Office of the President

MEMORANDUM

TO: Mr. Bart White, President
Faculty Senate

FROM: Thomas C. Meredith, President 

SUBJECT: Faculty Senate Minutes of April 24, 1990

I apologize for not having noticed this previously. Under the section headed University Budget Committee, the comment is made that "the salary increase above the five percent level of funding will have to come mainly from reallocation of funds/cuts within the academic department budgets." I am afraid this will be misleading for future readers of these minutes. The cuts were taken evenly across all budgets in the university community without mainly attacking the academic department budgets.
