11th Annual May Singing Announced

LARGE CROWD ATTENDED LAST YEAR

The Hart County Gospel Music Association board met recently to make plans for their Annual May Singing to be held in Horse Cave, Kentucky.

This Gospel Singing has been held for the past eleven years with much success with gospel groups coming from many different areas and fans and friends of gospel music traveling for many miles to see and hear their favorite singers.

The singing will be held again this year at the Bale Tobacco Warehouse in Horse Cave, Kentucky, on May 13th and 14th.

Several good gospel groups will be participating and we invite you all to make plans now to attend. There are many good restaurants and motels in the area to take care of everyone.

Watch Gospel Reaching Out and your local papers for more information.

Hart Co. Singing

The Hart County Singing will be held at The Three Forks Bacon Creek Baptist Church on March 5, 1983. Services begin at 7:30 CST. Guest singers will be announced later in local papers. Daris Waters is the President. Everyone is invited to attend.

The Cathedrals

The Cathedrals have signed a recording contract with "Riversong Records" of Nashville, Tennessee.

Benefit Singing

There will be a Benefit Singing at the Cave City Convention Center on March 6th at 1:30 p.m. Featuring The Edmonton Quartet, The McCubbins Family and the Joymakers.

The money will go to infant son of Glen and Prissy Martin who's been in the hospital for some time and had surgery several times and the hospital bills have been piling up since he has been in the hospital. Everyone is invited to attend and support this worthy cause.

What's Happening

Ed Hill of the Singing Americans was recently injured in an accident involving their bus and a log truck. Ed was apparently driving when their bus ran into the back of the truck. He received leg injuries. Don't know the extend of the accident but Ed will be off the road for a while. We wish him a speedy recovery.

Spring Concert Announced

There will be a Big Gospel Singing on April 17th at 2:30 EDT. Featuring The Lincolnaires, The Edmonton Quartet, and The McCubbins Family. This concert is free for all to enjoy. Joel Ray invites everyone to this Annual Spring Concert.

Grace Union Singing

The regular monthly singing of the Grace Union Baptist Church will be held there on March 5 at 7:00 CST. The church is in Metcalfe County. The McCubbins Family will be the guest singers. Sherman Hurt is President and he invites the public to come.

From The President

I would like to address a question that has been asked many times.

How does one get started in gospel music? While this is not intended to be all inclusive, let me share some ideas that I believe will be helpful.

If one really desires to play or sing gospel music.

1. Learn the basics. I mean by this the scale, pitch, staff, musical alphabet, rhythm, accent and time.

If you can not attend a music school, you can find helpful materials at most any music store.

Some of us can remember when we had singing schools in our churches. One, two and sometimes three weeks, we would learn to sing the tune by singing the Do-Re-Me's, then we would sing the words.

Some churches are still doing this.

2. Practice, practice, practice. It has been said that singing or playing is 10% know how and 90% practice.

Don't short change yourself by failing to practice. Even if you have a natural talent. (Some refer to this as playing and singing by ear) you will need many hours of practice to become an accomplished musician or singer.

Some of our greatest singers and musicians cannot read music. But, remember someone else had to do it first.

3. Pray a lot. Ask God to help you develop your talent.

I believe that gospel music should be sung from a heart in tune with God.

4. Remember who you are singing for -- God, not man.

However, one must have a pleasing sound. People have to like you and your singing. Start in your church or in front of friends. Closely observe their reactions. Remember a joyful sound is not necessarily a loud sound.

Learn to smile and be polite. Have good public relations. You will not always be accepted sometimes even rejected.

If you know this is the will of God for your life, then don't give up. Hard work and commitment will pay off.

I sincerely request your prayers as we work together for Him.

The Christianaires Quartet has just completed its sixth successful year in gospel music. Singing throughout Kentucky, Indiana and Georgia.

During this time we have met a lot of gospel groups, ministers, song leaders and good Christian people. God has blessed us with friends everywhere and we are looking forward to seeing more souls saved and others drawn closer to the Lord.

With the addition of our new members.

Mrs. Lucille Coogle playing the piano and Jimmy Clater playing the drums.

We are looking forward to 1983 as our busiest year ever, and are hoping to record our second album this year.

Pray for us, and if we can be of service to your group or church, please contact us.

Yours in Christ,

ON THE ROAD TO MATURITY

When you think that your burdens are heavy,
 When you think you have walked your last mile,
 When you think that defeat stands before you,
 When you think that you have smiled your last smile,
 When the problems of life press around you,
 When your cross becomes too great to bear,
 When you feel your strength has all left you,
 When you think there is no one to care,
DO NOT think of quitting your mission,
DON'T begin to lower your goal,
 Through all of your trial and testings,
 It may be God is stretching your soul,
 For holy and high is our calling,
 And weak is our faith for the task,
 But God has the strength we are seeking,
 And HE will gladly share if we ask.
 So lean on his shoulder, dear children,
NEW faith and assurance you will gain,
 To help you through all of life's trials,
 And comfort through this "growing pain".

Psychoacoustics and the Audio-Tech System Vocal Exciter

This month we are looking at one of the latest pieces of audio processing equipment that until recently was found only in the studio or in broadcast situations. Before we can discuss the product, we need to discuss how and why it does what it does.

PSYCHOACOUSTICS

What you hear and what you think you hear depends on how the brain interprets the nerve impulses created by the inner ear. This takes place on both conscious and subconscious levels. Consciously, the brain reacts to pitch, volume, and meaning. Subconsciously, the brain also receives and reacts to changes in phase, time, and duration which allow us to determine direction, distance, and relative motion. How the brain perceives these subconscious elements of sound has been termed psychoacoustics. It is agreed that much of the psychoacoustic information is lost in the process of using sound reinforcement equipment. It is easy to tell the difference between an unamplified voice and the same voice coming through a sound system. Psychoacoustic enhancement offers a solution to the problem.

ATS VOCAL EXCITER

The ATS Vocal Exciter recreates the lost psychoacoustic elements of the original program source and adds it to the system. The result is an enhanced sense of presence and clarity not obtainable from any other type of audio processing or equalization. In this manner, the vocal exciter can achieve the following:

- *Improves clarity and intelligibility of speech.
- *Increases apparent sound pressure level and high frequency response without increasing actual signal levels or distorting anything.
- *Allows high frequency information to be perceived from mid-range drivers. Also reduces strain on tweeters and horns.
- *Cleans up "muddy" sound of reverberant or noisy rooms and makes monitors more effective.
- *Creates an image of non-directionality in speaker systems.

I find the ATS Vocal Exciter to be a very unique, sensible, easy to use, and affordable piece of equipment. It does what the company says it will do. In a nut shell the Vocal Exciter fools the ear. This makes for a real, more natural sound.

See you next month,
 Dennis Billingsley
 Gospel Music Department

TERM OF THE MONTH: Psychoacoustics - explained in preceding article.
