**AGENDA ITEM 6 - Approval of the 2006-07 Combined Budgets and Faculty and Staff Compensation Report, FY 2006-07.**

**REQUEST:** Approval of the 2006-07 Budget and Faculty and Staff Compensation Report, FY 2006-07.

**FACTS:** The Western Kentucky University 2006-07 Budget is WKU's financial plan for the fiscal year beginning July 1, 2006, and ending June 30, 2007, and it includes the proposed Operating Budget and Capital Budget. The budget document includes the following components:

- Revenue Summary;
- Expenditure Summary by Organizational Area (Unrestricted, Restricted, and Auxiliary Enterprises);
- Expenditure Summary by Program Classification Structure (PCS);
- Budget Narratives by area that summarize Strategic Plan priorities and budget information by category of expense;
- Expenditure Detail by unit; and
- Capital Budget.

The Operating Budget includes Educational and General (E&G) and Auxiliary Enterprises revenues and expenditures. E&G revenue consists of unrestricted revenue - - primarily state appropriations and tuition and fees - - and restricted revenue (e.g., federal funds for student financial aid and extramural funding for grants and contracts). Auxiliary Enterprises revenue is derived from the self-supporting activities of the University such as housing (reimbursed costs from the Student Life Foundation), food services, and book-store operations. The Capital Budget provides a listing of major capital and lease/purchase projects, funding sources, and the current status of these projects.

The 2006-07 Operating Budget and the dollar and percent increases, over the 2006-07 Operating Budget, are distributed as follows:

	2006-07 Budget	Dollar Increase	Pct Increase
<b>Total Budget</b>	\$293,754,000	\$21,168,000	7.8%
<b>Total E&amp;G</b>	276,316,000	20,241,000	7.9%
<b>Unrestricted E&amp;G</b>	214,951,000	21,501,000	11.1%
<b>Restricted E&amp;G</b>	61,365,000	(1,260,000)	(2.0%)
<b>Total Auxiliary Services</b>	17,438,000	927,000	5.6%

Western Kentucky University, as a publicly-assisted institution, derives the 65.0 percent of its operating revenue from state appropriation and tuition and fees. The state appropriation is set by the Kentucky General Assembly. Setting the tuition and fees rates is the responsibility of the Board of Regents and subject to approval by the Council on Postsecondary Education.

The largest source of revenue to Western Kentucky University is tuition and fees. The Operating Budget includes the projected revenue based on the 2006-07 tuition and fees rates and actual enrollment from fall 2005. Tuition and fees also include graduation fees, student athletic fee, campus rebuilding fee, distance learning instruction, correspondence study course fees, and course-specific fees that are returned to the respective units. The budget includes tuition and fees totaling \$110.3 million which is an increase of \$16,024,000 for FY 2007.

The second largest source of funding for Western Kentucky University is from the Commonwealth of Kentucky. The 2006-08 Biennial Budget includes a state appropriation increase of \$2,185,400 for FY 2007. The FY 2007 state appropriation enhances WKU's base operating budget, provides operating support for the Kentucky Academy of Math and Science, and funds anticipated costs for existing state-supported bond issues.

The proposed 2006-07 Operating Budget includes the following projected additional state appropriation and tuition revenue available for allocation:

**Budgeted State Appropriation and Tuition/Fees Revenue Increase**

Fall and Spring Semesters	\$12,871,000
Summer Semester	243,000
Winter Term	1,419,000
Campus Rebuilding Fee	1,327,000
Student Athletic Fee	47,000
DELO Dual Credit	98,000
State Appropriation, Operating	1,716,600
State Appropriation, KY Math and Science Academy	500,000
State Appropriation, Debt Service, Existing Bonds	(31,200)
<b>Increase Available for Allocation</b>	<b>\$18,190,400</b>

The unrestricted E&G revenue includes the following noteworthy changes:

- ▶ The Division of Extended Learning and Outreach (DELO) continues to grow with the increasing popularity of on-line courses and dual credit. DELO is being budgeted with an increase of \$1,028,000 from tuition revenue based on actual enrollment in FY 2005.
- ▶ Restricted tuition-supported programs will receive a modest increase based on the Higher Education Price Index (HEPI).
- ▶ Study Abroad, Field Experience, is being estimated at \$400,000 in recognition of fees to be collected and expended in support of student travel.

- ▶ Parking-related revenue is estimated to increase \$440,000 to reflect fee increases and enhanced enforcement. The revenue is a key component of a multi-year parking and transportation enhancement plan.

Also included in the unrestricted budget is an estimated increase of \$9,861,000 in net assets to be carried forward from 2005-06 for designated capital and operating costs.

The following table provides the proposed additional state appropriations and tuition/fees revenue allocations. They are summarized by priority: (1) fixed costs, (2) previous budgetary commitments, (3) compensation, (4) retirement benefits, (5) facility/safety enhancements, and (6) Strategic Plan implementation.

	<b>TOTAL</b>	<b>18,190,400</b>

Approximately 60.3 percent of the budget is for personnel costs (primarily salary and benefits for employees and student workers) and 20.2 percent is for operating expenses. Approximately 6.4 percent is allocated for student financial aid (excluding student employment). The remaining 13.1 percent is allocated for debt service, capital outlay, and utilities.

The personnel costs budget includes approximately 1,800 full-time, filled positions and 140 full-time, vacant positions. Faculty positions account for approximately 42.0 percent of the unrestricted E&G budgeted positions.

The Faculty and Staff Compensation Report, FY 2006-07, provides all recommended salaries for filled positions and vacant positions. The average merit-based salary pool is 3 percent.

The restricted E&G budget, including grants and contracts and student financial assistance, comprises 20.9 percent of the total budget. The restricted budget includes a decrease of \$1,260,000. The projected revenue for grants and contracts is being held at the 2005-06 budget level based on increased competitiveness for grants and contracts and potential reductions in funding at the state and federal level. The reduction in student financial assistance reflects actual receipts of FY 2006. The decrease in funding for Pell Grants is due to a federal change in the calculation of eligibility. The change has resulted in reduced eligibility amounts for some students and elimination of eligibility for others. College Access Program (CAP) eligibility is tied to Pell eligibility; thus, the estimate has been reduced. The amount budgeted for the KEES Program has been increasing steadily since it was first implemented. Students now have reached their maximum of five years of eligibility. It is anticipated that this funding amount will remain relatively stable. Funding for the SEOG Program has been cut at the federal level.

The Auxiliary Enterprises 2006-07 budget is being increased by a total of \$927,000 above the approved 2005-06 budget. The increase is accounted for primarily by higher reimbursed costs from the WKU Student Life Foundation.

The 2006-07 Capital Budget includes anticipated capital projects that will be under way next year or are currently under way including the source of funding, estimated cost, and the status of each respective project. These authorized projects will address many of the projects identified in WKU's Six-Year Capital Plan and the Deferred Maintenance Plan. The following high-priority capital projects are included in the enacted 2006-08 Biennial Budget:

**State General Fund Bond**

Construct College of Education Building	\$35,000,000
