GENERAL HIGHWAY MAP

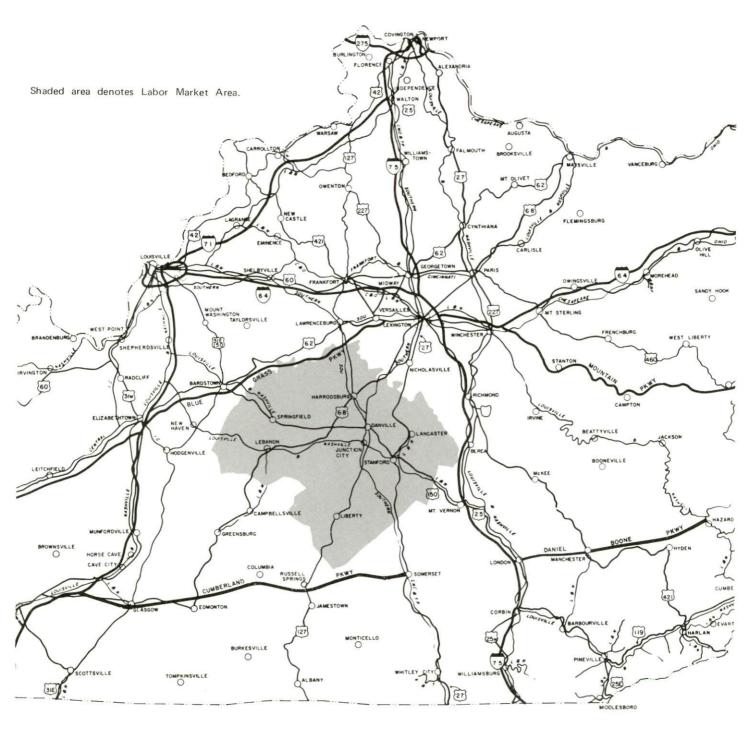

AERIAL VIEW - DANVILLE, KENTUCKY

DANVILLE LABOR MARKET AREA

DANVILLE, KENTUCKY - A RESOURCE PROFILE

Danville, county seat of Boyle County, is in the central portion of Kentucky. The county is a part of the Bluegrass Region, and its southwestern corner extends into the Knobs. Its eastern border follows Herrington Lake on Dix River. Its 183 square miles of land range from gently rolling to hilly terrain.

Danville is no typical small town. It was designated "All American City" in 1968 and has been entered in the "All Kentucky City Hall of Fame." Today, with a population of 11,767, Danville is progressing rapidly while maintaining a beautiful image of the past.

Danville is 31 miles from Lexington, 82 miles from Louisville, and 121 miles from Cincinnati, Ohio. Its central location and accessibility to Kentucky's new modern highway system has made Danville an attractive prospect as a distribution center and manufacturing site for industry.

The Economic Framework

Total employment in Boyle County averaged 10,760 in 1973, with manufacturing providing 2,640 of these jobs and trade and services providing 3,800. Manufacturing employment has increased 43.5 percent or 790 jobs since 1964. The American Greetings Corporation's Danville plant is utilized as a distribution center and provides more than 600 jobs. The major industrial products are glass bulbs and tubing, materials handling systems, men's suits, ladies' shoes, steel wire and cable, household trash compactors, and icemakers for refrigerators.

Per capita personal income in the county in 1973 was \$4,219, or \$169 above the Kentucky average. Between 1969 and 1973, per capita personal income in the county increased by 37.7 percent.

Danville is the hub of a labor market area that includes Boyle and the six surrounding counties. Total area employment averaged 45,240 jobs in 1973, including 8,690 in agriculture, 5,050 in government, 8,100 in trade and services, and 8,840 in manufacturing.

Resources for Growth

1. There is a current labor supply of 4,220 men and 3,790 women available for industrial jobs in the labor market area. In addition, 5,460 young men and 5,060 young women will become 18 years of age before 1981 and potentially available for work.

- 2. The local transportation capability is good. The Southern Railway System serves Danville with a variety of services including piggyback facilities. There is easy access to Interstate 75 and Interstate 64, which are major highway arteries to the industrial south, midwest, and east. The Blue Grass Parkway, only a short distance to the north is an important link to the west. Ten trucking companies serving Danville make delivery time competitive with most shipping points within the general market area. The local airport provides charter service, and commercial air service is available in Lexington, 31 miles north of Danville.
- 3. Electric service is provided by the Kentucky Utilities Company. Natural gas service is provided by the Western Kentucky Gas Company. There are five propane and butane distributors and four distillate fuel oil distributors in the Danville area. Low sulfur content coal is available in eastern Kentucky.
- 4. Education is an important growth asset for Danville. The city and county school systems are rated among the most outstanding in Kentucky.

