ALUMNI ASSOCIATION
OF
WESTERN KENTUCKY UNIVERSITY
BOWLING GREEN, KENTUCKY 42101
(502) 745-4395

Dear Hilltopper of the Fabulous 50's:

It was a grand time to be at Western. From the class room to the dorms, to the soda fountain and the sock hops, we had fun as we prepared for life.

This book helps us relive those glorious times. It jogs our memories of people, places and events that meant so much to us.

I am proud to still be at Western directing the Alumni Affairs Office. It's still a wonderful place to be. I am also proud to be able to offer this book of memories to my colleagues.

Almost all the hundreds of photos in the book were sent in by you, alumni from the 50's. For this the Alumni Association and the university archives thanks you. The photos have been copied and placed in the archives since they had so few.

We had a difficult time deciding which pictures to use. There were so many exceptional ones. We tried to get a representative sample of the best ones. I am sure you will find yourself or someone you know as you look through the book.

As you read about the ballgames, beauty contests and class officers these people and events will pop back to the front of your mind. That's what this book is about—remembering a very important and influential period of our lives.

Well, that's enough from me. Thanks for your help with the book and thanks for the memories. Enjoy.

Sincerely,

Jim Richards

The Fabulous 50's

at Western

The 1950s represented growth, change and a renewed enthusiasm, not only on the campus of Western Kentucky State College, but on virtually every college campus in America.

It was the time of Rock 'n Roll, Thunderbirds, sock hops and juke boxes - it was known then and now simply as THE 50's.

Western Kentucky State College had risen from simple beginnings. Created by the Kentucky State Legislature in 1906 and incorporating the traditions of the Southern Normal School of Glasgow, Dr. Henry Hardin Cherry guided the development of the institution for its first 31 years.

During its development over more than 80 years, Western has made great strides in educating the citizens of the Commonwealth. Originally created as a teacher training institution, Western now is a multi-purpose comprehensive university continuing to seek to expand its academic offerings.

No period in Western's past depicts the expansion and growth of the university better than the 1950s.

The college entered the decade under the leadership of Paul L. Garret, perhaps the least publicized period of any Western president. When Dr. Cherry died in 1937, there was much speculation among the faculty and citizens as to whom the successor would be.

Gov. A.B. (Happy) Chandler appointed Garret who assumed the position saying "I know very well I cannot take his (Cherry) place...I simply want to do my best to carry on, and I hope I can do it in the manner he would want it done."

Though new at Western, Garret was no stranger to the world of education. He had impressive credentials as a teacher. Appropriately for a leader, he started in a one-room school in Waddy and graduated from Shelbyville High School. He received his bachelor's degree in English and history and his master's degree in history and political science from

Georgetown College. He did post-graduate work at the University of Kentucky and the University of Chicago.

Garrett's presidency was marked by a lack of funds for expansion but as a period of continued dedication of purpose for Western.

Because of limited funds available for expansion, the physical appearance of the campus did not change greatly during Garrett's administration. The interior of VanMeter Hall was remodeled and the Kentucky Building and the music building were completed. McLean Hall was built for women's housing and Potter Hall was remodeled to serve as Western's first residence hall for men.

The building that now bears his name was opened during his administration in the fall of 1953. It was Garrett's plan to have a student union as a central meeting place on the campus - something that was lacking at Western up to that time.

During that same semester, Garrett suffered a paralytic stroke, which caused him to move his administrative work to his home. When he came back to his Van Meter Hall office during the spring of 1954, he fell and broke his hip. He died at his home on February 28, 1955.

While Garrett took Western through its most torturous times; through the post-Depression era of the late 1930s that sapped its resources, and a war in the 1940s that seriously jeopardized its student population, Dr. Kelly Thompson was president when the growth of the late '50s and 1960s took hold.

Thompson was appointed acting president when Garrett suffered a stroke in 1955. When Garrett died later that year, Thompson stepped into the President's office naturally, perhaps with little idea that the school he had worked for since 1929 was about to explode into a major institution.

Traditionally, Western had placed primary emphasis upon the needs of the individual student. From 1955-69, when the University experienced its most spectacular growth

Cherry Hall

and expansion, much care was taken to preserve this emphasis.

The Office of the Dean of Student Affairs was established in 1956. President Thompson initiated the first phase of student government at Western shortly after taking office in 1955, calling the new organization the President's Student Advisory Council.

Enrollment soared on the Hill during the decade following President Thompson's election, and this growth was responsible for substantial changes in almost every phase of the institution's functions. The growth pattern was not unique to Western, but reflected a national trend that changed the face of higher education nationwide.

