Partial scrapbook created by Rodes Myers, Ogden College Class of 1919. The scrapbook includes Ogden College baccalaureate, commencement, debate and lunch programs; clippings regarding Myers participation in debates, Ogden faculty and alumni; Ogden basketball ticket; and his attendance at University of Cincinnati and University of Kentucky.

# DR. C. L. GREAVES DELIVERED ABLE BACCALAUREATE SERMON

## FRIENDS OF OGDEN'S STUDENTS PACK BAP- TIST CHURCH

FORTY-SECOND ANNUAL COM-  
MENCEMENT OF OGDEN  
COLLEGE BEGAN LAST  
NIGHT.

The address to the graduating classes of the Collegiate and Preparatory Departments of Ogden College was given last night in the Baptist church by Dr. Greaves. The house was packed almost to its capacity. The students of the college occupied the front rows with the faculty. Dr. Bell, Dr. Eisenhart, and Rev. Ham, assisted in the service.

A most promising service had been planned by the choir, but no light came on till the sermon was half through, so that a few old songs that everybody knew were sung without the organ. Later in the service, however, when the current came the choir sang, "Rejoice in the Lord," by Parker. Mrs. L. T. Dickey sang the solo part most beautifully.

A more appropriate and inspiring address to a group of men graduating from College could not have been given. In a clear and forceful way Dr. Greaves brought forth as the paramount question in the life of every individual. His subject was, "The Paramount Question."

His text was Matt. 22:42, "What think ye of Christ?" Following is a very brief synopsis of what he said: "Young gentlemen, you have answered the questions of your instructors during your high school and college course so correctly that they have judged you worthy to enjoy the honors of graduation. It remains for me to address to you the most important question of all, and to indicate the vital importance of a right answer, 'What think ye of Christ?'"

Who is Jesus Christ? Well, He is the key person of all history. Hundreds of years prophets foretold that He was to be born of a virgin in Bethlehem, reared in Nazareth, acclaimed as Saviour and Lord, sold for thirty pieces of silver, betrayed with a kiss, crucified between malefactors, pierced by a spear, buried in a rich man's tomb, raised from the dead, translated to heavenly glory. On his account of Alexander scattered Greek

culture over the world, and the Roman established order and law, both Greek and Roman being the unconscious instruments of destiny in preparing the world for the spread of the Gospel.

In character Jesus Christ was sinless, and in his teaching perfect. Sidney Lanier in one of his great poems calls up the great characters of the past to thank them for what they had done for him. But in each one of them, in Homer, Dante, Shakespeare and others there was something to forgive. But of Jesus he exclaimed "Oh, what a miss may I forgive in

BOWLING GREEN, KENTUCKY FRIDAY, MAY 30, 1919.

# OGDEN CLOSSES 42D SESSION RODES MYERS WINS OGDEN MEDAL B. A. DEGREE CONFERRED ON FOUR

The forty-second session of Ogden College came to a close last night with the graduating exercises in the Auditorium of the Business University. This year, it was thought best to omit the usual baccalaureate address and have instead the Senior Orations for the Ogden Medal. No Commencement speaker could have excelled the four young orators who gave polished, thoughtful, eloquent orations on subjects of their own selection. They had been trained under the direction of Mr. Manchester of the English Department, and their stage appearance and delivery showed the evidence of a patient and thorough training. Perhaps Ogden never had a better graduating exercise, and without doubt the Senior Orations given last night were far above the average. The judges; Messrs. O. P. Roper, T. T. Gardner, Judge Charles Drake, Prof. Gordon Wilson and Dr. T. O. Helm decided that the Ogden Gold Medal for Oratory was won by Rodes Kirby Myers. His oration was on The Monroe Doctrine.

Mr. W. D. McElroy, a member of the Board of Trustees, presented the three medals, given by Ogden College annually, to Messrs. John Churchill Rodgers for Declamation, to Rodes Kirby Myers for Oratory and to Howard Volney Tygret for the highest grade made during the whole college course. Mr. McElroy's speech of presentation was thoughtful, original and

Hon. Max B. Nahm, as President of the Board, conferred the degree of Bachelor of Arts on George Henry Lazarus, Jr., William Lawrence Roemer, Rodes Kirby Myers, and Howard Volney Tygrett. He also presented High School diplomas to twenty-four high school graduates: John Richard Adsit, Henry W. Bousman, Henry Maury Cowles, Julian Hines Gilbreth, John Thomas Gorin, Russell M. Green, Karl Norman Grubbs, Lyman Baines Hall, Lively E. Holland, Robert Emmett Hogan, Orlando Earhart Huddle, Carroll H. James, Joel Madison, Edgar Osborn, Douglas Woods Porter, Stanley N. Reeves, John Churchill Rodgers, Joseph L. Schneider, Jesse Spalding, Bernard Sigmier, Silas Conrad Tichenor, Bailey Meador Wade, Joseph White.

In his address, Mr. Nahm reminded the graduates that these are the first classes old Ogden is sending out into the new world that has come to be in the last few months, and that Ogden in sending them out as representatives to help re-build the world. His address was most impressive, original and scholarly.

Misses Kellogg gave most pleasing and appropriate musical numbers and Miss Thompson sang in a manner that pleased and entertained every one in the packed house. Dr. Bell gave an invocation that appealed to every heart and Dr. Houze brought the splendid program to a close with a most fitting and devout benediction. Again it may be repeated that in

Thee, Jesus, good Paragon, thou Crystal Christ."

Concerning himself, Jesus declared that he was God's Son, that He had existed from all eternity, that He was the world's only Saviour, that He had all authority in heaven and on earth.

This astonishing declaration of His was proven and established by His wonderful wisdom, by His faultless character, and by His Divine power. He healed the sick, touched the blind and made them see, cleansed lepers,

raised the dead, fed multitudes by miracles, rose from the dead, and ascended to God in a cloud.

To-day He is the most powerful personage in the world. Where He is preached other gods vanish. Where He is preached schools, colleges, libraries, hospitals, and happy homes spring up as by magic. There is no spot on earth ten miles square fit for a dwelling place unless His name is known there.

