Middlesboro, the largest city in Bell County with a 1970 population of 11,878, is situated in the southeastern portion of the state at the boundaries of Tennessee and Virginia. Middlesboro is 61 miles northeast of Knoxville, Tennessee, 132 miles southeast of Lexington, 212 miles southeast of Louisville, 213 miles southeast of the Covington-Cincinnati area, and 243 miles southwest of Ashland.

Pineville, the county seat of Bell County, is located 13 miles north of Middlesboro. In 1970, Pineville had a population of 2,817.

Bell County covers 370 square miles and is located in the Eastern Coal "Field physiographic region of Kentucky. In 1970, the county had a population of 31,121.

The Economic Framework

Total employment in Bell County averaged 8,120 jobs in 1971 with agriculture providing 120, manufacturing 1,490, government 1,660 and trade and services 2,870. Between 1962 and 1972, manufacturing employment increased by nearly 64 percent or 472 jobs. Major industrial products are men's shirts, mobile homes, travel trailers, modular homes, flake board and tanned and colored leather.

Per capita personal income in the county in 1970 was \$2,084. Between 1960 and 1970, per capita personal income increased over 109 percent for the county.

The Middlesboro-Pineville labor market area includes Bell County, the five surrounding Kentucky counties, Claiborne County, Tennessee, and Lee County, Virginia. In 1971, employment in the Kentucky portion of the labor market area totaled 35,790 jobs with agriculture providing 1,600, manufacturing 4,320, government 7,740 and trade and services 10,130. Industrial employment in the Kentucky portion of the labor market area has increased nearly 100 percent between 1962 and 1972 with sharpest gains in apparel, electrical machinery and paper products.

Despite industrial gains in recent years, the labor market area still has a deficit of 9,005 manufacturing jobs when measured against the national industrial employment-population ratio. This indicates an area with the potential for additional manufacturing production.

Resources for Growth

- 1. There is a current estimated labor supply of 19,800 men and 16,080 women available for industrial jobs in the labor market area. In addition, 8,545 young men and 8,240 young women will become 18 years of age by 1979 and potentially available for work.
- 2. The Louisville and Nashville Railroad Company serves Middlesboro and Pineville with a variety of rail services. Middlesboro is also served by the Southern Railway System. Piggyback facilities are available at Knoxville and Morristown, Tennessee, 61 and 49 miles away, respectively. Six trucking lines serve Middlesboro and Pineville. Middlesboro is served by U. S. Highways 58 and 25E, while Pineville is served by U. S. Highways 119 and 25E. The London-Corbin War Memorial Airport, 62 miles north of Middlesboro and 49 miles north of Pineville, provides the area with commercial air service.
- 3. Kentucky Utilities Company provides electric power to Middlesboro and Pineville, and Cumberland Valley Rural Electric Cooperative Corporation serves Bell County. Middlesboro is supplied natural gas by Gas Service Company, Incorporated. Natural gas is served to Pineville by the Pineville Gas Company. Middlesboro has one propane distributor and four distillate fuel oil distributors. Pineville is served propane by two distributors and distillate fuel oil by three distributors.
- 4. Middlesboro and Pineville have one site each available for industrial use at this time.
- 5. Three public school systems operate in Bell County the Middlesboro Independent School District, the Pineville Independent School District and the Bell County School System.

Four universities, four senior colleges, one junior college and three community colleges are within 100 miles of Middlesboro and Pineville. The Harlan State Vocational-Technical School located in Harlan, 46 miles from Middlesboro and 33 miles from Pineville, offers training in 13 areas. Two area vocational education centers are located in Pineville - the Bell County Area Vocational Education Center and the Pineville School of Practical Nursing.

Community Programs for Improvement

Middlesboro

Recent: Eighteen new businesses have opened in Middlesboro.

Eighteen businesses have expanded their facilities or remodeled their buildings.

Fifteen businesses have constructed or purchased new quarters for operation.

During the last year five streets were repaved and four streets were paved.

A new sewage treatment plant was constructed by the Middlesboro Sewage Commission which enlarged its treatment plant capacity from two to three million gallons per day.

The Middlesboro Board of Education has constructed a \$1.2 million school building for the Middlesboro Middle School.

The Middlesboro Appalachian Regional Hospital has expanded its building to include a 55-bed extended care facility.

