LEXINGTON INDUSTRIAL SITES

1973

For more information about the following sites, contact D. Ray Gillespie, Greater Lexington Area Chamber of Commerce, Lexington, Kentucky; or the Kentucky Department of Commerce, Capital Plaza Office Tower, Frankfort, Kentucky.

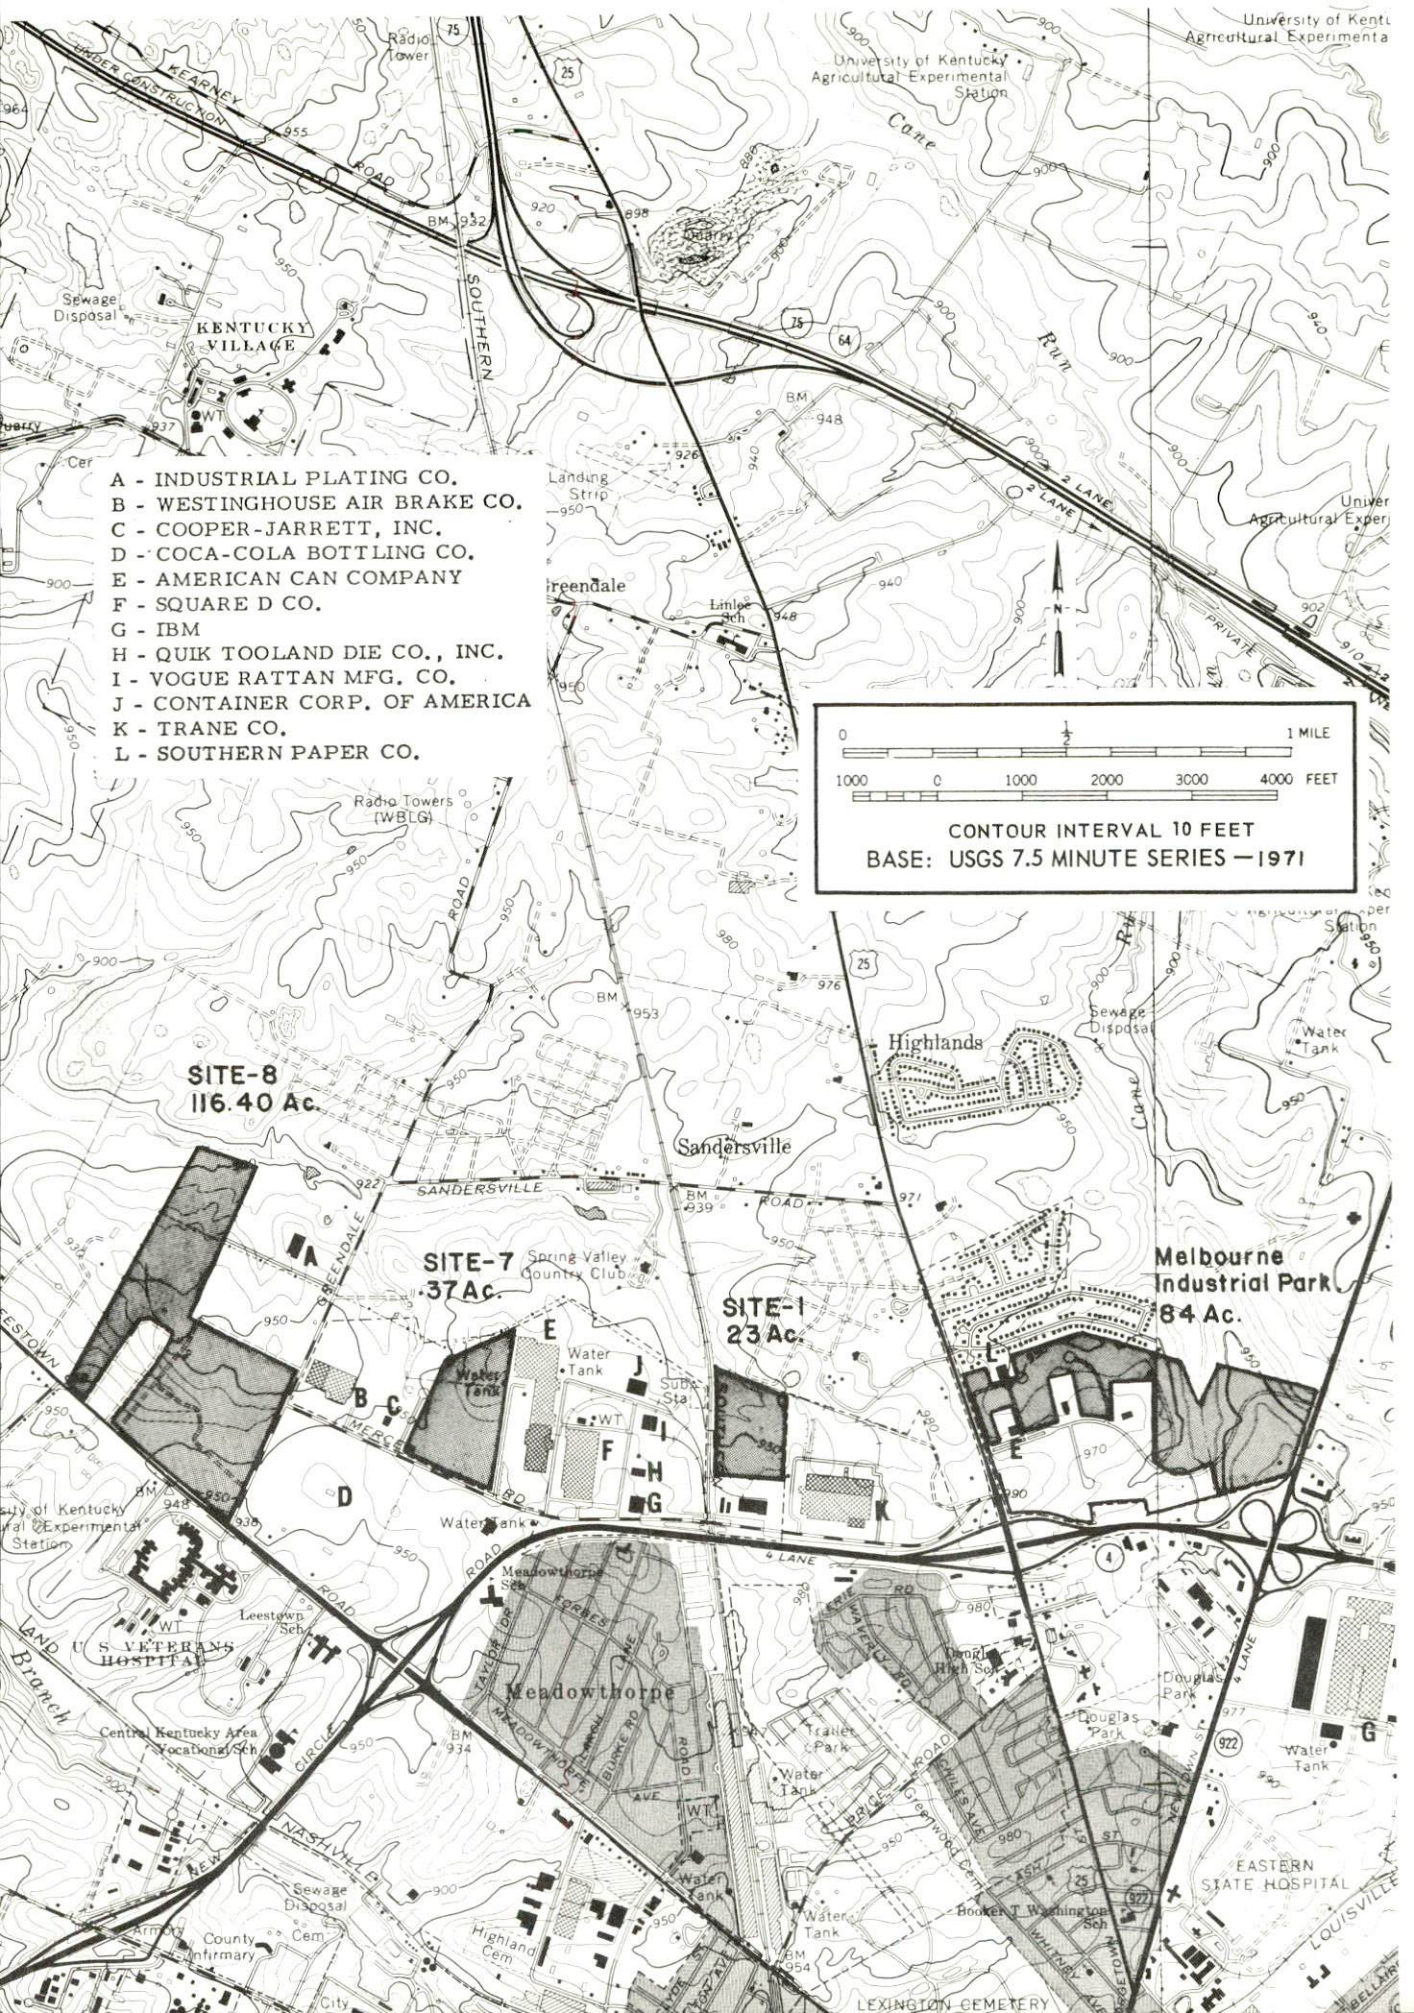

SITE #1: ACREAGE: 23  
LOCATION: Northern part of city off Mercer Road  
ZONING: Light industrial  
HIGHWAY ACCESS: Access road necessary, 400 feet from Mercer Road to site  
RAILROADS: Southern Railway along west boundary  
WATER: Lexington Water Company  
SIZE LINE: 8-inch line 400 feet south of site, on north side of Mercer Road  
GAS: Columbia Gas of Kentucky, Inc.  