Now let me try to impress you with the importance of thinking rightly concerning Him, for your attitude toward Him is determined by your opinion of Him.

If you accept Him as being in truth the person I have described, you will receive from Him your ideals of life and usefulness. It does not make much difference what you do for a living, if you live right. Sometimes the preacher is called the "man of God." Accept Jesus Christ and you will all be men of God, though perhaps few of you will be preachers. What we need to-day is men of God, godly men, in every walk of life.

Your value as neighbor and friend, after a while perhaps as husband or father, depends on what you think of Christ. The Christian man is always kind, always dependable, always peaceable. No one could ask

any better lot than to be surrounded by real Christians. Your value as world citizens depends on what you think of Christ. You are to be world

## DECLAMATION CONTEST HELD IN OGDEN COLLEGE

BOWLING GREEN, Ky., April 7.—(Special.)—The annual Robinson medal declamation contest of Ogden college took place Thursday night in the college chapel. The judges, Rev. E. W. Halleck, J. G. Denbar and Ely H. Adams, awarded the gold medal to Rodes Myers, the 16-year-old son of William H. Myers. His subject was "Spartacus to the Gladiators." The other seven speakers and their subjects were Frank S. Sheehan, "The Death of Roden"; Harold Helm, "The Rescue of Lydia"; John E. Burks, "For the Love of a Man"; Roy Grady, "The Execution"; Taylor Elrod, "Jack the Fisherman"; Sam Richie Alexander, selection from "Ivanhoe"; McElroy Moss, "The Chariot Race." The annual banquet followed the contest.

"The well chosen words, in which American's venerated captain bade farewell to public station hushed faction into silence, and the last rapid past, his bark went fitly down to a rich sunset through smooth waters, applauding multitudes crowding the banks, and parties emulating in respect as though to borrow glory from his departing radiance." These words might well be applied to another great President, whose ship quietly slipped away from the shore, ploughed the rough waters, received the greetings of the multitudes and honor of all nations. Defied by only a disgruntled and ignorant few, thus we see our Woodrow Wilson carry and extend to the world the Monroe Doctrine, stripped of its imperialistic tendencies, in the League of Nations.

## RHODES MYERS HONORED

Rhodes K. Myers teacher of Latin in Ogden College, received a letter on Friday from Miss Elizabeth M. Roff, of Paris Ky. president of the Classical Association of Kentucky, stating that he had been appointed on a committee of eleven, one from each congressional district, to represent the Third District at the first annual meeting of the Association at Richmond, Ky. April 1 and 2, and Kentucky Latin Tournament at Lexington May 14th. Mr. Myers is asked to notify each Latin teacher in his district of the meeting.

prime of life and usefulness. To say nothing of the sorrow, year is reported as being \$903,750. At a very low estimate of \$2,500 for each life lost the actual money value of those dying was \$3,947,500. If to this be added the cost of caring for the sick it gives a total loss to the people of Kentucky from this one disease in an average year of \$4,911,250.

## NEW OGDEN COLLEGE FACULTY ANNOUNCED BY BOARD OF TRUSTEES

H. Huddle and R. K. Myers Selected as Members of the Faculty.

At a meeting of the Board of Trustees of Ogden College the following educators were elected to compose the new faculty: Dr. J. Howard Edgerton, president; Horace Huddle, Bowling Green, Ky., graduate of Ogden and Georgetown College, Georgetown, Ky., science; Rodes K. Myers, Bowling Green, Ky., graduate of Ogden College, mathematics and languages; Edgar Z. Palmer, Swarthmore, Pa., graduate of Swarthmore College, history and political science; B. N. Collins, graduate Berea College, Berea, Ky., science and mathematics; Lucius Squires of the Big Dipper Oil Company, athletic director.

The fall term will open Monday, August 30.

The faculty this year is one of the strongest Ogden College has ever had. Dr. Edgerton, the new president, says that the prospects are good for one of the largest, if not the largest enrollments this institution has ever had. Young men from Tennessee, Chicago, Ill., various high schools in Kentucky and elsewhere have written to Dr. Edgerton, signifying their intention of enrolling on the opening day.

At a very low estimate of \$2,500 for each life lost the actual money value of those dying was \$3,947,500. If to this be added the cost of caring for the sick it gives a total loss to the people of Kentucky from this one disease in an average year of \$4,911,250.

## OGDEN COLLEGE TO OPEN NEXT MONDAY

### Large Enrollment in Preparatory and Collegiate Departments Assured.

The board of trustees takes pleasure in announcing that the new president of Ogden college is Prof. J. Howard Edgerton. Professor Edgerton is a graduate of Hamilton college, Clinton, N. Y., and took a post graduate course at Auburn Theological Seminary, Auburn, N. Y. He has engaged in the following educational work: Instructor in Latin and mathematics, Albion high school, N. Y.; supervising principal of schools, Springdale, Pa.; instructor in Latin and Greek, Wilkesburg High, Pa.; principal of high school, Crafton, Pa.; head of the department of education and psychology, Waynesburg college, Pa.; director of education, National War Work Council, Philadelphia district; instructor in English and public speaking, Carnegie Institute of Technology, Pittsburgh, Pa. For some time Professor Edgerton was supervisor of the Boys' Working Reserve, an organization connected with the United States department of labor. He is author of "A Rational Method for Caesar," "How to Study" and "Psychological Tests for Soldiers and Sailors."

Prof. B. M. Collins, a native Kentuckian, will have charge of part of the mathematics and science. Professor Collins received the degree of Ph. B. from Berea college, Kentucky. He is also a graduate of Utica high school, Utica, Ky. For some time he was principal of Stanley high school, Stanley, Ky. He is an ardent advocate of athletics, debates and literary activities.

Prof. Edgar Z. Palmer will be the instructor in history and political science. He is a native Pennsylvanian and after graduating from Swarthmore college, Pa., where he received the A. B. degree, he spent a year in Europe where he attended the Woodbrooke school, in England, specializing in economics and philosophy. He comes to Ogden highly recommended.

