate, useful and attractive.

The work contains a list of all business houses, firms and companies doing business in the city. In addition to the business houses, churches, schools, fraternal orders, public institutions is also information pertaining to City, County and Federal Governments. Lists of all the above information is given in a classified arrangement and alphabetical order.

In using this book, it will be found that a few abbreviations have been employed. This is done to save time to the user and space for the printer. The name is given, next the street address and the phone numbers.

The publishers wish to take this opportunity to thank all those who have in any way helped make this work possible. Special attention is called to our advertisers. Without their support this work would have been impossible, and we earnestly recommend that the buying public patronize them, as they are reliable and offer courteous and prompt service.

Proper use, preservation, frequent and favorable mention of this work will be appreciated by the authors.

Very Sincerely,
GEO. W. STOUT.
