BILL #6

ASG Evaluation

The Associated Student Government, having been criticized in the past for its ineffectiveness, is desirous of bettering its image in the eyes of the University.

One manner in which this may be accomplished is an evaluation of the current administration's term of office; to be compiled and made available to all members of this University.

Therefore, this 1076-77 Congress should take upon itself to conduct a two-fold form of evaluation, as follows:

1. An evaluation by each Congressman and Executive Officer of his/her own term of office, and
2. An evaluation of the Administration as a whole (e.g. how well/poorly the Congress has worked together, how well/poorly objectives have been met, feelings toward this Administration's effectiveness, recommendations, etc.).

This evaluation should be conducted two weeks before the new Administration takes office (due March 29), so as to compile them before their term of office expires.
