STANFORD LABOR MARKET AREA

STANFORD, KENTUCKY - A RESOURCE PROFILE

Location

Stanford, the county seat and the largest town in Lincoln County, is situated in southcentral Kentucky, 79 miles southeast of metropolitan Louisville, and 44 miles south of Lexington. Stanford has a 1970 population of 2,455. The 1970 population of Lincoln County is 16,053.

The Economic Framework

Total employment in Lincoln County averaged 4,300 in 1969 with manufacturing providing 700 of these jobs. During the past decade manufacturing employment increased by 489 jobs or 197 percent. Major products include men's and boys' work and play clothes, metal name plates and trim, and mobile homes and coaches.

Per capita income in the county was \$1,666 in 1968, \$979 below the Kentucky average. The 1968 figure indicates an 83.6 percent increase since 1959.

Stanford is the hub of a labor market area that includes Lincoln and its five surrounding counties. Area employment in 1969 averaged 37,400 including 8,600 in agriculture. Area manufacturing provides 7,730 jobs. Area industrial employment has increased by 4,389 jobs or 126 percent in the past decade. Sharpest employment gains were present in the lumber, furniture, apparel, textiles and leather industries.

Despite the important industrial gains in recent years the area still has a deficit of 2,506 manufacturing jobs when measured against the national employment-population ratio. This indicates an area where the potential for additional manufacturing production is excellent.

Resources For Growth

1. There is a current estimated labor supply of 5,590 men and 4,025 women available for industrial jobs in the labor market area. In addition, 5,775 young men and 5,455 young women will become 18 years of age by 1976 and potentially available for work.

2. The local transportation capability is adequate. One railroad, the Louisville & Nashville, serves Stanford. U.S. 27 and U.S. 150 serve Stanford in addition to Kentucky Routes 78 and 590. I-75 interchanges are 29 miles northeast, and 27 miles southeast.

3. Energy - both gas and electricity - is available and adequate for continued growth, as is the local water supply from a 44-acre impoundment.

4. Industrial sites - Stanford has three industrial sites with all utilities.

5. Education in Stanford is conducted by a county school system, and ETV is available. Vocational educational facilities are only 8 miles away.

There are six senior colleges within 50 miles of Stanford. The nearest is Centre College, only 11 miles away in nearby Danville. Berea College is only 29 miles away, and Eastern Kentucky University is 32 miles away. The University of Kentucky and Transylvania University are in Lexington, 44 miles distant.

Community Programs For Improvement

A new veterinary clinic has been built and is staffed with two veterinarians.

In the school system, four new school libraries have been constructed and four have been renovated. Land has been purchased to build a new consolidated high school.

A new public library costing \$122,300 is under construction. The new library will provide various services, and the old public library will be used as a branch.

By-pass U.S. 150 has recently been completed providing a four-lane highway circumventing the Stanford business area.

In the form of recreation, a new state roadside park has been developed one-half mile south of Stanford on U.S. 27.

To supplement present housing facilities, an additional 50 to 75 new units will go under construction shortly.

The city will change to a land-fill method of garbage disposal in the near future.

Recreation, Entertainment, and Livability

The Lincoln County Farm Bureau Youth Center was completed in the Spring of 1966. Located on a 10-acre tract, it includes a building to house a banquet center with cooking facilities, outside picnic areas, a Little League baseball and football field, facilities for the 4-H cattle show and fair, and a parking lot. The Lions Club sponsors the Little League baseball teams which compete at the park and has provided lights, bleachers, and a concession stand.

A 365-million gallon lake, the source of Stanford's water supply, provides excellent fishing.

The Dix River Country Club has a 42 by 82-foot junior Olympic swimming pool with a wading pool; two regulation tennis courts; a regulation 9-hole golf course laid out in a championship distance with 10 putting greens; a 3-acre fishing lake; a picnic area; and a clubhouse to provide for meetings, dances, and dinners.

Recreational facilities and points of interest within 50 miles of Stanford include: Herrington Lake; Lake Cumberland; William Whitley House State Shrine; Constitution Square State Shrine; Isaac Shelby State Shrine; Old Fort Harrod State Park; Perryville Battlefield State Shrine; and Fort Boonesborough State Park. Consequently, swimming, boating, fishing, camping, and sight-seeing are available. Horse racing and major college sports are available in Lexington, 42 miles north.

The eight colleges and universities in the area offer concerts, plays, and lectures; and campus tours to the public.

