Prosperity The Bowling Green Business University now has the largest attendance in its history with the possible exception of the war-time peak. "From the East and the North and the South and the West" they have come, Texas, Pennsylvania, Delaware, Indiana, Virginia, West Virginia, Georgia, North Carolina, South Carolina, Mississippi, Ohio, Michigan, Illinois, Arkansas, Kentucky, Oklahoma, Florida, Alabama, Missouri, Louisiana—and below and below Mason and Dixon's Line— they come in great numbers. They came, too, most of them before the Dawes plan had been put into operation in Europe and while the presidential campaign was keeping the country in doubt.

These are they who will be fortunate early next year when industrial conditions will be much more active. Young people who must be educated should not get attention to whether it be good or bad. When business is especially flourishing, the youth must get ready to make living at the time that is within their reach. When business is extremely dull, they must go to school in order to prepare for the times that are going to be better.

Commercial education is always in demand. Well trained stenographers, bookkeepers, and commercial teachers can today command good salaries and secure them almost anywhere. The poorly prepared are scarcely ever in demand. We are sending graduates now to positions—good places that pay well and this time next year, in our opinion, we shall send them out in much greater numbers, because it is predicted that we shall soon be in a period of great prosperity.

Now is the time to take a business course.
Are you young and hopeful? If so, now is the time to educate yourself.
Are you able to secure a position paying a beginning salary of a hundred to a hundred and fifty dollars per month? If not, take a business course. Now is the time.

Does your future seem secure? If not, take a business course and through that build for yourself not only an income, but a situation—a secure place.

Our Reason For Existing

What Grade Of Students?

Who may enter this institution?

Anybody who comes.

Does it matter if a student being high school graduates before coming?

No.

Will high school graduates or those who have graduated from high school in the past three years be found among the young men or women coming to this school?

Yes.

Is it necessary to take those who come and give them an entrance paper?

Yes.

If you are not in the junior class you can get the material to take a course here. If you are not interested, you may be able to hold your own.

The problem is in the fundamentals. If you do not understand, we believe that you will understand if you are not in the junior class. The situation is not as bad as it seems.

We do not have any enemies. Our enemies are the people who are not interested in the work.
