After a very exciting, energizing and educational experience at the Capitol Building of the Commonwealth of Kentucky, you are beginning to wrap your head around the inner workings of our state government and how it functions.

1. How do you feel that you impacted this state crisis? What difference did you participating in this rally make?
2. What was the most memorable/important part of the experience you had as a participant in this rally?
3. How/where have you acquired the knowledge and skills that are most important for you, as students, to be able to influence the workings of government and the influence the decisions made?
4. What suggestions do you have (for the university and its faculty) that will better prepare you to be effective participants in shaping and influencing political decisions?
5. What could have been done to make your day more effective or productive?

Each participant will be expected to complete this 'reflections' paper. A copy of it should be given to the SGA Vice President before leaving the bus when you return to campus. A copy of your paper will also be provided to each faculty member whose class you missed to participate in the rally.

- 1) I feel that I impacted today's rally because I was a voice for WKU and a voice for all the students across KY. Since I was there, it showed House & Senate leaders that students do care about our future.
- 2) Voice our opinion and visually showing the state that students from across KY care and we want some actions. Meeting different Senate & House Representative.
- 3) WKU's Student Government Association - they are the key to connecting students to state operations.

- 4) More SGA showing on campus and monthly updates. Maybe emails each month?
- 5) More time in Frankfurt + everyone meeting with representatives. I would love to talk more in depth with them about concerning issues facing students of the rest of KY.

Great Trip! Thanks!
