## COUNCIL OF ACADEMIC DEANS

The Council of Academic Deans met in the Red Room of the E. A. Diddle Arena, Thursday, August 27, 1970, at 1:30 p. m. Dr. Cravens opened the meeting by asking for reports on registration. Everyone reported things going quite well.

Next Dr. Cravens called attention to the matter of laboratory experiences for teacher education students in the public schools. He indicated that the superintendents had requested that visits to their schools for such purposes be well coordinated. Dr. Charles Clark and Dr. Kenneth Estes will be responsible for this coordination and visits to the schools should be cleared through them.

Paul Cook indicated that President Downing would like a report from each department on equipment donated during the past few years. These reports should be forwarded to Mr. Cook and he suggested that this be a continuing procedure.

Dr. Cravens announced that the Southern Association Self-Study was later than first anticipated so this would provide more time. He said he would have more information following a meeting of the Association in Atlanta, September 8-9. He noted that Mr. Curtis Logsdon would have primary responsibility for coordinating this study.

Dr. Cravens indicated that his office hoped to compile and print a pamphlet on scholarly and creative activities of the faculty.

Dr. Minton pointed out that only students who had been admitted to graduate school were eligible to take 500 level courses.

Meeting adjourned.