The Daniel Boone Clinic located in Middlesboro has doubled its size by adding 10,000 square feet of floor space. The project added 18 new rooms, three departments and a variety of new equipment to the facility.

Planned: Three new businesses will soon open in Middlesboro.

Two businesses have plans to build new buildings and one business is presently under construction.

A program for the beautification of the downtown area is planned. This beautification project will include improvement of the canal area and the clean-up of city alleys, and business locations.

The Chamber of Commerce plans to move the coal house to a new location and locate its office there.

The city has plans to pave 23 unpaved streets and repave 26 streets.

Fourteen new mercury vapor lights will be added to Cumberland Avenue,

The Middlesboro Fire Department has a 1,000 gpm pumper truck on order.

The Middlesboro and Bell County Emergency Rescue Squad has plans to build a new building. The building will consist of a meeting room, kitchen, repair shops for equipment, sleeping rooms and vehicle and equipment storage area.

The Middlesboro Appalachian Regional hospital is planning a \$1.1 million expansion program. This will include remodeling of the emergency

room by adding two operating rooms, a seven bed intensive and coronary care unit, two X-ray diagnostic units, a radiographic room and a fracture and cut room.

A new library building is proposed for the Middlesboro Public Library. The building will cover 8,000 square feet and include expanded space for volumes, historical room, community room with kitchen facilities, reading room and children's room.

The city plans expansion of the civic center complex to include a multipurpose athletic field with lights, a remodeled public swimming pool, building of a new Little League park, addition of picnic tables, grills, shuffleboard, horseshoe pits, tot lot and a horse show facility.

Pineville

Recent: Twelve new businesses have opened in Pineville.

Six businesses have renovated their buildings.

Pineville has built a 75- car municipal parking lot and five other parking lots have been constructed by businesses.

Two thousand feet of new sidewalk has been completed.

Three alleys and one-fourth mile of city streets have been paved.

City hall has undergone renovation for the fire department facility.

The fire department has a new fire truck and equipment.

Pineville has constructed a new water plant, a 260-acre reservoir, laid 28 miles of new water line, built four new water storage tanks, and installed a pressure reducing system.

The city has purchased a new garbage truck.

The Pineville and Bell County Public Library has built a new building. The facility includes a community room with kitchen facility, reading room and additional space for books. The library also purchased a new bookmobile to update its services. The bookmobile is air conditioned, holds 2,000 volumes, and has electrical equipment for records and movies.

The Bell County School System has built a new administration building, added parking facilities to many schools, extended the Bell County Vocational School facilities, expanded playground space at Lone Jack School, improved lighting at most Bell County schools, improved the water system for five Bell County schools and painting and ceiling renovation in three schools has been completed.

4.

The Pineville Independent School District has built a new elementary school building and renovated the high school gymnasium by adding bleacher space for 300 fans and a weight room.

The Pineville Community Hospital has constructed the Ambulant Care Center for the hospital. This center provides office space for all community doctors and examination rooms for patients.

Woodward Park is a new mini-park built for the community. The facility includes a shelterhouse with restrooms, tot lot, merry-go-round, swings, slide, grills, horseshoe pits, shuffleboard, restored log cabin and is enclosed by fencing.

Eighty units of low-cost housing have been completed for Pineville.

Pineville added five new traffic lights as a result of a parking and traffic survey that was conducted for the community,

Two churches have built new parking facilities.

Kentucky Utilities Company has spent \$400,000 to build a new substation and doubled Pineville's power capabilities.

Planned: A new city park to continue the mini-park program.

Twelve streets will be repaved and four unpaved streets will be paved.

A new subdivision is planned.

Renovation of plumbing, heating and wiring for the courthouse is planned.

City Hall has plans to buy new equipment, panel walls, replace old lighting, and add wall to wall carpeting.

A street sweeper machine for the city will be purchased.

A new police car and radio equipment are planned for the police department.

Pineville Independent School District plans to construct a new junior high school building.

A ski-slope is proposed for Pineville in conjunction with Pine Mountain State Resort Park.

The Pineville Community Hospital plans to replace an old wing with a 25,000 square foot modern wing. The wing will have three stories and contain a new operating room.

Recreation, Entertainment and Livability

Two state resort parks, Pine Mountain State Resort Park in Pineville and Cumberland Falls State Resort Park near Corbin, are located within 70 miles of Middlesboro and Pineville. The resort parks provide facilities for lodging, swimming, horseback riding, fishing, picnicking and hiking. Pine Mountain State Resort Park hosts the famous choral drama, "The Book of Job," based on the biblical book of Job each year in July and August.

