Student Credit Hours is for classes in that region, but full-time/part-time status is for the University as a whole.

Headcount numbers for an extended campus region should be considered only in the context of that region. Because of the possibility of duplication with other regions and on-campus headcount, headcounts should never be totaled to arrive at an extended campus total.

## EXPLANATIONS

- The number of degrees for a year are for the academic year which begins with the summer semester and goes through the spring semester.
- Several departmental changes have taken place during the periods covered. Departmental statistics have been adjusted as much as possible to simulate what the department statistics would have been if their present arrangement had been in effect during all the time periods.
- For the most popular majors, 'Seeking Admission' students have been lumped with the 'Admitted' students.
- Students without an ACT Composite or a GPA were excluded from those calculations.