Prof. Rodas Myers, who graduated from Ogden college, receiving the A. B. degree, has been engaged for another year as an instructor in Latin and Greek. He is very popular among students and alumni and is greatly interested in building up the athletic association. As manager of the football team, he has arranged a strong schedule with the best teams in Kentucky and Tennessee.

Prof. Horace B. Huddle, who is a graduate from Ogden college with the B. S. degree, and who later took a post-graduate course at Georgetown college where he specialized in physics and chemistry, has been elected for another year as the John E. Robinson professor of natural science. He has been untiring in his efforts to build up the science course at Ogden and will have charge of Spanish and all advanced courses in physics and chemistry.

Mr. Lucius Squires has again offered his services to coach the football team for this season. As Mr. Squires replayed on the famous University of Pittsburgh team, Ogden is assured of one of the fastest teams in Kentucky. Call for candidates will be given on the opening day.

Ogden will have a large enrollment this year in both the preparatory and collegiate departments. Three years are given in the preparatory department and four in the college, leading to the A. B. or B. S. degrees.

The fall term will open Monday, August 30.

## RODES MYERS WILL ENTER YALE COLLEGE

HEALTH, 1908-1909.

33

Another of Ogden's graduates has been admitted to the Senior Class in Yale, without examination. Mr. Rodas K. Myers received a letter from Mr. A. K. Merritt, the Registrar of Yale, last Saturday, stating that the committee on Admissions had examined his credits and testimonials from Ogden College and would admit him to the Senior Class in Yale on the basis of his record and work in Ogden.

Mr. Myers is one of the first honor graduates of Ogden of the Class of 1919. He is an exceptionally good student and will do his part to uphold the high standing and good reputation that Ogden College enjoys at Yale. He is the second member of this year's class to receive such recognition at Yale. Mr. Harry Lazarus, Jr., was notified some weeks ago that he could enter the Senior Class at Yale next year. Since then he has also been admitted to the Senior Class at Princeton.

## COUNCIL

### Fixes First Debate

#### Clash To Be Big Dual With Indiana University.

Eight Men Are Chosen For Question, "The World Court."

Triangle With Butler College, Of Indianapolis, and Ohio Will Be Held In February, According to Plans.

The Debate Council of the University of Cincinnati held a very important meeting Thursday afternoon, December 6th, it was reported. The Council announces the following debates that were decided upon. The first debate will be a dual with Indiana State University at Bloomington, Indiana, January 18. The subject will be "The World Court."

The men who will represent the University of Cincinnati are: on the affirmative side, Howard Dresbach, Walter Johnson, L. A. Olan, and Myron Beltzman, alternate; on the negative side, Rhodes K. Myers, Robert McIntosh, Maxwell Meyers, and Forrest Ely, alternate. These men are urged to begin their work immediately by the Council since the debate is hardly more than a month from now.

The Council also decided upon the other debates for the season. A triangle with Butler College of Indianapolis, Indiana, and Ohio State will be held on February 15. Those members of the squad chosen on November 22, who are not on probation and who desire to debate on the compulsory arbitration for railroads and coal mines are asked to prepare a speech of at least five minutes on one or two points of this question. They will deliver their speeches Friday, December 14, at 3:30, in Room 5, Hanna Hall.

The other debates are: a dual with Oberlin, a triangle with Miami and Ohio State, a singleton with Washington and Jefferson University, and a singleton with Washington and Lee University.

### RODES MYERS WINS SIGNAL HONOR

Rodes Myers, of this city, who is attending the law department of the University of Cincinnati, has won a signal honor in the institution. In an intercollegiate oratorical contest, twenty-eight out of the five thousand students of the university were selected from which to choose the champion for the university and finally from six of the most proficient of the twenty-eight Mr. Myers was selected to represent the school in the contest. He will arrive at home in a few days to spend the holidays with his parents, Mr. and Mrs. W. H. Myers.

#### LOCAL BOY FOR DEBATE

Rodes K. Meyers, of this city, has been selected to represent the University of Cincinnati in a debate with Ramsey MacDonald, Jr., son of the British premier, which will take place in Cincinnati on October 13. Mr. Myers has been notified by Dr. C. B. Van Wie head of the speaking department of the University of Cincinnati, that he had been selected to uphold the prohibition question on the affirmative side.

### RODES MYERS WINS DEBATING HONORS

#### Brilliant Rebuttal Enables Cincinnati U. to Defeat Washington and Lee

CINCINNATI, O., May 14.—Rodes K. Myers, Bowling Green, Ky., a student at the University of Cincinnati, has made an unusual record as a debator at this institution.

Myers' ability, meted him a speakership in the hotly contested debate between the University of Cincinnati and Miami University, law department of the University of Cincinnati's chief rival in all fields

of inter-collegiate activity. He made a main speech and rebuttal.

Myers was chosen by a faculty committee, with C. Adair Harrell, Norfolk, Va., to represent the university against the undefeated pre-Washington and Lee team. Again due to Myers' brilliant rebuttal, Cincinnati won.

He has been elected to Tau Kappa Alpha, national honorary debating fraternity. Myers is a member of Lambda Chi Alpha and Phi Alpha Delta, the professional legal fraternity.

Mr. Myers is the youngest son of County Tax Commissioner, W. H. Myers and Mrs. Myers, 741 Twelfth street. He is a graduate and former teacher of Ogden College and later taught at Morgantown, Kentucky. He is now a student in the law department of the University of Cincinnati.

Rodes K. Myers, who is here spending the summer with his parents, Mr. and Mrs. W. H. Myers, 741 Twelfth street, today received a letter stating that he had won the Saylor prize of \$50.00 for writing the best essay on "Evidence," given by John R. Sayer, lawyer, Cincinnati. The prize is awarded annually to a student of the University of Cincinnati. The subject of Mr. Myers was "Application and Limitation of Res Gestae Doctrine." Mr. Myers is a student in the law department of the University of Cincinnati from which institution he will graduate in May, 1925.