THE LABOR MARKET

Winchester, Kentucky

Natural Gas

Company serving - Western Kentucky Gas Company

Source of supply - Tennessee Gas Transmission Company

Size of transmission line - 4-inch

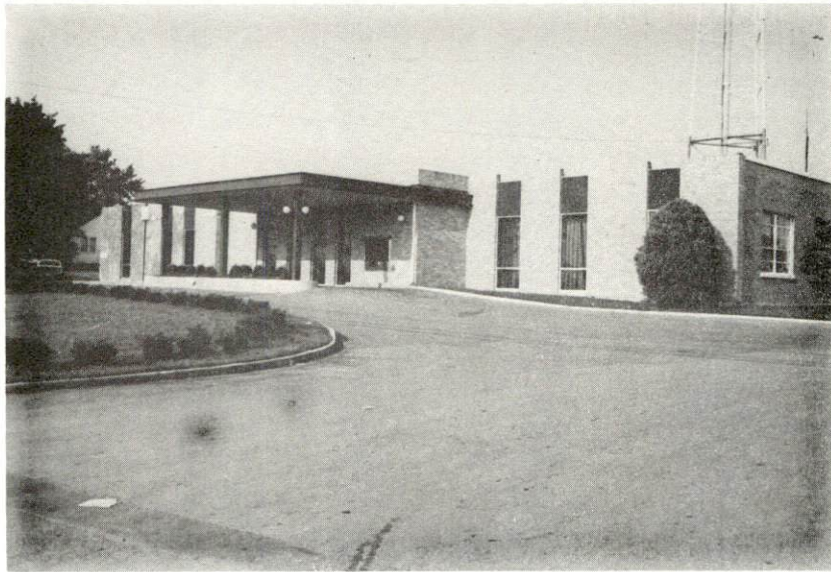

Distribution lines - 2 to 6 inches

BTU content - 1,018

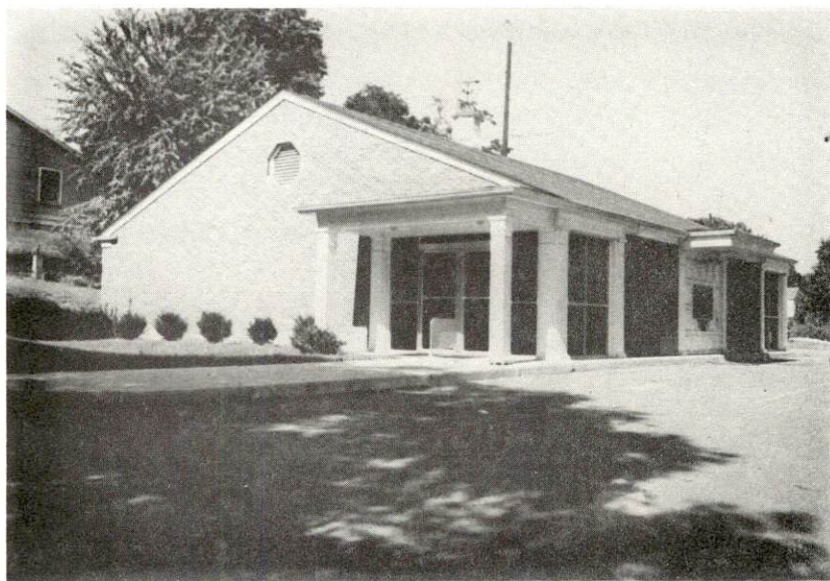

Specific gravity - .60

Distribution pressure - 35 psi maximum

Rates will be furnished by Western Kentucky Gas Company, Danville Office

Inter-County RECC

Kentucky Utilities Company

WATER AND SEWERAGE

Water

Company serving - City of Stanford Waterworks
Source - impoundment
Treatment plant capacity - 1,000,000 gallons per day
Average daily consumption - 272,700 gallons
Peak daily consumption - 416,300 gallons
Type treatment - mechanical clarifier, sand filters, chlorine, lime, alum, and fluoride
Storage capacity - 800,000 gallons
Average pressure - 100 psi
Average temperature - 50° F.
Size mains - 12, 8, 6, 4 inches

MONTHLY WATER RATES FOR WHOLESALE AND INDUSTRIAL CONSUMERS

First	2,000 gallons used per month	\$3.20
Next	3,000 gallons used per month	1.05 per M gallons
Next	5,000 gallons used per month	.95 per M gallons
Next	20,000 gallons used per month	.85 per M gallons
Next	20,000 gallons used per month	.75 per M gallons
Next	25,000 gallons used per month	.60 per M gallons
Next	25,000 gallons used per month	.45 per M gallons
Over	100,000 gallons used per month	.35 per M gallons

Fire hydrant rental is \$40 per year.

