Partial view of "Kyrock" storage at Bowling Green. 100,000 tons in storage to insure prompt deliveries during road building season.

L. & N. R. R. Depot. "Kyrock" used to surface all streets, trucking areas and passenger platforms around this magnificent depot building.

Eighth Street from Chestnut to Park. The Non-Skid quality of a "Kyrock" surface is appreciated on steep grades like this.

"Kyrock" surface on 14.3 per cent grade. "Kyrock" will not shove, roll or wave on any negotiable grade.

Bowling Green

is 100 per cent paved with

Kyrock

State Highway and municipal officials, visiting Bowling Green from many parts of the country, have adjudged it to be the best paved city of its size in the United States.

For Kyrock Data, Address
KENTUCKY ROCK ASPHALT CO.
Incorporated
Louisville, Kentucky

Laying "Kyrock" on Laurel Street. "Kyrock" is laid cold. Simply shoveled onto the base, raked to grade and rolled. Ready for traffic immediately.

Franklin Road, south of Bowling Green. "Kyrock" presents a fine sandpaper-like surface that is safer on curves and grades.

Kyrock
The Perfect
Pavement

Park Square. "Kyrock" surface laid 1920. No maintenance cost to date. "Kyrock" is smooth, resilient, noiseless, dustless, non-glaring and non-skid.

Thirteenth Street from Park to Chestnut Streets. Miles of beautiful residence streets paved with "Kyrock."