DUSTY MEYERS.

# A Poem

A short time ago, Dr. Edgerton received a poem from Prof. R. K. Myers, a former teacher and student of this institution. Professor Myers composed this poem to illustrate the strong love he still has for old Ogden. The poem is as follows:

"Dear old Ogden, way up on the hill,  
I loved you once, and I love you still.  
O, that today I could look in and see  
Thy chapels and classrooms and spots  
dear to me.

Three years and longer have over me  
passed,  
Since I as one of thy pupils was  
classed.

But there are changes, they come to  
us all,  
But though they be great, or though  
they be small,  
To me as of yore, so to me thou art  
still  
Just Dear Old Ogden, way up on the  
hill.

Thy graduates are scattered to states  
far and near,  
Students come by the score to thy  
halls every year.

The best knowledge of thee they demand,  
And there they will find it, the cream  
of the land.

How often thy vision stands out before me,  
O, my happiest thoughts are when  
thinking of thee.

And I know there are others who  
with me will say,  
As we are travelling along life's  
rugged way,

Dear Old Ogden, way up on the hill,  
I loved you once and I love you still."

mined that it is not affected with a contagious disease.

If scarlet fever maintain strict isolation, in an up-stairs room,  
if the case may be, until the shedding of the  
fanny scales disappear, and, afterwards, until

## SPECTATOR

"The longer I live, the more deeply I am convinced that that which makes the difference between one man and another—between the weak and the powerful, the great and insignificant, is energy, invincible, determination—a purpose once formed and then death or victory," stated Maxwell Burton. The quotation often flashes upon the mind of the writer as he sees his student contemporaries succeed and fail in their work.

The great difference between those who succeed and those who fail does not consist in the amount of work done by each, but in the amount of intelligent work. Many of you who fail ignorantly do enough to achieve grand success; but you labor haphazardly, building up with one hand to tear down with the other. You do not grasp circumstances and change them into opportunities. With ability enough, and time in abundance—the warp and woof of success—you are forever throwing back and forth an empty shuttle and the weaving of the real web of life, that should have its beginning while you receive your training, is never started.

No one can pursue a worthy object steadily with all the powers of his mind, and yet make his life a failure. You cannot throw a tallow candle through the side of a tent, but you can shoot it through an oak board. You can focus the rays of the sun in winter, and kindle a fire with ease. The giants of the race have been of concentration who have stuck sledge hammer blows in one place until they have accomplished their purpose.

You, who think one minute of your bookkeeping and the next moment turn to tell your neighbor of an incident of yesterday, are not only hindering the progress of your neighbor, but are failing to strike the sledge hammer blow each day until you have conquered the sub-

ject. This same lack of concentration lies with students of shorthand and typing. You are agents of "Scatteration," the curse of American business life.

"The one serviceable, safe, certain, remunerative, attainable quality in every study and pursuit is the quality of attention," said Charles Dickens. Among the students of today we find the lack of this quality and yet you wonder why you fail. You all desire success but you are not willing to pay the price of concentrated study for it. There is one great question you will be asked when you go out to take a position, "What can you do?" Are you going to depend upon the name of the school or on the teachings of the school? The latter is undoubtedly the only dependence upon which success is founded and unless such teachings are enhanced by concentrated study upon the theories and principles taught, your success, even then, will be limited.

Let us in the future think of the subject allotted for a certain period and concentrate all of our energy upon the solution of the problems presented by it each day. Forget that any other subject of interest exists during the study of one certain subject and you will soon become a master of this one prudence in life—called CONCENTRATION.

## U.K. TO GRADUATE 324 TOMORROW

William Allen White to Ad-  
dress Largest Class In  
University's History.

### SENIORS' NAMES LISTED

The Courier-Journal Lexington Bureau.  
Lexington, Ky., May 30.—The largest class ever to be graduated from the University of Kentucky, numbering 324 students, will be presented diplomas Monday at the fifty-eighth annual commencement exercises. The commencement address will be delivered by William Allen White, Emporia, Kan., editor of the Emporia Gazette, whose subject will be "Some Cycles of Cathay."

The exercises will begin at 10 o'clock Monday morning at the university gymnasium with the invocation by the Rev. Dr. Benjamin Jay Bush, pastor of the Second Presbyterian Church, Lexington. Dr. McVey will present the degrees following. Mr. White's address and will read the pledge of the senior class. Benediction will be pronounced by the Very Rev. Robert Kinloch Massie, dean of Christ Church Cathedral, Lexington.

Col. H. P. Hobbs, professor of military science and tactics at the university, will be marshal of the day and will be assisted by Thomas A. Ballentine, Cecil D. French, B. Arthur Grobmeier, Karyl H. Rohn, L. W. Vernon Stamper and George R. Wolff, members of the senior class.

### To March to Gym.

Headed by the university band, the president and speaker of the day, trustees and official guests, deans and faculty members, the students will march from the campus to the gymnasium.

Those who will be graduated "with high distinction" are Miss Lucille Bush, Mt. Sterling; Alvin Grenebaum, Louisville; Louis Arthur Pardue, Scottsville; Edward Roark, Bremen; Joseph Kasile Roberts, Miss Katherine Elliott Roberts, and Miss Ruth Nield Prewitt, Lexington.

Those to be graduated "with distinction" are Miss Irma Loomis Bain, Miss Mary Agnes Gordon and Miss Frances Lathrop Smith, Lexington; Miss Mary Matilda Beard, Shelbyville; Wallace Edmund Franck, Louisville; Max Freeman, Burgin; Miss Lydia Kenney, Fremd, Eminence; John William Gilson, Jr., Winchester; Miss Frances Shinkle Jennings and Karyl Hermann Rohn, Cynthiana; Joe Hobson and Miss Anne Elizabeth McClesney, Frankfort, and Miss Emma Ritchie Stevenson, Maysville.