Surface water sources - Dix River
Average discharge - near Danville about 440 cfs
Expected ground water yield - entire county about 5 gpm or less except southern tip - 5 to 50 gpm
Yield along main streams - as above

Sewerage

Company serving - City of Stanford Waterworks
Design population - 4,000
Average daily flow - 175,000 gallons
Treatment - primary and secondary
Type treatment - aeration, clarifier, drying beds, floating cover digester
Treated effluent discharged into - Logan's Creek
Size of sanitary mains - 12, 10, 8 inches

Rates (Based on amount of water used) -

First	3,800 gallons used per month	\$2.50
Next	26,200 gallons used per month	.45 per M gallons
Next	20,000 gallons used per month	.30 per M gallons
Next	25,000 gallons used per month	.18 per M gallons
Next	25,000 gallons used per month	.09 per M gallons
Over	100,000 gallons used per month	.035 per M gallons

LOCAL GOVERNMENT

City

Structure - Mayor - 4-year term; 6 councilmen - 2-year terms
Budget 1969-70 - General Fund \$91,267; Water and Sewer Fund \$135,484
Fees and licenses - Privilege licenses range from \$5.50 to \$100.50
(Average License Fee is \$35)

County

Structure - County Judge - 4-year term; 4 magistrates - 4-year terms
Budget 1969-70 - General Fund \$117,284; Road Fund \$50,916

Average size of farms (acres)	94.8	98.4
1964 value of all farm products	\$ 7,827,389	\$ 37,181,757
Value per farm	4,018	3,528
Total crop sales	4,139,501	20,699,443
Total livestock & livestock products	3,685,051	16,457,196
1967 agricultural production included:		
Burley tobacco (lbs.)	5,216,000	28,064,000
Corn (bu.)	980,000	4,434,000
Cattle and calves (number)	51,200	218,600
Hogs and pigs (number)	12,300	54,800
Milk production (1966) (lbs.)	45,795,000	209,710,000

Natural Resources

Principal mineral resources	Limestone
Other mineral resources	Possibly some local clays and petroleum
Acres of commercial forest land	58,200
Most abundant tree species	White oak, hickory, red oak, ash, soft maple, yellow poplar, hard maple

Climate 14/

	<u>Lincoln County</u>
Temperature	
Annual mean (30-year record)	55.6 degrees
Average annual 1969	54.6 degrees
Record highest July 1966 (6-year record)	98.0 degrees
Record lowest January 1966 (6-year record)	-10.0 degrees
Seasonal heating degree-days (30-year record)	468
Precipitation	
Mean annual total (30-year record)	44.73 inches
Mean annual snow and sleet (25-year record)	16.00 inches
Total precipitation 1969	39.50 inches
Mean number days precipitation (25-year record)	
(.01 inch or more)	128
Average number days thunderstorms (25-year record)	47
Prevailing winds (17-year record)	South

HISTORY

Lincoln County, one of three original Kentucky counties formed by the Virginia Assembly, dates from November 1, 1780. It was so named in honor of General Benjamin Lincoln, a Revolutionary War hero from Massachusetts.

During the years between 1785 and 1842, Lincoln County gave up lands to form five other counties and parts of five more. With its present boundaries Lincoln County is a high rolling tableland which includes the watershed between the Green and Kentucky Rivers. Its topography is gently rolling to hilly with scattered tracts of timber throughout. Stanford, its present county seat, is 1,032 feet above sea level.

The first county seat of Lincoln County was Harrodsburg, but as Lincoln County became divided to form new counties, Stanford assumed the county seat for Logan's Fort, which had become the provisional county seat when Harrodsburg was incorporated into a new county. This change took place in May of 1786. It was sanctioned by the Virginia Legislature the next year, and Stanford was incorporated as a town. In 1970 Lincoln County had a population of 16,053.

Historically, Lincoln County was the site of the first court held west of the Alleghenies, which was held at Harrodsburg, county seat at that time. Eight miles from Stanford is the William Whitley House, the oldest brick house west of the Alleghenies and now a state shrine. The home and grave of Kentucky's first governor, Isaac Shelby, are also in Lincoln County. Lincoln County residents regard their heritage with pride and support progressive action to make the area an even better place to work and live.
