TELEPHONE COMMUNICATIONS**

FROM: SGA EXECUTIVE COUNCIL

Dear Mr. Wiltshire,

Resolution 93-7-F, Installation of Phones in the Parking Structure, was passed at our November 9, 1993 meeting. It is to our understanding that you have already been contacted about this idea and were in favor of it.

We request that the University provide emergency phones in the parking structure. Security is a main concern of the Student Government Association and we believe that these phones would greatly enhance security in the parking structure. The logistics of the plan of installation is debatable; our main focus is that it needs to be done.

Please contact the Student Government Office of any actions taken toward our request and of any problems or concerns that you have with the resolution. Thank you for your time and consideration of our resolution.
