There are a few other teachers to be employed to do special work along special lines, and to fill some vacancies made by leave of absence and resignations. I am asking the Board to give me permission to do this when the occasion demands. Miss Ann Lee Davis and some other members of the faculty, including possibly Mr. Burton, Mr. Wilson and others, will want a leave of absence in order that they may attend higher institutions of learning. I trust you will grant these and such others as may desire a leave of absence, assuring them that their attendance at school will not prejudice their position at this place.

Most respectfully submitted,

H. H. Cherry

President, Western Normal and Teachers College.
