Local Fees and Licenses

The City of Carrollton levies a business license fee on businesses operating within the city. The fees range from \$11 to \$2,500 annually. The annual fee for a manufacturer is \$220.

Carroll County levies a 0.75% occupational license tax on wages, salaries, commissions, and other compensation earned within the county. In addition, the tax is also levied on net profits of all businesses, professions, or occupations for activities conducted within the county. The first \$5,000 of salaries or net profits is exempt and a maximum of \$1,000 per individual or business is established.

PROPERTY TAXES

The Kentucky Constitution requires the state to tax all classes of taxable property, and state statutes allow local jurisdictions to tax only a few classes. All locally taxed property is subject to county taxes and school district taxes (either a county school district or an independent school district). Property located inside of city limits may also be subject to city property taxes.

Special local taxing jurisdictions (fire protection districts, watershed districts, and sanitation districts) levy taxes within their operating areas (usually a small portion of community or county).

Property assessments in Kentucky are at 100% fair cash value. Accounts receivable are taxed at 85% of face value.

Jefferson Community College-Carrollton Campus

The Carrollton Campus of Jefferson Community College opened in January of 1990. The Campus has grown from a beginning 70 students to its current 1994 enrollment of nearly 250 per semester. Four complete associate degrees are offered at the Carrollton Campus - Business Technology/Management, Computer Information Systems/Microprocessing and Programming, Office Administration and Accounting Technology.

In addition, all the general education courses needed by bachelor's degree institutions are currently taught. Students wanting to complete associate degrees not totally offered in Carrollton do so at the parent campus in downtown Louisville. Courses requested by business and industry are added to semester offerings as needed such as Statistical Process Control, Real Estate Principles and Real Estate Marketing. The campus works with local industries to secure funding for custom business and industry training, provides pre-employment testing and works closely with those industries to assure courses are consistently offered that are needed for local citizens to become employable.

The Campus is a regional administration and testing site for the GED. Testing is done over two days, once a month. A high percentage of those testing monthly are earning their GED's at the first testing. The Campus also works closely with the SBDC Center at Northern Kentucky University co-sponsoring, as needed, small business opportunities.

In January of 1994 a new campus site was completed in downtown Carrollton allowing for the expanded associate degree offerings. The extended campus contains six traditional classrooms, a state-of-the-art computer lab, library area, high tech teaching tools, and current plans to complete a chemistry laboratory and anatomy/physiology laboratory as well as add interactive distance learning.