Reversing the decline in enrollment that began with the war years,

enrollment in 1955 started a dramatic climb that saw Western's headcount more than triple during the next decade. Enrollment in 1955 was 1,975 increasing to 2,161 in 1956, 2,351 in 1957, 2,546 in 1958, 2,917 in 1959 and 3,599 in 1960. As the 1960s began, Western had gained a prominent position in Kentucky higher education as the second largest state-supported university.

Thompson faced a major challenge early in his presidency as a result of the Supreme Court decision affecting integration. Kentucky's Day Law prevented the integration of schools for nearly half a century. However, that major challenge set the tone for the Thompson administration since the college was integrated without major incident and lingering effect.

The Western Philosophy

Through the expansion and growth of the 1950s, Western never lost its direction or focus.

As stated by Dr. Henry Hardin Cherry, the Western's basic philosophy and principles are:

- To be a live school and to impart to its students a burning zeal to do and be something.
- To be progressive, to use modern methods and equipment, but reject all worthless educational fads.
- To let the reputation of the school be sustained by real merit.
- To seek recognition of the public to the extent the school deserves it.
- To fight against ignorance, and for higher education and the liberation of the human soul.
- To cooperate with all educational institutions that do honest work and bid them God speed in their efforts.
- To "ring the rising bell in the human soul" by inspiring all students who come in touch with the work of the institution.
- To teach that self-control is an imperative duty and the first great obligation that every person must fulfill, if he would succeed.
- To instill in the minds of the students the great truth that every person is created to do something, to be a producer.
- To teach students the power of earnestness and to warn them against all show and pretense.
- To make the school self-governing and to create a high moral sentiment among the pupils.
- To refuse to organize or permit the organization of any club or society that would foster care and destroy cooperation, but rather to teach that the good of one is the good of all.
- To recognize no aristocracy except that of work and character.
- To lead the student to understand that a broad and liberal education is essential to the highest degree of success in any endeavor of life and that unless he has a purpose in life and is willing to pursue it closely and courageously, he will fail.
- To lead students to see that success depends mainly upon his own efforts, and that he must discover the man in himself before he can become a being of power and influence.

The fun of the 50's may be best recalled now, but the work and the learning have carried the Western alumni far.

Team spirit

Athletics

in the Fabulous 50's

Athletics played a major role in the resurgence of Western after World War II. Coach E.A. Diddle guided the Hilltopper basketball team through a glory-filled 1950s embellishing his reputation and the institution's image.

Between 1946-47 and 1953-54 the Hilltoppers won 202 games while losing only 40, an impressive 83.5 percent winning percentage. Diddle waved his red towel and he led the 1949-50 team to unreached heights. That team was the first to average 70 points per game and the 1952-53 team reached an 82.2 scoring mark.

The Hilltoppers played in the prestigious National Invitation Tournament in 1950, 1952, 1953 and 1954. Western teams annually made an eastern tour with regular season games scheduled in New York City, Washington, Philadelphia and other media centers. Coach Diddle's teams were usually ranked high in the national polls and their style of play pleased crowds wherever they went.

Bob Lavoy (1950), Rip Gish (1951), Tom Marshall and Art Spoelstra (1953), Tom Marshall (1954) and Ralph Crosthwaite (1958) received All-America status during the decade. The All-Ohio Valley Conference team included Johnny Givens and Lavoy (1950), Gish (1951), Marshall, Gene Rhodes, Art Spoelstra and Richard White (1952), Marshall and Spoelstra (1953), Lynn Cole, Marshall, Spoelstra and Jack Turner (1954), Forest Able and Ralph Crosthwaite (1955), and Crosthwaite (1958 and 1959).

Football played a prominent role in the 1950s as Coach Jack Clayton's team posted an 8-1 record in 1952 and led by quarterback Jimmy Feix, defeated Arkansas State 34-19 in the Refrigerator Bowl in Evansville. Nick Denes assumed the football coaching spot in 1957.

Jimmy Feix (1952) and Jim "Yogi" Hardin (1957) earned All-America honors on the gridiron during the decade and more than a dozen players were named to the All-Ohio Valley Conference team including Hoyte Threet and Roy Hina (1950), Marvin Satterly, Lawrence Gilbert and Jimmy Feix (1951), R. E. Simpson, Satterly, Feix, Gene McFadden and Max Stevens (1952), Bill Ploumis, Satterly, Arnie Oaken, McFadden, and Stevens (1953), Walt Apperson and Tom Patterson (1954), Vernon Wilson and Bill Strawn (1955), Bill Holt and Jim "Yogi" Hardin (1957), Larry Nutter and Hardin (1958) and Herb Wassom (1959).