SIZE MAIN: 12-inch main, 400 feet south of site, on north side of Mercer Road  
ELECTRICITY: Kentucky Utilities Company  
SEWERAGE: City of Lexington Sewerage Company  
SIZE LINE: 12-inch line, adjacent to west side of Southern Railway  
OWNERSHIP: Southern Railway System

SITE #7: ACREAGE: 37  
LOCATION: North side of city off Mercer Road  
ZONING: Light industrial  
HIGHWAY ACCESS: Fronts on Mercer Road  
RAILROADS: Not rail served  
WATER: Lexington Water Company  
SIZE LINE: 12-inch line on site at southwest boundary  
GAS: Columbia Gas of Kentucky, Inc.  
SIZE MAIN: 12-inch main on site along south boundary  
ELECTRICITY: Kentucky Utilities Company  
SEWERAGE: City of Lexington Sewerage Company  
SIZE LINE: 8-inch line through west part of site  
OWNERSHIP: Dues Development Company

SITE #8: ACREAGE: 116.40  
LOCATION: North side of city on Leestown Pike  
ZONING: Light industrial  
HIGHWAY ACCESS: Fronts on Leestown Pike; Greendale Road along southeastern boundary  
RAILROADS: Not rail served  
WATER: Lexington Water Company  
SIZE LINE: 12-inch line on site at northeast boundary  
GAS: Columbia Gas of Kentucky, Inc.  
SIZE MAIN: 12-inch main on site along Leestown Pike and Greendale Road  
ELECTRICITY: Kentucky Utilities Company  
SEWERAGE: City of Lexington Sewerage Company  
SIZE LINE: 8-inch line 1, 400 feet from east boundary  
OWNERSHIP: Privately owned

