Descriptive Inventory

MSS 326 WARREN County, Kentucky – World War II Servicemen

3½ boxes. 26 folders. 3,261 items. 1941-1946. Photocopies.

2010.27.68

COLLECTION NOTE

These materials consist of information collected about Kentuckians from Warren County while they served in the U.S. military during World War II.

The information is principally in two forms:

1. A card bearing the individual's name and, in many cases, other basic data such as rank, branch and location(s) of service, awards and discharge date.
2. Items, often brief, clipped from newspapers and reporting on aspects of the individual's service, such as training, promotion, transfers, furloughs, capture by the enemy, battle wounds and death. The clippings are not identified, but are dated and probably appeared in the local newspaper, the *Park City Daily News*.

In some cases, only a very small amount of data is present; certain records, for example, consist only of the name on a card. In other cases, however, between one and ten clippings may have been collected on an individual's activities during his/her service or immediately after discharge.

African-American soldiers are part of this collection, as are women who served in the Army Nurse Corps, the Women's Army Corps (WAC), the Women's Army Auxiliary Corps (WAAC), and other war-related vocations. Also included (Box 1, Folder 1) is a photocopy of an article published in the *Park City Daily News* on 23 March 1947 listing 123 Warren Countians killed in the war; some additional names appear on this list that are not otherwise documented in the collection.

Items in the collection are arranged alphabetically by surname.
