BOWLING GREEN, KY.
Telephone Directory
Morgantown • Smiths Grove • Woodburn
including listings of Logansport & Rochester

Area Code 502

February 1969 Yellow Pages
Write in the telephone numbers you will need in case of emergency.
Obtain your "police" and "fire" numbers from the list on this page.

> or dial "OPERATOR" in any emergency and say for example

"I want to report a fire at —" or "I want a policeman at —."

If you cannot stay at the telephone, tell the "OPERATOR" the exact location where help is needed.

---

**warning:**

Kentucky Law (CH. 235, Acts of 1962) makes it a punishable misdemeanor to willfully refuse to yield the use of a telephone party line to another person to enable such other person to report a fire or summon police, medical or other aid in case of emergency. The law also makes it a punishable misdemeanor to request the use of a party line on the pretext that an emergency exists, when the person requesting such use knows that no emergency exists. An emergency is defined as "a situation in which property or human life is in jeopardy and the prompt summoning of aid is essential."

Kentucky Law makes it a punishable misdemeanor for any person to make use of telephone facilities or equipment for the purpose of communicating language, suggestions, or proposals which are obscene, profane, lewd, lascivious or indecent in a manner reasonably to be expected to annoy, abuse, harass, torment, or embarrass another.

assistance in calling "OPERATOR"

party line Repair Service
[to find out how to dial another party on your line]
The U.S. and Canada are divided into more than 120 telephone areas. Each area has a 3-digit area code. Your area code is 502 (see map). The area code of the telephone you are calling should be dialed, or given to the operator if it is different from the area code of the telephone you are using. It should not be used if it is the same. (When placing call with operator, say, for example, “I want Area Code 312-555-2364.”) When you give someone your telephone number, include your area code if he needs it to return your call. A list of selected area codes is on pages 7-9.
With direct distance dialing you can dial station-to-station long distance calls to most telephones.

(Person-to-person calls, collect calls, credit card calls and calls to be billed to another number must be placed with the operator.)

**Your area code is 502**

**Call within area 502**

Dial "1" then the telephone number. If the operator asks for your number, give her the one from which you are calling.

For example:
- To call 555-2468 in Frankfort, dial "1" then 555-2468
- Your area code is 502

**Call outside area 502**

Dial "1" then the area code and telephone number. If the operator asks for your number, give her the one from which you are calling.

For example:
- To call 555-2368 in New York City, dial "1" then area code 212 then 555-2368

**Obtain the distant area code:**

For some cities, codes are on pages 7-9. If the place you want to call is not listed, dial "OPERATOR."

**Reach long distance directory assistance (formation):**

- Dial "1", then the area code for the place you want then 555-1212. For numbers in Area 502, dial "1", then 555-1212.
- Tell the operator the city or town, then the name or place you want.
- There is no charge for information calls.

**Reach WATS directory assistance (formation):**

- Wide area telephone service—dial "1" then Area Code "800" then 555-1212 to obtain numbers of those customers who offer incoming long distance calls without charge to persons calling from specific locations.

**If you reach a wrong number**

- If you have any other trouble with your call... dial "OPERATOR" immediately and tell her what happened. She will make the necessary adjustment.

**You will not be charged**

- If you hang up before you dial the complete number.
- If the telephone number you dial is busy or does not answer.

**If you need assistance**

Dial "OPERATOR." She will be glad to help you.

**Other subscribers:** Dial "OPERATOR."

**Call Guide 5**

**Bowling Green-Woodburn-Smiths Grove Subscribers**
types of calls:

station-to-station
Call station-to-station if you wish to talk with anyone who answers. Rates are lower than person-to-person. Charging begins when the called telephone answers.

person-to-person
Call person-to-person when you wish to talk to a particular person or extension phone. Tell the "OPERATOR" you wish to make a "person-to-person" call. Rates are higher than station-to-station. Charging starts when conversation begins.

coin calls
From coin telephones, see the instruction card or near the telephone, or dial "OPERATOR."

conference
You can talk with several people in different places at the same time. Tell the "OPERATOR" you wish to make a "conference" call.

collect
You can call "collect" if the person or firm you are calling agrees to pay the charge. If you want to make a "collect" call, please be sure to tell the "OPERATOR" when you place the call.

mobile and marine service
You can make local and long distance calls to automobiles, trucks and boats equipped for mobile telephone service. To reach local mobile telephones listed in this directory, just dial the number. To reach a mobile telephone away from its local community, dial "O" operator. Calls for boats on the water should be placed with the "O" operator.

wide area telephone service
(inward WATS)
Station-to-station long distance calls may be made, without charge to you, to those customers who have wide area telephone service. They offer this service to their customers calling from specific locations. Dial "1" then Area Code "800" then the special numbers of customers having this service.

overseas calls
You can call practically every telephone in the world from your telephone. Tell the "Operator" you wish to place an overseas call and give her the name of the country you are calling.

your telephone number is important

When your telephone number is preceded by your area code, it is the only one like it in the United States or Canada. When leaving your telephone number for someone else to call you be sure to include the Area Code, if the caller will be calling from a different telephone area than your own (see pages 7-9).