The degree of master of arts in education will be conferred on Armie Carman, Oscar Fitzgerald Galloway, Carmie Hammonds, and Elmer D. Hinkle, Lexington; William Homer Wilmore, Ernest C. Canon, Arnold, Murray, Russell Aubrey Hunt, Nicholasville; Herman Jacob Kloepper, Kent, Ind.; Clifton Sigaby Lowry, Marion; William R. Stallard, Sandlick; Miss Grace Carrington Richards, Hopkinton; Miss Mary Elma Poole, Downing, Mo., and Mrs. Vaneta Thomas Horlacher, Lexington.

### Other High Honors.

The same degree in mathematics, Marion C. Brown, Lexington; in history, and political science, George T. Fuller, Taylor and Roscoe Conklin Cross, Mayfield; in English, William Howard Hickerson, Owensboro.

Master of science: In physics, Thomas Marshall Hahn, Lawrenceburg; in mathematics, Russell Smith, Park, Richmond; in geology, George William Pirtle, Elizabethtown, and in chemistry, Manly McDonald Windsor, Lexington.

Master of science in agriculture: In animal husbandry, Percy Harold Gooding, Crooksville, S. C.; in animal industry, Carney Agnew Hollowell, Princeton; Henry Russell Vanzant, Frankfort, and Edward James Wilford, Lexington; plant pathology, Charles Hubbard, Lexington, and dairy husbandry, Henry Lee Katzmann, Louisville.

Civil engineer, Hugh Mathew Merriwether, Louisville; mechanical engineer, Julius Wolf, Lexington, and electrical engineer, Leo Steele Borders and Junius Weakley Millard, Lexington.

### List of Graduates.

Those who will be awarded other degrees follow:

### College of Agriculture.

John William Blue, Marion; Stuart Albert Brabant, Owensboro; Luther Edward Dean, Lewisport; McKinley Elam, Lexington; Marlan Benjamin Franklin, Berea; L. Waite Franklin, Marion; Clarence Edward Hubbard, Louisville; Edith Jones, Lancaster; Raymond Henry Lickert, Alexandria; William Scherffus Ligon, Mt. Vernon; D. Howard Mahoney, R. R., Lexington; Samuel Coleman Martin, Millersburg; Paul Wentworth Mathews, Lexington; Gladys Emerson Platts, Los Angeles, Cal.; Bland Yancey Redford, Glasgow; Curtis Moore Sanders, Nicholasville; Zachariah Thomas Shurley, Mud Lick; L. W. Vernon Stamper, Middlesburg; Halbert Houston Thornberry, Corydon.

Home Economics Department—Mary Elizabeth Atkins, Louisville; Irma Loomis Bain, Lexington; Helen Esther Bowen, Winchester; Dayle Casner, Providence; Elizabeth Cromwell, Cynthiana; Mary Elizabeth Galloway, Ulica; Betsy Dorothy Helburn, Paris; Dorothy M. Moran, Louisville; Elizabeth Morris, Lexington; Virginia Newman, Lexington; Ruth Nield Prewitt, Lexington; Mildred Rees, Cynthiana; Emma Ritchie Stevenson, Maysville; Mary Lee Taylor, Owensboro; 1 Sadie Dewees Wilgus, Lexington.

# VETS HELD PARLEY HERE THURSDAY

## Banquet Concludes Third District Legionaire Meeting

The annual Third District conference of the American Legion was held Thursday afternoon at the Armory, with District Adjutant Dave Ruby, of Central City, presiding.

A parade through the principal streets of the business and residential section at 1:30 o'clock, with 300 Legionnaires in the line of march.

The Welcome Address was given by Mayor B. S. Kutherford, of this city, and the response by Mayor Fred Weir of Owensboro. Others who made talks were: Mrs. John Gilmore of Owensboro, State President of the Woman's Auxiliary; State Commander Mike Callas of Owensboro; State Adjutant Tom Hayden of Louisville; Col. Rayburn Rose, of this city.

At 7 o'clock a banquet was held at the Helm Hotel for the visitors. Publicity Chairman, Rayburn Rose, was toastmaster. Covers were laid for 183 Legionnaires.

Representative Rodes K. Myers introduced Governor Ruby Laffoon who made the principal address of the evening, which was followed by a talk by General H. H. Denhardt. Others who made talks were State Commander Callas, State Adjutant Hayden, C. M. Florence of Louisville, acting secretary of the Kentucky disabled ex-service men's board; Mrs. Gilmore and Mayor Weir, of Owensboro.

# RODES MYERS NOW HEADS LEGION OF CITY AND COUNTY

## Succeeds Herbert Moltenberry Who Resigns That Post

At a meeting of the Warren Post, Number 23, American Legion, Rodes K. Myers, local attorney, was elected Commander. H. F. Moltenberry, who was elected at the regular election held sometime ago, resigned due to his inability to give the time the work demands the coming year, with the local post entertaining the State Convention. After the election, Mr. Myers appointed the executive committee to serve with him and reappointed all of the members who were appointed by Mr. Moltenberry, replacing himself on the committee by Mr. Moltenberry.

The Executive Committee of the local post now consists of the following: James Mercer, L. J. Wren, F. H. Moltenberry, L. C. Curry and Dr. M. M. Moss. Other officers of the post are Joe Seemes, Vice Commander; William Thompkins, Adjutant; Dr. Hoy Newman-Chaplain; Ed Hartman, Historian; L. J. Renn, Sergeant at Arms.

Mr. Myers has called a meeting of the Executive Committee to meet at the Helm Hotel on Thursday night at six thirty.

It very much to get the physicians to this it is almost impossible to stamp health Board have done everything that the health officer. Other cases of pre-as follows:

death, then an ordinance forbidding the keeping of such animals within the city or town has been generally upheld.

## ROBINSON DECLAMATION CONTEST

Monday, June 5, 1916—8:00 P. M.

Bowling Green Business University Auditorium

### Program

Selection from "Oliver Twist" ..... *Dickens*  
EARL D. RABOLD.

"The Highwayman" ..... *Alfred Noyes*  
JOSEPH GARDNER.