Four universities, four senior colleges, three junior colleges, one community college, and a technical institute are within 50 miles of Danville, with the University of Kentucky only 31 miles away. At Danville is Centre College, chartered in 1819. During the 1960's Centre College's capital resources were doubled, eleven new buildings were added, and the enrollment increased from 450 to 750. In 1970, Centre became one of the smallest of the 199 institutions now sheltering local chapters of Phi Beta Kappa.

Since 1904 Centre College has been a member of the Southern Association of Colleges and Schools and also holds membership in the Association of American Colleges. Governed by a self perpetuating board of trustees, Centre is affiliated with the United Presbyterian Church in the United States of America and the Presbyterian Church in the United States.

Vocational education is available at the Harrodsburg Vocational Education Center, 9 miles north of Danville, and at the Garrad County Vocational Education Center, 12 miles east of Danville in Lancaster. The Central Kentucky State Vocational-Technical School is located at Lexington and offers 17 courses.

Community Programs for Improvement

Cooperation, planning, and action have resulted in successful community programs and industrial expansion for Danville.

The Boyle County School System has recently completed a \$40,000 renovation project and has expanded its kindergarten. Completed projects of the Danville Independent School District included the addition of a library and classrooms to Mary Hogsett Elementary School, a new greenhouse, and a new athletic-recreational complex containing a football stadium, baseball field, tennis courts, and track facilities. It is also developing academic programs in numerous areas, including an expanded special education program, career education, environmental education, drug abuse curriculum, independent study and parental visitation in schools.

The city of Danville has made improvements in its city services and plans are being made for further improvement. The city rebuilt streets within several new subdivisions. Plans are underway to four-lane South 4th Street to the U.S. 127 bypass. The rescue squad is now providing four ambulances to serve the Danville area. The Police Department is in the process of improving its radio communication system. Water and sewerage facilities have been extended approximately eight-tenths mile out Perryville Road to the Danville Manor Shopping Center, and south to the U.S. 127 bypass. A 201 Facilities Plan is presently being conducted to determine what improvements need to be made to upgrade the sewerage system.

Danville's Urban Renewal program is moving ahead on schedule. A mid-rise building for the elderly is underway and scheduled for completion next spring. Restoration of historical buildings adjacent to Constitution Square will be finished this fall. In addition, the agency has undertaken a rehabilitation-acquisition project on Grant and Russell Streets, which will be finished in six months. This is being performed under the new Community Development Act which will appropriate \$454,000 in each of the next three years.

Danville, a historic town, is known as "The City of Firsts." Its progressive community programs have enabled Danville to win the "All Kentucky City" award in 1967-68-71-73 and 74. The desire for further improvements continues to be basic to the effort to maintain the fine standard of living here.

Recreation, Entertainment and Livability

Danville's location in the heart of Kentucky places it in the center of numerous recreation facilities.

Danville offers much in entertainment in both public and private facilities. Offerings in sports include golf, swimming, tennis, football and baseball. Several public parks and playgrounds are available. A supervised recreational program is provided for all age groups.

As Kentucky's first capital, Danville is the home of Constitution Square State Shrine, an authentic reproduction of the state's first courthouse square. Included is the original 1792 post office and replica of the jail, courthouse and meeting house.

Adjacent to Constitution Square is the McDowell House and Apothecary Shop National Historic Landmark. Within walking distance is a second National Historic Landmark, Jacobs Hall, on the campus of the Kentucky School for the Deaf. A walking tour connects these and other points of interest, including the scenic Centre College campus.

Tourist attractions near Danville include state and national shrines, two state parks, Kentucky's Official State Theatre - Pioneer Playhouse, Old Fort Harrod Amphitheatre, and Shakertown Village.

Perryville Battlefield State Park is located 13 miles west of Danville. On October 8, 1862, this was the site of Kentucky's bloodiest Civil War battle. The park presently includes a cemetery, museum, picnic area and playground.

Old Fort Harrod State Park, just 9 miles north of Danville is the site of Kentucky's first permanent settlement. This 28-acre park contains a pioneer fort, museum, federal monument, and cemetery. During the summer, The Legend of Daniel Boone is presented in the Old Fort Harrod Amphitheatre adjacent to the park. This exciting and acclaimed drama is performed outdoors in a natural setting of trees and mountains.

Pioneer Playhouse, Kentucky's Official State Theatre, brings summer stock to Danville during June, July and August.

Just 16 miles northeast of Danville is Shakertown, once a prosperous religious community. The 19th century village of original buildings has been carefully restored. Visitors will be interested in walking through the quiet village and viewing the exhibits.

