BILL #4

Boycott Endorsement

On September 14 Associated Student Government passed a resolution by the vote of 18 - 1 - 1 to recommending Western cancel school November 1. November 1, being a Monday, plus the national break the day of the election, would allow students and faculty ample time to travel home to vote in this crucial presidential election.

However, the Academic Deans disregarded the suggestion and recommended to President Downing that school remain scheduled. Downing agreed with the Dean's recommendation.

Because of the apparent tightness of the Presidential race, an added importance will be placed on the individual vote.

So, to give each voter an equal opportunity to cast a ballot, Associated Student Government should not only support, but encourage student, faculty and staff to boycott school Monday, November 1 to allow them to make rational voting decisions November 2.
