

Keynote: Ashley Ireland

Dean of Libraries, Murray State University

User Data and Library Resources: Finding

Balance on the Shifting Baseline

(Room: 163 B)

In order to determine the impact of library engagement on student success, academic libraries use technology to tie library use to the user. Some may argue that this means suspending long-standing tenants of library values to protect user privacy at all costs. However, we do have the means to protect user privacy while also learning more about how our users interact with our resources. This session will discuss modern user authentication tools, their differences, and will cover the control we need to maintain for our user privacy with our vendors. We will discuss how we need constant evaluation of our shifting baseline so that we may preserve our core values in a time when privacy is no longer expected.

Call for Officers for eBUG 2019

Nominations are being accepted for the roles of:

Chair-elect
Secretary/Treasurer

Conference Planning Committee

Carla Redden, Chair
Maysville Community & Technical College

Jennifer Joe, Chair-Elect
Western Kentucky University

Laura DeLancey, Secretary/Treasurer
Western Kentucky University

or (606)759-7141, ext. 66190

eBUG 2018
is co-sponsored by
Ex Libris and ELUNA.

Directions:

Knically Conference Center
WKU South Campus
2355 Nashville Road
Bowling Green, KY 42101
<https://www.wku.edu/knicelycenter/location.php>

Parking is readily available at the Knically Conference Center.

2018 eBUG Annual
Conference
June 1, 2018

eBUG serves as a forum for sharing information and expertise in the use of Ex Libris and ProQuest library technologies at Kentucky, Tennessee, and West Virginia libraries.

Program

Schedule At-A-Glance

8:00 am - 9:00 am	— Registration
9:00 am - 9:15 am	— Welcome/ Business Meeting
9:15 am - 10:00 am	— Ex Libris Representative: Grant Johnson
10:00 am - 10:30 am	— ELUNA Representative: Dale Poulter
10:30 am - 10:45 am	— Break
10:45 am - 12:00 pm	— Keynote: Ashley Ireland, Murray State University
12:00 pm - 1:00 pm	— Lunch
1:10 pm -2:00 pm	— Concurrent Sessions A
2:10 pm - 3:00 pm	— Concurrent Sessions B
3:10 pm - 4:00 pm	— Closing Session

Concurrent Sessions A

Setting up and Maintaining Users in Alma: It's Complicated

(Room: 163 B)

Tari Keller, Systems Librarian
University of Kentucky

Everyone is a patron in Alma. The Internal Users are your outside borrowers and the External Users are your Faculty, Staff and Students—WHAT??? That's just the start! You can create profiles with roles that have functions or tasks assigned by Ex Libris and are scoped by you.

Who needs what role and which roles are
https://digitalcommons.wku.edu/ebug_newsletter/vol2018/iss1/

scoped? What are role, assignment rules, and user registration rules and user record types anyway and do you really care? This session aims to share some tips for troubleshooting user-record problems and have audience discussion at the end of the presentation.

Dissertations in ProQuest: A Startup Guide (Room: 163 C)

Laura Bohuski, Special Formats Cataloger
Western Kentucky University

In 2015 the Graduate School at Western Kentucky University and WKU's Department of Library Technical Services started a project to load student dissertations into ProQuest. This presentation will discuss the steps WKU Libraries took to successfully use ProQuest as a dissertation repository. The steps discussed will include: how to setup a ProQuest administrative website, what information was required to effectively collaborate on this project, and will show how to load dissertations into ProQuest. Come and see how easy it can be to utilize ProQuest in your institution.

Concurrent Sessions B

Panel Discussion: Conquering Common Challenges in Alma Post-Migration

(Room: 163 B)

Kate Seago, Director of Acquisitions
University of Kentucky

Jason Griffith, Systems Librarian
Morehead State University

The **University of Kentucky** Acquisitions migrated to Alma with the goals of getting a better handle on electronic resources and monograph workflows

and providing improvements in acquisitions reports. There were challenges post migration, but we have made steady progress towards our goals.

While Camden-Carroll Library, at **Morehead State University**, has resolved many post-implementation issues in Alma, some issues with electronic resources persist. This presentation will demonstrate how CCL has addressed issues with electronic resources that migrated as physical resources during implementation.

Grima: Whispering in Alma's Ear Using APIs (Room: 163 C)

Kathryn Lybarger, Head of Cataloging and Metadata
University of Kentucky

Alma may seem like just regular web page, but there is another way to communicate with it: the API! In this talk, attendees will be briefly introduced to APIs (and Alma's API in particular) and how the presenter has using Alma's API to do various tasks, including: displaying records for printing, editing sets of records, and creating boundwiths.

Closing Session

ELUNA 2018: The Condensed Version (Room: 163 B)

This panel discussion will provide a wrap-up of the 2018 ELUNA Technical Seminar and Conference. ELUNA is a great conference, and we want to share what we learned about how Ex Libris and ProQuest products are being used!
