Detection and Quantitation of Tetracycline Antibiotics in Agricultural Swine Wastes

Keywords (3-5 keywords that uniquely describe content)
Swine Wastes; Liquid Chromatography; Residual Bacteria; Solid Phase Extraction; Tetracyclines

Copyright Permission for TopSCHOLAR® (digitalcommons.wku.edu) and ProQuest research repositories

I hereby warrant that I am the sole copyright owner of the original work.
I also represent that I have obtained permission from third party copyright owners of any material incorporated in part or in whole in the above described material, and I have, as such identified and acknowledged such third-part owned materials clearly. I hereby grant Western Kentucky University the permission to copy, display, perform, distribute for preservation or archiving in any form necessary, this work in TopSCHOLAR® and ProQuest digital repository for worldwide unrestricted access in perpetuity.
I hereby affirm that this submission is in compliance with Western Kentucky University policies and the U.S. copyright laws and that the material does not contain any libelous matter, nor does it violate third-party privacy. I also understand that the University retains the right to remove or deny the right to deposit materials in TopSCHOLAR® and/or ProQuest digital repository.

Select only one of the following:

☐ I grant permission to post my document in TopSCHOLAR® and ProQuest for unrestricted access.

☐ I want to embargo access to my document in TopSCHOLAR® and ProQuest for (check one): □ 1 year □ 18 months □ 2 years □ 3 years
*After this time, my document will be openly accessible.

I, Abdulrheem J, hereby understand and agree to the above statement.