MELBOURNE INDUSTRIAL PARK

ACREAGE: Total 165.42 acres in park; 84 acres remain available  
LOCATION: North side of city off New Circle Road  
ZONING: Light industrial  
HIGHWAY ACCESS: Newtown and Georgetown Pikes  
RAILROADS: Not rail served  
WATER: Lexington Water Company  
SIZE LINE: 8-inch line on site  
GAS: Columbia Gas of Kentucky, Inc.  
SIZE MAIN: 4-inch main on site  
ELECTRICITY: Kentucky Utilities Company  
SEWERAGE: City of Lexington Sewerage Company  
SIZE LINE: 8-inch line on southeastern part of site  
OWNERSHIP: Melbourne, Inc.

AERIAL VIEW OF LEXINGTON, KENTUCKY

## LEXINGTON, KENTUCKY - A RESOURCE PROFILE

### Location

Lexington is the county seat of Fayette County which encompasses 280 square miles. Located in the heart of the Bluegrass Region of Kentucky it is an attractive, thriving city with a metropolitan population of over 174,000. Located on Interstate 75, Interstate 64, and 10 miles from the Blue Grass Parkway, Lexington forms the southeastern apex of the industrial triangle anchored by Louisville on the west and the Cincinnati metropolitan area on the north. Within the 80-mile legs of the triangle, is one-third of the state's population and one-half of its manufacturing jobs.

Lexington is an unusual blending of the industriousness of the Midwest and the adaptability and progress of the "new south." Named after the first battle in the War for Independence, the city is encircled by mushrooming suburbs - reflecting its phenomenal population growth in the last 10 years - and history-rich towns like Winchester, Versailles, Paris, and Danville; landscaped by beautiful countryside (covered by *Poa prantensis* or bluish-green grass); and laced by modern four-lane highways and tree-shaded country lanes.

Though no section in the United States is about to challenge the Bluegrass' long-held position as the world's largest burley tobacco market and the capital of Thoroughbred horse-breeding, the area, because of its many amenities, has experienced an extraordinary rate of industrial growth in postwar years. Where once tobacco, whiskey and horses were the area's principal industries, Lexington and her sister cities today produce a startling diversity of products, ranging from electric typewriters to peanut butter and from parachutes to electronic equipment. Lexington is now rated in the top 100 markets in the nation and is recognized as a major center promising to sustain increased growth and development. Further indication of progress is that Lexington was named an All-Kentucky city in 1972.

### The Economic Framework

Total employment in Fayette County averaged 91,220 in 1971 with manufacturing providing 15,800 of these jobs. Trade and services provided 29,990 jobs and government provided 23,090 jobs. Manufacturing employment has increased by more than 60 percent since 1961. The county's major industrial products are machinery and metal products.

Per capita personal income in the county in 1970 was \$3,962 or \$943 above the Kentucky average and \$41 above the national average. This indicates a prosperous economy with adequate room for future economic growth.

Lexington is the hub of a labor market area that includes Fayette and its six surrounding counties. Area employment in 1971 totaled 137,750 with manufacturing providing 27,100 of these jobs. Trade and services provided 40,930 jobs and government 31,760 jobs. Area industrial employment is heaviest in machinery and metal products industries and the sharpest gains since 1961 have been in these industries.

Despite important industrial gains in recent years the area still has a deficit of 1,058 manufacturing jobs when measured against the national industrial employment-population ratio. This indicates an area where the potential for additional manufacturing production is excellent.

### Resources For Growth

1. There is a current labor supply of 23,990 men and 22,435 women available for industrial jobs in the labor market area. In addition, 14,260 young men and 13,735 young women will become 18 years of age by 1978 and potentially available for work.