It has really been a dream come true. And when you think that's crazy, remember Colonel Sanders opened his first fried chicken place when he was 60!

My mom, Anne Dienes, lives about six blocks away, and comes every morning to wash the dishes and the clothes, and to do the mending. She's 88 years old, and is a legend in her own time around here. Life's been good - the best thing that ever happened to me was meeting "Red" Bean, and since that happened at Western, WKU will always have a special place in my heart.

I retired in '84, ran for the city commission and was elected. I served on that board for three years. Then, in 1986, I built a dance studio, which keeps me off the street and out of trouble. (Because there's always something to do [or something to fix.] My wife, the former Joan Dienes, and both our daughters teach at the studio.

Among my 50s flashbacks—that incredible aura of foreboding doom as I hand "my" cause of study to Prof. R. Smith, ping-pong at the Cedar House, "Crunch-time" on the baseline bleachers at the red barn, after standing for a rousing rendition of the "Fight Song", and last, but most memorable, the Western spirit—that wonderful, glorious state of euphoria which remains with you forever.

Much of what I am today can be directly traced to the academic and social opportunities I enjoyed at Western. There are too many memories for me to single out specifics, but enjoying Hilltopper basketball and working in the cafeteria were "special."

Memories of Western include many memories of Coach Ed Diddle and playing under him from 1946-50.

JOHN M. CHAMBERLIN, Class of 1957. Condensing my memories of Western reminds me of some other difficult tasks. Like the time I spent all night writing a term paper for Gordon Wilson, or worked too long on a quintic equation for Hugh Johnson, slaved over Gabrielle Robertson's impossible tests, lived in the lab to complete Glenn Dooley's quant unknowns, or struggled through Joyce's Ulysses under Justine Lynn. They asked too much—but I wouldn't trade what I gained.

What meant most to me at Western was knowing many wonderful people. Eating together, sharing casual moments between classes, bull sessions about everything under the sun, walking downtown on a date, and singing, praying and studying the Bible together.

After getting a Ph.D. at Duke University, I went back to Western to teach in the Chemistry Department. Here I met my wife, Jan, who was teaching French at Western and now teaches Spanish at BGHS. Our daughter studied music at WKU, and she now works for a computer firm.

GINGER PALMER COLLINS, Class of 1956, B.S. Degree in Music Education, currently living in Jacksonville, FL.

I graduated from College High in 1951 and went right on to Western, starting in summer school. I was all set to graduate with the class of 1954 but married and wound up completing Dr. Willey's and Mrs. Travelstead's classes by correspondence.

I continued as a symphony cellist and as organist and teacher until my husband and I parted in 1970.

I'm currently a Collection Representative for Continental Cablevision, enjoying all the benefits of working outdoors.

My memories of Western include: hearing the Hilltoppers practicing "Trying" before they made their hit recording; practice teaching was a thrill not since equaled; unlike some I loved chapel; I played clarinet in the band and enjoyed marching and playing for the games; and most important my friends, teachers, and my fellow students. There's something about college life that leaves one with a wonderful feeling that never goes away.

My days at Western are memorable ones. I'll never forget the track team and Coach Turner Elrod, the OMA KRON Fraternity, Potter Hall, working in the snack bar, and basketball games in the Old Red Barn. The greatest thing of all is the friends made during that time.

To me Western in the 50s was the greatest.

I am proud to be a "daughter of the hill."

My first weekend on campus as a freshman, feeling very strange, not knowing my way around, my roommate and I headed for the cafeteria for supper. As we walked up the hill, a gentleman stopped us and asked us the way to Van Meter Auditorium. We had a hard time deciding which way to tell him to go but we

finally managed to figure it out and instruct him. He burst out laughing and introduced himself. It was Coach Ed Diddle. Since I am 5'11" tall, he asked me if I would be interested in playing on his basketball team. From then on, everytime he saw me, he asked if I were ready to start practicing for the team. He certainly made me feel welcome.

My education at Western certainly prepared me well for my career. It instilled in me a love of learning, teaching, and children. These are still strongly felt today as I continue my career. My background in Education was outstanding as I began my career in 1956. I have never forgotten the interesting discussions in Dr. Cole's education classes and the beautiful paintings in Dr. Wilson's home. It truly was FABULOUS during my college years of 1956-60.

WALLACE D. DAWSON, Class of '54, BS Biology, Louisville, KY.

