Administrative History:

The present department of Planning, Design and Construction has evolved over time from the office of Superintendent of Buildings & Grounds which was created about 1920. This office has grown and changed with the campus over time. In 1965 a Coordinator of New Construction position appears on the organization chart reporting through the Director of Buildings & Grounds and the Physical Plant Administrator to the Vice President of Administrative Affairs. On the 1969/70 chart it has become the office of New Construction & Planning. By 2000 it has been renamed Construction Management and becomes Construction Services about 2002. The 2005/06 telephone directory has a listing for Planning, Design & Construction.

Description: Open blueprints, drawings and plans of WKU buildings and campus created by the Department of Planning, Design & Construction.

Dates: 1906-present

Extent: oversize

Subject Analytics:
