WKU VISION STATEMENT
WKU: A Leading American University with International Reach.

WKU MISSION STATEMENT
Western Kentucky University prepares students to be productive, engaged, and socially responsible citizen-leaders of a global society. It provides research, service and lifelong learning opportunities for its constituents. WKU is responsible for stewarding a high quality of life for those within its reach.
MESSAGE FROM THE PRESIDENT

The next six years represent a critical juncture for WKU. We have made good progress over the past 14 years in defining and advancing a set of priorities that define us as an institution. The University now stands at the cusp of national prominence. This document charts the course that will guide the next phase in our transformation.

Four broad goals lie at the heart of this plan. First and foremost, we are committed to enhancing the academic mission and the quality of our academic programs in ways that will set us apart as an institution. Second, we will continue to build a diverse university community which supports the learning and success of our students. Third, we intend to work with our community partners to enhance WKU’s positive impact on the quality of life in our region. Finally, we must continue to ensure the infrastructure necessary to support our institutional priorities, as well as be responsible stewards of our fiscal and natural resources.

More than a strategic plan, this is a plan of action. Goals and objectives are tied to both targeted strategies and critical indicators of progress. Forward-looking yet realistic financial assumptions undergird each objective. The performance targets and strategies are ambitious, but necessary if the University is to accomplish a full and lasting transformation.

Fulfilling the commitments made in this Action Plan will require the best efforts of all WKU faculty, staff, students, alumni and friends. I ask everyone in the WKU family to dedicate themselves to this effort. In so doing, WKU will be that much closer to achieving its vision of becoming A Leading American University with International Reach.

Sincerely,

Gary A. Ransdell

Sincerely,

Gary A. Ransdell