2. The local transportation capability is excellent. Three railroads provide Lexington with complete rail service including piggyback facilities. There is easy access to Interstate 75 and Interstate 64 which are major highway arteries into the industrial south, midwest and east. Only a short distance from the city is the Blue Grass Parkway, an important link to the west. Four airlines provide commercial service to Lexington. Thirty-one truck lines serve Lexington and twenty-three of these lines have terminals in the city.

3. Water is supplied by the Lexington Water Company, electricity by Kentucky Utilities, and natural gas by Columbia Gas of Kentucky. There are five bulk stations for propane and butane in Lexington or neighboring cities and two distillate fuel oil distributors in Lexington.

4. Industrial sites - Lexington has four industrial sites of approximately 305 acres and two industrial parks of approximately 190 acres.

5. Education is an important growth asset for Lexington with educational opportunities ranging from Montessori preschools through public, private, and parochial elementary and high schools to business colleges, universities, and theological seminaries. The Fayette County

School System is rated as one of the most outstanding in Kentucky. Within a 25-mile radius of Lexington are six senior colleges and universities, one community college and two junior colleges. The University of Kentucky and Transylvania University, as well as the Lexington Technical Institute are located in Lexington.

The University of Kentucky is the state's primary public institution of higher learning. Opportunity for specialization is provided through ten colleges, schools of architecture, allied health professions, home economics, library science, a graduate school and a division of University extension.

Transylvania University, a private institution founded in 1780, has provided the nation with many famous statesmen.

A state vocational-technical school and an area vocational education center, offering courses in twenty-five different subject areas, are both located in Lexington.

6. Industrial Research - The University of Kentucky Research Foundation, an administrative division of the University, solicits and administers research contracts, grants, and gifts. Spindletop Research, the largest private research firm in the state, is also located in Lexington. It offers professional, scientific and management services to clients on a contractual basis.

#### Community Programs for Improvement

Effective January 1974, based on elections to be held in November 1973, Fayette County and Lexington will merge all units of city and county government into an urban form of government. The city commission and fiscal court will be replaced by a 15 member urban-county council. The mayor will be the chief executive officer for the county and the county judge will have a chiefly judicial role. Property taxes will relate to municipal services and, although all annexed land will be subject to increased county taxes, no county resident will pay city taxes until services are provided.

A federally assisted multi-million dollar Urban Renewal project is currently underway in the central business district of Lexington. The project envisions a downtown one-way couplet of streets, a 14-story motor inn, a high-rise bank-office building and a low-rent housing project. A \$1.5 million removal and relocation of railroad tracks from Vine Street has already been completed. A 1 1/4 mile section of Vine Street has been rebuilt to include a widened road area, landscaping, wide sidewalks and an open mall. The Citizens Union Bank has recently completed a new

bank-office building. Further programs envision a new civic center and several additional office buildings. An additional downtown 350-room hotel is planned.

A sewerage treatment improvement program is underway and the facilities are scheduled to be in use by mid 1973. The treatment capacity will be increased to 18,000,000 gallons per day and new sludge facilities added. The Lexington Water Company, which has the only water facilities given an Orisk factor according to the Federal APA Board, has made improvements and additions of \$2 1/2 million in 1972 including a 50,300 foot 12-inch pipeline to the Bourbon County Line and the reinforcement of the pipelines in the two water districts, Athens-Boonesboro and Russell Cave, recently incorporated. An additional 3 million gallons per day ground pump storage is planned for 1973.

Other recent improvements include: a new branch library, hospital, several restaurants, two branch banks, a firestation, additional suburban apartment and townhouse complexes, the completion of four elementary schools, one senior high, two junior high schools, and an addition to one elementary school at a total cost of approximately \$13 million, a 943-acre park, five smaller parks, and the expansion of four industries, two hospitals and one motel.

Projects under construction include: two banks, a 110 unit Sheraton Motel, a regional post office, two shopping centers, a \$350,000 Music-Industrial Arts Complex for the county school system, a dinner theatre, a stadium for the University of Kentucky, a new Veteran's Hospital.