Selection from "Ben Hur" ..... *Wallace*

Messala, a wealthy Roman aristocrat and army officer, has once been the close friend but is now the bitter enemy of Ben Hur, a prince of Jerusalem. Using his authority, Messala has had Ben Hur sent to the galleys for several years. The latter, eager for vengeance, makes friends with an Arab shiek and borrows from him his four best horses. Intending to ruin Messala financially as well as politically, Ben Hur places his entire fortune in the hands of his friend, Sandballet to accept all Roman bets. Thus, with everything at stake, these two bitter enemies clash in the famous chariot races in the old Roman race-course at Antioch.

ARTHUR DAUGHTRY.

Selection from "Ivanhoe" ..... *Scott*

The wicked warrior, Front de Bouef, dying calls upon the priest whom he has hitherto scorned. He pleads with the witch Ulrica, his partner in crime, and with his last breath curses alike Templar, Priest, Saxon and Jew.

LUCIEN GRAHAM.

Library Scene, "Lion and the Mouse" ..... *Charles Klein*  
CHARLES CRISTAL.

"The Boy Orator of Zapata City" ..... *Richard Harding Davis*  
RODES MYERS.

Selection from "The Man Without a Country" ..... *Hale*  
CONLEY LARMON.

Selection from "Merchant of Venice" ..... *Shakespeare*  
SAM RICHIE ALEXANDER.

## ORATION WHICH WON MEDAL

"THE MONROE DOCTRINE" DELIVERED BY RODES MYERS  
ABLE PAPER.

"The Monroe Doctrine" the subject taken by Rodes Myers in the debate Thursday night in which he won the Ogden medal was carefully prepared by the young man, and shows some deep thought. It reads:

The instinct of self-preservation is the first law of nature. As a natural law governing all creatures, it takes precedence over the social or artificial regulation of mankind. Self defense is an essential principle of existence. It is a law of nature that no rules of society can accurately define. Likewise the Monroe Doctrine is a special or new name for a principle of life that is as old as the existence of man.

It should be remembered that the Monroe Doctrine is neither an international nor a statute law; it is simply a declaration by President Monroe as to what had been the policy of the United States and what should be the policy concerning the question of European colonization in the Western world.

This policy so commended itself to the people as a wise and popular course, as so absolutely vital to the existence of the United States, that it has been cherished and enforced by all political parties and by all subsequent statesmen of the Republic. Many times in our history, occasions have arisen for the assertion of its principles, and in each instance

our Government has firmly adhered to this traditional policy, which commands the absolute devotion of the American people and which the world is now compelled to recognize. Let me recount to you facts concerning its origination, its different interpretations and applications.

Its nucleus is to be found in Washington's farewell address in 1796 when he urged the people to cherish public credit and good faith and advised them to deal justly with all nations, but by all means to avoid permanent and entangling alliances with anyone. His words upon this subject have served as a creed, and have been the basis of our foreign policy for over a hundred years.

This declaration was amplified by the next generation, when George Canning, the English minister for foreign affairs, signalled the danger from abroad, Adams placed the charge in position and adjusted the fuse, and President Monroe applied the match and out of the great conflagration burst forth the famous doctrine which was the corollary of that announced by the Father of our country. This American attitude crystallized into what is known as the Monroe Doctrine, when it was announced officially in concrete form by President Monroe as the outcome of an American apprehension; that the combination of European powers, known as the Holy Alliance, would interfere in South America to restore to the crown of Spain the colonies which had asserted their independence. To meet and check this movement, in his message to Congress on the 2nd of December, 1823, he made the following pronouncement: "In the wars of European powers in matters relating to themselves, we have never taken any part, nor does it comport with our policy to do so. It is only

had a greater, a better, or a more attractive Commencement program than the one given last night, and the old school has never had a bigger, better or more prosperous year than the one that has just closed.

The Times-Journal will to-morrow publish the address of Rodes Myers, the winner of the Ogden Medal.

HEALTH, 1908-1909.

Presentation of High School diplomas  
Presentation of College Diplomas and conferring degree of Bachelor of Arts.

when our rights are invaded or seriously menaced that we resent injuries or make preparation for our defense.

"With the movements in this hemisphere, we are of necessity more immediately connected, and by the course which must be obvious to all enlightened and impartial observers. The political systems of the allied powers is essentially different in this respect from that of America. We owe it therefore, to candor, and to the amicable relations existing between the United States and other powers to declare that we should consider any attempt, on their part to extend their system to any portion

The announcement of this policy involved us in two distinct issues. First, it was a declaration aimed at foreign intervention in the political affairs of independent states; second, it was a warning against future European colonization on the American continents. The first, based on the right of self-defense, was a policy, not a law; it was not to constrain the minor republics but to protect them. The second, as explained by John Quincy Adams, then Secretary of State, was intended to state the fact that the American continent was occupied by contiguous states, leaving no room for further colonization and introduction of foreign sovereignty.

Never having been formulated as a law or in exact language, it has at times meant different things to different people. It has become deeply rooted in the heart of every American and a permanent part of the foreign policy of the United States. When this declaration was made, it was the opinion of the people of the United States and of other nations, that it was a self denying declaration. Never has it proven to be so, rather it was for the peace and safety of the American people and government. It opposed European intervention for America's protection, for right and for justice and never for one instance has it limited the possibility of the expansion of the United States in this region.

As the outgrowth of the building of the Panama canal and the advancement in the Caribbean Sea, the Monroe Doctrine has been criticised and attacked by statesmen and writers of the world. No less an authority than a professor of Yale University called it an obsolete Shibboleth and Bismark said: "It is an international imperti-

of this hemisphere as dangerous to our peace and safety.