Numbers are most easily understood if they are given to others as "area code 3-1-1 (pause) 5-5-5 (pause) 3-6-2-1." When writing your telephone number, separate it like this: area code 311 555-3621.

If you’re a businessman it’s smart to make it easy for your customers to reach you. Why not include your telephone number on your stationery, statements and all advertising pieces? Show your area code too—it helps distant parties call you faster.

tariffs

Tariffs which show rates, rules and regulations for telephone service and facilities, approved by the Regulatory Commissions are available in our business office for public inspection.

attachments to telephones

The telephone company furnishes the equipment necessary to provide telephone service. In the interest of safety and good service, no equipment, apparatus or device not furnished by the telephone company may be attached to or used or connected with its facilities, except as provided in the company’s filed tariffs.

out-of-town directories

Directories for other cities may be obtained by calling the business office.

telegrams by telephones

You may telephone telegrams, cablegrams or radiograms from your home or business phone to the Western Union Telegraph Company. See instructions shown under the listing of the company in this directory. The telegraph charges will appear on your telephone bill. You may also telephone your telegrams from coin phones by dialing "Operator" and asking for "Western Union". Pay as you do for a telephone call.

automatic answering set

Certain telephones are equipped with an automatic device, known as an automatic answering set, which answers the telephone mechanically when no person is available. It then makes a recorded announcement. If your call is answered by an automatic answering set, listen carefully for the announcement which will be self-explanatory. Some sets will also record a message from the caller.

when you hear a "beep" tone

A short "beep" tone heard on your telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation. This signal is provided by the telephone company for your protection. Use of a recorder without recorder-connector equipment containing a tone-warning device is contrary to the company’s tariffs and is not permitted. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When it is disconnected, you will no longer hear the "beep" tone.

annoyance calls

The telephone company is concerned about obscene and harassing calls and is trying to help stop them. You don’t have to talk or listen to such calls—just hang up. If the calls persist, call your service representative at the telephone company business office. If a threat is made at any time, also call the police.

Malicious, threatening and abusive calls, including those in which obscene or profane language is used, are prohibited. The making of such calls over the company’s lines may constitute cause for disconnecting service and possible criminal prosecution, and civil action by the person called.

• — for information about any telephone service not shown on this page, call the business office, and ask for your service representative; she will be glad to help you.

good neighbors along the line

Good party-line telephone service is nothing more nor less than being good neighbors. And good neighbors are considerate of each other in sharing their party line.
"I’M GONNA PUT UP A HOWL!"

That’s what will happen sooner or later when you leave your telephone off the hook—you’ll hear a howling signal from the central office which is our way of asking you please to replace it. Blocks incoming calls, you know. And keeps folks on the party line from using their telephones.

Bowling Green...

... "the Shopping Center of Southern Kentucky"

This section, compiled by the Bowling Green-Warren County Chamber of Commerce, Inc., is designed to provide information on our city to both residents and visitors. We believe you will find it interesting and helpful.

SOUTH CENTRAL BELL TELEPHONE COMPANY
HISTORY

Bowling Green, the County Seat of Warren County, was established in 1797 as a result of a popular stopping place for pioneers traveling over the Cumberland Trail to Nashville. The first log cabin was built in 1794 by the Moore brothers of Virginia.

From a spot by a large grove of trees, where, late in the afternoon, village men would gather and roll wooden balls on the green, originated the name Bowling Green. Before this name was incorporated on March 6, 1798, it was written and read as one word.

Bowling Green was the Confederate Capital of Kentucky, and Warren County is named in honor of General Joseph Warren, hero of Bunker Hill.

LOCATION

The City of Bowling Green is located on the main line of the L & N Railroad, at the junction with its Memphis branch. Scheduled bus lines make connections to all parts of the nation. Commercial airline service is available with daily flights departing from the Bowling Green-Warren County Airport. The field has two asphalt runways of 5,250 and 4,000 feet respectively. It is lighted for night flying and hangars are provided for private planes. Charter service, student instruction, and aircraft maintenance is available.

Federal Highways 31W, 68 and 231, and State Highways 67, 80, 234, and 1435 serve the automobile public. Interstate 65 serves Bowling Green with two interchanges.

INDUSTRY

Bowling Green's industrial complex, one of the finest in the nation, ranges from the manufacture of carburetors and kerosene-fired space heaters to executive desk accessories and commercial air conditioners.