Plans include the new \$3 million terminal at Blue Grass Field, the expansion of the facilities of the Lexington Clinic and University of Kentucky Medical Center, an additional firestation, three 110 to 300 unit motels, and the renovation of a junior high school.

Lexington's progress is clearly illustrated by the numerous recent improvements and the projects for continual development.

#### Recreation, Entertainment, and Livability

Lexington and the Bluegrass Region offer the full spectrum of sophisticated entertainment, cultural and sporting events. The Central Kentucky Concert and Lecture Association presents an annual subscription series which brings to the city world-famous groups and individuals in the arts and sciences. There are three local symphony orchestras, theater groups which present more than twenty plays each year, and scores of free concerts, lectures and art exhibitions at Transylvania and the University of Kentucky.

The finest thoroughbred and harness racing in the world is available at Keeneland Race Course and the Big Red Mile Trotting Track at several meets each year. The University of Kentucky and Transylvania University provide nine months of sports excitement annually.

The scenic landscape of thoroughbred horse farms encourages relaxing drives through Fayette County, and the area is a paradise for the antique and handicraft collector. Reminiscent of Lexington's rich historic-past are the preserved homes of Mary Todd Lincoln and General John Hunt Morgan. Ashland, the estate of Henry Clay, is especially beautiful in spring when the gardens are in full bloom.

Within a 50-mile radius of Lexington are four state parks, five state shrines, a national forest, Dix River Dam, Red River Gorge and Herrington Lake, providing ample camping grounds, water sports and picnic areas. Frankfort, the capital of Kentucky, 27 miles west, offers a choice of entertainment ranging from tours of bourbon distilleries and historic monuments to an array of sport and cultural events in the new civic center.

## HISTORY

Fayette County dates from 1780 when it was part of Fincastle County, Virginia, and later designated Kentucky County, Virginia. When Kentucky became a state in 1792, Fayette County gave up some of its territory to form adjoining counties. The county is named for General Gilbert Montier de LaFayette of France who distinguished himself while fighting with George Washington's Continental Army during the American Revolution. Large tracts of the county's 280 square miles are beautiful gently rolling farm land.

Lexington, named after the battle of Lexington, is the county seat. It was settled in 1779, and as late as 1815 was the largest town in the state and the social and cultural center of the west. Horse racing became popular very early in Lexington. The first horse race course was established in 1789, and a thriving breeding and racing industry began to develop.

In 1850, seventy years after its founding, Fayette County had a population of 22,735. By 1900 the population had grown to 42,071. A steady increase has made Fayette County one of the fastest growing counties in the state. By 1960 the population was 131,906 and in 1970 was 174,323.

Transylvania, the first institution of higher learning west of the Allegheny Mountains, was chartered in 1780 and still flourishes as one of the outstanding liberal arts colleges in the nation. Its list of graduates is a "Who's Who" of great men including Jefferson Davis and Stephen Austin. The University of Kentucky, established in 1865, has grown from its land grant roots to a major center of advanced education and research.

Of the many famous personalities who have lived in Lexington are Mary Todd Lincoln, and Henry Clay who is remembered in American history as the Great Compromiser. Lexington has also produced 13 U.S. Representatives; 11 U.S. Senators; Vice President of the United States, John C. Breckinridge; Secretary of the Treasury, George M. Bibb; U.S. Attorney General John Breckinridge, Postmaster General William T. Barry, and General John Hunt Morgan.

Lexington and Fayette County have had sustained growth in manufacturing with a 61 percent increase in employment since 1961. The county's major industrial products are machinery and metal products. There are twenty-five manufacturing firms which each employ more than 100 people in Lexington, the largest of these is International Business Machines which has more than 5,500 employees.

Lexington with its rich historic and cultural heritage and thriving economy, looks forward to a future that combines the best of all its attributes in a new dimension of growth.
