Re: Committee Reports at Next Senate Meeting

The next meeting of the Faculty Senate will be Thursday, December 9, 1976 at 3:10 p. m. in the Garrett Conference Center Ballroom. A principal item of business will be progress reports from the committees. In anticipation of this, I hope you will be able to get your committee together for at least one meeting to discuss your interpretation of function of your committee.

I realize that some of you have already done this and that some of you may be waiting to receive the concerns that will be assigned to you. However, I hope each of you will be able to bring your committee as far along as possible prior to the December meeting.