Industrial Park #1, formed in 1961 by the Chamber of Commerce and Industrial Foundation, was completely filled by March, 1964. The chamber and foundation now have Industrial Park #2 readily available for industries wishing to locate here. The new park, located north of the city, offers 196 acres of prime industrial land.

EDUCATION

The Bowling Green and Warren school systems have a combined enrollment of more than 10,000 students and 450 teachers, a 26 to 1 student-teacher ratio.

The Western Area Vocational School offers a high school student, as well as an adult, the facilities to learn a skilled trade. Courses change to meet new demands, but generally cover such subjects as wood fabrication, electronics, sheet metal, and machinery. A new $1.5 million building has been completed.

Bowling Green is the home of Western Kentucky University, a multi-purpose university offering MA degrees in several fields, and BA and BS degrees in liberal arts with emphasis on teacher preparation.

There are six schools which offer private instruction and a school for handicapped children was erected in 1957.

ACCOMMODATIONS

Some of the finest accommodations in Kentucky are to be found in Bowling Green, as over 800 rooms are ready to serve the visitors, tourists, and salesmen. You can live in luxurious comfort during your stay. Tourists can make Bowling Green their headquarters while visiting Mammoth Cave National Park, Abraham Lincoln's Birthplace, My Old Kentucky Home, plus many others too numerous to mention.

One can not only enjoy excellent motel or hotel accommodations in Bowling Green, but excellent restaurant facilities as well. Bowling Green's many restaurants have a wide choice of food selection, a must for tourists.

RECREATION

Bowling Green is a 35-minute drive from Mammoth Cave National Park and 75 minutes from the birthplace of Abraham Lincoln.

Nearby lakes include Barren River Reservoir, Shanty Hollow, Nolin Reservoir, Rough River, Kentucky, and Old Hickory Lake.

Those wishing for recreational facilities can enjoy boating, fishing, swimming, golf, football, basketball, three movie theatres, two drive-in movie theatres, bowling, and community concerts.

The City of Bowling Green maintains 10 supervised summer playgrounds, and two youth centers.

BOWLING GREEN . . .

Multiply yourself
by 83.5 million!

That's how many people read
the Yellow Pages every year.
And 93 per cent of the time
Action-People look in the
Yellow Pages, they either visit,
call or write. Yellow Pages ad-
vertising gets action.
The Yellow Pages tell you where to buy most of the products and services you desire.

### Dates to Remember

Every Day Shop the Yellow Pages
Mr. Businessman...

Do you know that two groups of ACTION PEOPLE USE THE YELLOW PAGES

PEOPLE LOOKING FOR YOU...

1. Recommended
2. Influenced by Your Other Advertising
3. Solicited by You or Your Salesmen
4. Passers-by Who Were Impressed by Your Place of Business
5. Your Former Customers

This group may experience difficulty in finding you. Here's how to direct them to you...
1. Represent your firm under all headings pertaining to your business.
2. People may remember only your address. Help them find you—feature your location prominently and provide specific directional information.
3. Give prominence to your slogan and emblems. Slogans and emblems are sometimes remembered and firm names forgotten.
4. If your firm is known by more than one name, list each name.

PEOPLE LOOKING FOR ANYONE...

1. Newcomers to a Community
2. Emergency Buyers
3. Dissatisfied with Present Supplier
4. People with an Occasional Need for Your Product or Service
5. Competitive Bid Buyers
6. Transients

In choosing an advertiser to do business with, these people are influenced by...
1. Reliability—years in business, experience, etc.
2. Authorized Sales and Service—brand names
3. Scope of Services—range and variety
4. Complete Details of Services—delivery, "open 24 hours," etc.
5. Illustrations, Emblems and Slogans
6. Location

Advertise for Action...

Call your Yellow Pages representative. You'll find him in these Yellow Pages under "Advertising—Directory & Guide"

Everything's there in black & yellow
The power of the YELLOW PAGES
(the U.S. adult population's use of the Yellow Pages for all products and services over a 12-month period.)

OF THE 113 MILLION ADULTS (20 years and older)

83.5 million persons (or 73.6% of the adult population) used the Yellow Pages to locate a product or service.

These 83.5 million adults used the Yellow Pages 3.66 billion times (or an average of 43.9 times per person.) Thus, THE YELLOW PAGES ARE USED TEN MILLION TIMES A DAY.

93% of these references resulted in action . . . a personal visit, telephone call or letter . . . that's almost everyone who used the YELLOW PAGES.

42% of these Yellow Pages usages were for work or business;

58% for personal needs.

52% of the references were made by people who chose to use the Yellow Pages instead of the white pages, even though the name was known.

Mr. Businessman... For more information, call your Yellow Pages representative. You'll find him in these Yellow Pages under "Advertising—Directory & Guide."