Herrington Lake, 4 miles from Danville, offers excellent fishing, boating and swimming. Lexington, 31 miles north, offers cultural and sporting events. At the center of the Bluegrass, it offers some of the world's most classic thoroughbred racing events.

WAGES

Occupational wage rates for specific industries are usually not available to most government agencies, and wage data furnished to state employment agencies by industrial employers is protected from disclosure by federal law. The most reliable up-to-date wage information can be obtained by direct contact with local employers.

Associated Industries of Kentucky, a voluntary organization of Kentucky businesses, regularly collects occupational wage rates and fringe benefits data from participating member firms. Data is compiled for over 130 clearly defined office, production, and service occupations. Tabulations are published for eight regions of Kentucky, as shown on the map below. It should be noted that the data may be weighted by the preponderance of firms in the larger cities and may be somewhat higher than the rates paid in the smaller communities. Data from these tabulations are available, upon request, from the Kentucky Department of Commerce, Frankfort, Kentucky 40601.

HISTORY

Boyle County lies in the central portion of Kentucky, partly in the Bluegrass Physiographic Region and partly in the Knobs. Its eastern border follows Herrington Lake on Dix River, and Chaplin and Salt Rivers flow through the county. Its 183 square miles of territory range from gently rolling to hilly terrain with rich soil.

The Boyle County area was one of the earliest colonized in Kentucky. James Harrod, the founder of Harrodsburg, in adjoining Mercer County, built a cabin in present-day Danville around 1774. The first settlement was made in 1775, and within a decade enough progress had been made for Danville to become the center for efforts to make Kentucky a state. Beginning in 1784, ten conventions met over a period of eight years in a building on present-day Constitution Square in efforts to lay a basis for statehood. Under the leadership of Samuel McDowell, these conventions led to Kentucky's admission to the Union on June 1, 1972.

Danville served as the seat of Virginian government west of the Allegheny Mountains from 1785 to 1792, and upon Kentucky's admission to the Union, Danville became the first state capitol for a brief time. The first post office west of the Alleghenies was established here in 1792 and the restored structure now sits at Constitution Square near a replica of the Convention Building. An important advance in surgery was made in Danville in 1809, when Doctor Ephraim McDowell performed the first abdominal surgery. A shrine has been made of the McDowell residence where the operation was performed.

Two of the state's most prominent educational institutions, Transylvania and Centre Colleges, were founded at Danville. Transylvania was chartered by the Virginia Assembly in 1780, established in 1783, and moved to Lexington in 1788 to merge with Lexington Seminary. Centre was chartered in 1819 and has since produced a host of distinguished alumni, including two United States Vice Presidents, Richard M. Johnson and John C. Breckinridge, Supreme Court Chief Justice Fred Vinson and thirteen United States Senators. One of the country's most respected independent liberal arts colleges, Centre had an enrollment of 796 in 1974. The Kentucky School for the Deaf, established at Danville in 1823, was the first school of its kind to be operated at government expense.

Boyle County was not formed until 1842, after some thirty years of agitation for county status. The state's ninety-fourth county, Boyle was named for John Boyle, a Virginia native who moved to Kentucky, where he was elected to three terms in the United States Congress and served as Kentucky's Chief Justice for 16 years. Danville is the county seat of Boyle

County. The Civil War Battle of Perryville in 1862 was the bloodiest to take place in Kentucky and a memorial park is maintained at the battle site in Perryville, west of Danville.

In 1850 Boyle County had 9,116 inhabitants. A century later, the figure stood at 20,532 and by 1960 reached 21,257. Population continued to grow and was 21,861 in 1970. Danville's population was 11,542 in 1970, and Junction City had 1,046 residents.

There were 10,760 people employed in Boyle County in 1973. Agriculture accounted for 800 of these jobs, with burley tobacco, corn, cattle and milk the principal products. Manufacturing employment reached 2,640 in 1973. Largest of the county's firms are: American Greetings Corporation, a distribution center for stationary and gift wrap; Palm Beach Company, making men's suits; Whirlpool Corporation, manufacturer of trash compactors and ice makers for refrigerators; Genesco, Incorporated, which makes women's shoes; Rexnord, Inc., Manufacturing materials handling system; and Corning Glass Works, producer of glass bulbs and tubing.

Among noted figures in Boyle County history was James G. Birney, a well-known abolitionist prior to the Civil War who was presidential candidate of the Liberty Party in 1844.

This copy has been prepared by the Kentucky Department of Commerce, Division of Research and Planning, and the cost of printing paid from state funds.