"With the existing of colonies of dependencies of any European power, we have not interfered and shall not interfere, but with the governments who have declared their independence and maintained it, and whose independence we have on great consideration and on just principles acknowledged we could not view any interposition for the purpose of oppressing them or controlling in any other manner their destiny by any power of Europe in any other light than as the manifestation of an unfriendly disposition towards the United States. It is impossible that the allied powers should extend their political system to any portion of either continent without endangering our peace and happiness, nor can anyone believe that our southern brethren, if left to themselves, would adopt it of their own accord. It is equally impossible, therefore, that we should behold such interposition in any form with indifference."

nence." Though many these criticisms may have been, and though strong their arguments, they have never outweighed the principles of the Monroe Doctrine on the scales of Right and Justice.

Its spirit permeated the Clayton-Bulwer treaty, in which Great Britain and the United States, in 1850, mutually renounced the right of colonizing, fortifying or occupying any portion of Central American. It was enforced against Maximilian, who by French intervention in Mexico, had been made Emperor and who until the close of the Civil War had perforce been left undisturbed. Both Cuba and Hawaiian Islands have felt its influence. It was applied by Grover

Cleveland to the claim of British Guiana to Venezuelan territory. For him to have abandoned the Monroe Doctrine at that particular time would have been to open the entire South American continent to the rapacious and land hungry nations of Europe. Cleveland's policy at this time met with general acceptance and had been anticipated by President Grant, who in urging the annexation of San Domingo upon the United States in 1870, used this language: "The doctrine promulgated by President Monroe has been adhered to by all political parties, and I now deem it proper to assert the equally important principle that hereafter no territory on this continent shall be regarded as subject of transfer to a European power."

President Roosevelt said that Cuba, Venezuela and Panama have shown the Monroe Doctrine to be a living reality, designed to hurt no nation, but to serve as protection for the civilization of the western continent and for the peace of the world.

The violation of American rights forced us to go to war, but after we were in it, we did not fight merely for the vindication of American rights, but for the establishment of freedom and the recognition of human rights throughout the world. We abandoned neutrality and isolation in the last war and having once done so, we are not likely to remain neutral again in any war which involves the balance of power in the world or the destinies of mankind. In his address to the Senate on January 22, 1917, President Wilson said: "I am proposing that all nations should with one accord adopt the doctrine of President Monroe as the doctrine of the world; that no nation should seek to extend its polity over any other nation of people, but that every people should be left free to determine its own polity, its own way of development, unhindered, unthreatened and unafraid, the little along with the great and powerful.

"I am proposing that all nations henceforth avoid entangling alliances which would draw them into competitions of power, catch them in a net of intrigue and selfish rivalry and disturb their own affairs with influences intruded from without."

In other words the Monroe Doctrine will be internationalized and the policy of avoiding isolation in the sense of avoiding secret alliances, will become a fundamental principle of the law of international order.

There need be no apprehension; the people of the United States will always be alert and watchful of their own interests. A higher principle than devotion to the Monroe Doctrine will guide principles of an organic law upon which the Monroe Doctrine is founded and of which it was but a single expression.

The orchestra met on Friday night at the home of Dr. Gibson. A good practice was put in.

The Robinson contestants are selecting their subjects for the contest, which will be held sometime soon.

## Ogden Notes

### Spanish Club

The Spanish Club is sure to be a success. It has a splendid list of officers, and is the largest of the two clubs of the college. On account of various conflicts with other programs, the club has not yet been able to meet and hold its first program. Prof. Lee announced that the club would certainly meet next week at some convenient time. The program will consist of the following: "The Origin of the Spanish Language," Claude Kinslow; "The Presentation of the Constitution," Ennis Harris; "The Growth of Spanish in Our Colleges," Victor R. Logan.

### The Cardinal

The third issue of Ogden's famous little paper known as "The Cardinal" appeared last week. This third issue shows a great improvement over the first and second. One hundred and fifty copies of the last issue of the Cardinal were sent to the Alumni who are scattered all over the country. Ogden, as has always been her custom, has taken this step in order that she might keep in touch with her former students. The alumni are responding very readily as subscriptions are coming in daily for the paper.

plague and other exotic diseases at the mention of which people pa

### The Importance of Systems

Vital statistics, the collection of deaths, constitute the book-keeping of the health officials for the necessary legislation, we have no provision for such a system in Kentucky worthy of the name. In order to do effective prevention we ought to know where every case of sickness and every death occurs and what caused it, and diagrams containing this information in easily

### OGDEN DEFEATED FRANKLIN

Opportunity knocked at the door of the Ogden football team Friday afternoon when they journeyed to Franklin and it was very forcibly opened and the outcome was anything but disappointing.

The Ogden aggregation has at last come into their own and the brand of football that they will put from now on will be seen only in the colleges in the east. Their defense was impregnable and their offense was a cyclone, and with Captain Grubbs back at one extremity of the line and the proverbial Spillman by name and nature on the other Ogden need fear nothing from the end skirting ability of any of the rest of the teams played this season.

Ogden is also very lucky to have so brilliant a field general as Jigger Osborne who handled the team with the tact and dispatch of a veteran and although his experience is very limited he is very receptive and some college he will very lucky to secure his service on the gridiron in the future.

Liedicker is performing in his inimitable style and while the other halfback is a question right now, there will be worthy candidate in that berth for the game with Glasgow next Friday.

Practice will start early this week and will continue until "night lets down her curtain and pins it with a star."

the health officials for the necessary legislation, we have no provision for such a system in Kentucky worthy of the name. In order to do effective prevention we ought to know where every case of sickness and every death occurs and what caused it, and diagrams containing this information in easily

Feb-24-1917  
**OGDEN COLLEGE NOTES.**

On Monday morning Dr. Pearce gave a most interesting talk on Maximilian, in Mexico.

On Tuesday morning Misses Kerr, Pence and Kellogg entertained the students with several musical numbers. All of these young ladies are talented musicians, and the students gave them a hearty welcome to return.

On Wednesday Mr. T. T. Gardner gave one of the best, if not the best, talk on "Insurance As a Vocation" ever given at Ogden. He treated the subject in a very unique way. He gave the department of insurance and said that the best definition of insurance is that it is a great national stabilizer. He showed that insurance is one of the

greatest professions for benefiting the people and that thousand of boys have gone to school only by the aid of insurance. He also gave the qualifications of an insurance man.

