AVERAGE WEEKLY WAGES BY INDUSTRY, BY PLACE OF WORK, 1984

* Not disclosed.

Note: Excludes domestic workers, railway workers, certain nonprofit corporations,

majority of federal government workers, and self-employed workers. Inces: Kentucky Cabinet for Human Resources, <u>Average Weekly Wages of</u> Sources: Workers Covered by Kentucky Unemployment Insurance Law, 1984.

Occupational wage rates for specific industries are usually not available to most government agencies, and wage data furnished to state employment agencies by individual industrial employers are protected from disclosure by federal law. The most reliable up-to-date wage information can be obtained by direct contact with local employers.

Associated Industries of Kentucky, a voluntary organization of Kentucky businesses, regularly collects occupational wage rates and fringe benefits data from participating member firms. Data are compiled for over 127 clearly defined office, production, and service occupations. Tabulations are published for nine geographical areas of Kentucky, as shown on the map below. It should be noted that the data may be weighted by the preponderance of firms in the larger cities and may be somewhat higher than the rates paid in the smaller communities. Data from these tabulations are available, upon request, from the Kentucky Department of Economic Development, Frankfort, Kentucky 40601.
