PIKES AT WESTERN

PiKA has just finished a busy summer and first several weeks of the fall semester. This past summer saw major changes take place at the house. According to SMC Mike Budniak, most of the first floor of the Kentucky street house has been remodeled including a new Memorial Room which has been missing since the move from College Street. A 14 X 28 deck has also been added to the back of the house.

This fall has also been very busy, to date they have 12 pledges and are hoping to finish with nearly 20. This fall also brought a visit by Dan Corah, Pike National Consultant, an alumn of Colorado State University. His trip resulted in very favorable remarks. He is very impressed how the chapter has improved since the last visit by a National consultant. Our congradulations as well to the chapter.