On Thursday morning the Washington birthday program was given. It was a mock senate and was gotten up by the students. The devotional exercises were conducted by Dr. Gibson. America was sung by the audience and then the senate was called to order by Chairman Hull. One of Washington's messages to Congress was read by Mr. Burke. Messrs. E. L. Hendrix, Carroll Wilson, McElroy Moss and Tobin made excellent speeches. The farewell address of Washington was given by Mr. Mitchell. The senate was then adjourned. The program was ended by the audience singing "The Star-Spangled Banner. The music for this program was furnished by the orchestra. A

number of visitors were present, and everyone stated that it was the most interesting and novel program they had ever witnessed.

The students voted for Friday instead of Thursday as a holiday. Ogden is thoroughly democratic and the faculty often calls upon the students to decide on such matters as this.

The orchestra made its first appearance Thursday, and all are very gratified at its progress. It is planning to give another program soon. The orchestra is under obligations to several ladies for the aid they have been giving them.

The literary societies had a very good meeting this week. The faculty is much pleased with the interest the students are taking in these activities.

The basketball team is practicing hard for the game which was postponed on account of illness in St. Matthew's team till next Tuesday, and are looking forward to a victory.

The baseball team is going to begin practice soon. The management is

from scarlet fever; 31,000 cases of diphtheria. Antitoxin was used in 4,516 cases very late in the disease, with a death rate of 17 cases and 13,337 deaths in one year. These are typical of what is occurring every year in the United States. The sorrow and suffering which is practically preventable by vaccination is well understood by the scientific world, but there is a phase of the loss of life and cents, and which ought to appeal to city councils and other officials, to hearten the well being of the people.

**OGDEN COLLEGE NOTES.**  
 Myers.

On Monday morning a debate was given by the Commercial Law Class. The subject was, "Resolved, That Corporations Do Not Promote the Welfare

of the People." The affirmative was represented by Rose and Honaker, and the negative by Helm and Hull. Each speaker gave excellent arguments. The judges decided in favor of the negative.

On Tuesday morning Dr. Rose gave a unique and interesting talk on Dentistry as a vocation. This was the seventh in the series of vocational talks. He demonstrated the work of a dentist and said that he would advise no one, unless she has plenty of money and time and is able to undergo a great many hardships, to enter dentistry. He also said that if he had possessed the knowledge of his profession which he knows now, he would not have entered it. The students hope that he will return and give more on this subject.

On Wednesday morning Mr. W. D. McElroy finished his talk on Banking. He gave the daily work of a bank, which in itself was both educational and interesting. Mr. McElroy is always given a hearty welcome at Ogden.

On Thursday morning the orchestra, aided by Miss Cecil Obenchain, who has been instructing it for quite a while, entertained the students with a most excellent program. The orchestra is going to be a coming organization of which Ogden can be proud.

Ogden extends congratulations to Mr. A. C. Dulaney, a graduate of the class of 1902, on his appointment as registrar and attorney for the Farm Loan Bank at Louisville. The students of Ogden know that Mr. Dulaney, like other Ogden alumni, is making a reputation for Ogden.

Mr. Thomas Rogers, who has been attending Ogden for the past year, has accepted a position with an Indianapolis drug firm. The students wish him success.

The Robinson Medal Contest will be held either the 5th or 6th of April.

The music for this occasion will be furnished by the Bowling Green Orchestra, composed of Misses Rodes and Obenchain, Mrs. Potter and Mrs. Bagby.

A track team has been organized. Mr. Warden was elected captain and Mr. Carne was elected manager. The team has been taking cross-country runs for the past few days, and the students know that it will meet with success.

On Friday morning, Dr. B. P. Hall, who is conducting a revival at the First Methodist Church, gave a talk on Patriotism and Nationalism. He said that the cause of the great war to-day was that there was too much nationalism and not enough internationalism. He also said that if the United States should be thrown into

war, it would not be because Christianity has failed, but that it has not been applied. He was introduced by Dr. Helm. This talk was very helpful to the students, and they hope he will return and give another soon.

SUNDAY, MARCH 4, 1917.

### OGDEN COLLEGE NOTES.

On Monday morning Mother Lehman gave a most eloquent and effective talk, voicing the universal plea of mothers for their sons. The students paid close attention and she was roundly applauded by all. Mother Lehman greeted each student privately after the chapel exercises. All the students hope that if she returns to Bowling Green she will pay Ogden another visit.

On Tuesday morning the seventh in the series of vocational talks was given by Dr. T. O. Helm, on Medicine. He gave it in his characteristic and thoughtful manner. He said that the requirements for a physician were becoming more strict, and for this reason the number of physicians is decreasing, and that many boys are not able to attend the medical colleges long enough to fulfill the requirements. He gave the experience and hardships of a physician, and said that in order to be a physician, one must be a man of honor and integrity.

On Wednesday morning Professor Uhler gave the prospects of athletics for the coming year, which he said were very good. The basketball season is over, and the Ogden team, like the football team, played well. Every student is looking forward to the same results from the baseball team.

On Thursday morning a delegation from the High School visited Ogden in behalf of the play which is to be given next Thursday night. Ogden always has co-operated with every school in Bowling Green in their movements, and will back up the High School in this movement.

On Friday morning the economics class had an extemporaneous discussion in chapel. The subject was, Whether or not Bowling Green is a good location for factories. Several students, who are in the economics class, made talks.

The Senior Literary Society held another good meeting last Monday. There was a debate: Resolved, That the tax bill, agitated in the Legislature at the present time, should be passed. Mr. Lucien Graham represented the affirmative, and Mr. Sheehan the negative. The judges decided in favor of the affirmative. Mr. Hinton gave an excellent declamation. There were several extemporaneous speeches. Mr. Coelman acted as critic.

The Junior Literary Society also held a good meeting. Its program was based upon extemporaneous speeches.

Professor Witherspoon was called away from school on Monday and Tuesday on account of the death of his aunt.

Professor Norcross has been confined to his home for several days on account of illness.
