The English Department of Western Kentucky University invites all other departments, the colleges, the Academic Council, and the Faculty Senate to join this department in stating to all involved in the budgeting process for Western Kentucky University that it is essential to the academic program of Western that we stop the continuing pattern of cut-back in the acquisition of books and journals for the library.

Be it resolved that the acquisition of necessary current scholarly publications must have a top priority if a capability for academic excellence is to be maintained at this university.