There are also two state parks, Kingdom Come State Park at Cumberland and Levi Jackson Wilderness Road State Park, near London, that are located within 70 miles of Middlesboro and Pineville. The parks have playgrounds, camping sites, hiking trails and picnic areas.

Cumberland Gap National Historical Park, located at Middlesboro and 13 miles from Pineville, is noted for its historical background and is situated at Cumberland Gap, perhaps the best known mountain pass in America. The park provides exhibits of frontier days, a museum and many scenic and panoramic views.

Occupational wage rates for specific industries are usually not available to most government agencies, and wage data furnished to state employment agencies by industrial employers is protected from disclosure by federal law. The most reliable up-to-date wage information can be obtained by direct contact with local employers.

Associated Industries of Kentucky, a voluntary organization of Kentucky businesses, regularly collects occupational wage rates and fringe benefits data from participating member firms. Data is compiled for over 130 clearly defined office, production, and service occupations. Tabulations are published for eight regions of Kentucky, as shown on the map below. It should be noted that the data may be weighted by the preponderance of firms in the larger cities and may be somewhat higher than the rates paid in the smaller communities. Data from these tabulations are available, upon request, from the Kentucky Department of Commerce, Frankfort, Kentucky 40601.

HISTORY

Bell County lies in the southeastern corner of Kentucky, bordered by both Tennessee and Virginia, and is at the site of historic Cumberland Gap. It covers 370 square miles of territory and is bisected by the Cumberland River. The surface is mountainous, with thin soil on the mountainsides and some rich bottom lands along the Cumberland. Some of the largest seams of bituminous coal in the state are found in the area. Much of the land is forested, with portions of several state and national forest areas lying here. Best known of its mountains is Pine Mountain in the western part of the county.

The earliest explorers in Kentucky came into Bell County through Cumberland Gap. Dr. Thomas Walker led a hunting and surveying party through the gap and Bell County in 1750 and built the first house in Kentucky in neighboring Knox County. It was Walker who named the Cumberland Mountains and River for the Duke of Cumberland, a son of King George II. Several groups of explorers came in the 1760's, and in 1769 Daniel Boone made his first visit to Kentucky through Cumberland Gap. Settlements in Bell County were late in developing due to the advantages offered by the Bluegrass area.

A fierce Civil War battle was fought in Bell County for Pinnacle Mountain and Port Lyon in 1863. Ruins of the fort can still be seen. Four years afterwards, in 1867, Bell became Kentucky's one-hundred-twelfth county, then called Josh Bell County after Joshua Fry Bell, a descendant of Dr. Thomas Walker, who served in the U. S. Congress and was distinguished in Kentucky politics.

Middlesboro, the largest town in southeastern Kentucky, is a trading center lying at the foot of Cumberland Gap. It was founded by British investors who supplied the capital to purchase its site and was named for the iron city in the English Midlands. A thriving progressive city, Middlesboro had a population of 11,878 in 1970. Pineville, named for Pine Mountain at whose base it lies, is the county seat of Bell County and had a 1970 population of 2,817. It grew up around the site of the first toll-gate along the Wilderness Road, which was constructed in 1797 when the Legislature appropriated some \$20,000 to repair the road.

The county's population was only 3,731 in 1870, but it grew rapidly to 47,602 in 1950. In the next decade there was a significant decline to 35,336; and although population was again down to 31,121 in 1970, the rate of decline was only one-half that of the previous decade.

Agricultural production is small in Bell County, with agricultural employment accounting for only 120 of a total 8,120 workers in 1971. Cattle, poultry, and burley tobacco are the main products. Manufacturing activity has shown very significant growth since 1959, providing 1,490 jobs in 1971. Heaviest concentration of production is in clothing, leather, lumber and food products. The county's largest firms at Middlesboro are: Excello Shirt Company, which makes men's shirts, Giles Industries, making mobile homes, Tenn-Flake of Middlesboro, flake board, and Middlesboro Tanning Company of Delaware, tanning leather.

Of great economic importance to Bell County is the mining of coal. The Chamber of Commerce building at Middlesboro is constructed with blocks of coal, emphasizing the mineral's importance to this, one of Kentucky's leading coal-producing counties.
