Bill 02-13-F
Installation of DUC Benches
November 4, 2002

PURPOSE: For the Student Government Association of Western Kentucky University to allocate an additional \$750 from its current Campus Improvements budget for use of additional services from Armor Coat steel furniture.

WHEREAS: The current funds set aside for this project of \$4500 was the original amount needed to cover the entire cost of materials for the DUC bench project without adding in the cost of installation, and

WHEREAS: The cost of installation from the university is much less, although the waiting period could span over a semester and a half to two semesters, and

WHEREAS: If Armor Coat Co. installed the products for us, shipping and handling is free and the products would be installed within one business week after the order takes place, and

WHEREAS: The cost of receiving the products and having them professionally installed is much greater than having to wait for the university which could take a full year.

THEREFORE: Be it affirmed that the Student Government Association of Western Kentucky University shall allocate \$750 from its current Campus Improvements budget for the installation of the DUC benches, trash cans, and ash receptacles.