When I arrived at Western in September 1950 on the L&N Pan American and took up residence in Potter Hall, the male student body was still abundantly populated by World War II veterans on the GI Bill, serious about earning a degree and getting on with life. Few students owned automobiles, and the idea of a good time was hoofing it to Tandy's or Chick's for a few games of pool or out to Bill Hardin's or down to Hunt's Oyster Bar on South Main for a cold beer.

Bull sessions in the dorm rooms were common, and favored topics were politics and religion. This was the peak of the McCarthy era. A liberal was anyone who favored TVA. When Truman fired General MacArthur, many a heated debate followed. Of course, the WWII vets always had war stories to entertain us. My room mate had one about how he single-handedly captured a German Panzer tank. Others described the horrors of combat. Music preferences inclined to country and western - then called "hillbilly". This was the

heyday of Hank Williams, Ernest Tubb and Kitty Wells.

By the time I graduated four years later, a very different atmosphere prevailed. Ike was president; peace and prosperity reigned. The GI Bill students were gone. Younger students, who were teenagers in the post-war period, were not at Western. Concerns were superficial, a mood of levity pervaded the campus. The Student Union Building had been completed the previous year, and more of the social life centered on campus activities. Diddle's 1954 basketball team ran up a long victory streak and ranked in the top ten nationally. The first panty raid brought the state police to campus. Students with autos were no longer a rarity. The first hints of rock and roll were being heard arising from something called rhythm and blues or "race music". We were all very proud of our own "Hilltoppers" with Jimmy Sacca, then at the peak of popularity.

I miss the crew from Potter Hall.

DOROTHY BROWN DOOR, Class of 1954. Being from Portland, TN I came to Western in 1952 from Martin College, Pulaski, TN. I lived in West Hall and McLean Hall, fond memories of both.

After receiving B.A. Degree in Library Science in 1954 I went to Chattanooga, TN to be librarian at Kirkman Technical High School for four years. Married Robert Door of Rhode Island in 1956.

IBM transferred us to Kingsport, TN in 1958, where we have remained, except for short special assignments. I attended East Tennessee State University Graduate School. Did substitute teaching 12 years at Dobyns Bennett High School. In 1981 I went with Sullivan County Schools as elementary librarian at two schools. Had three children in three different colleges that year—all three have now graduated from college, but I still go to two school libraries.

I was active for many years in the AAUW

and Art Guild, entering shows and sales with watercolor paintings. Sewing, knitting, church, and walking fill much time.

Traveling is a favorite pastime, three trips to Europe. The most memorable being a chaperone for high school band trip to Europe in 1981. We go to New England every summer.

Western has many memories. One of the fondest, and most surprising, was being chosen a "campus favorite girl" after being there just one year and a transfer student. Going to basketball games early for a good seat; the Hilltoppers first basketball game on TV; going to State St. Methodist Church to eat Sunday evenings; Religious Council; Cherry Hall chimes every 15 minutes—Memories—how they linger!

Western holds many memories for me. Some of them are rushing to get in McLean Hall by curfew, and not making it a few times, being grounded for cooking in my room, and trying to walk "the hill" in all the snow and ice in the winter of 1950-51, falling down once, and Ed Diddle helping me up.

When starting at Western in the fall of 1954 the student body was small enough that we knew most everyone on campus by sight if not by name. I've lived with a lot of W.K.U. history—from Kelly Thompson (then acting president) to Thomas Meredith (current president). The Western Spirit lives on! I even remember the words to "College Heights" thanks to Nell Gooch Travelstead's beating it into my head in student assembly.

I met my husband, Scott Ford, a Navy veteran at Western and we married in August of 1958. I was secretary to Dr. F.C. Grise until his retirement and then for Dr. Raymond Cravens until the birth of our first child in August of 1960. LAWRENCE R. FRENCH, Class of 1954, B.A. Math. While waiting for my Air Force assignment, I returned home to Elizabethtown and taught and coached in a Hardin County elementary school.

By 1985, the Air Force magically helped me program 41 years of duties into a 30 year career. These included 18 years as a pilot, 20 years in Weather Service, and three years of meteorology studies at Penn State University, (BS - 1962), and University of Oklahoma, (MS - 1968). We enjoyed great football, but missed Western quality basketball.

We still live in O'Fallon, IL, 20 minutes east of St. Louis, where we retired from the Air Force. I am now a registered agent and representative of an international company, USPA and IRA. We do family financial programs.

I remember most the friendly helpful spirit of the 2,000 students and faculty as I walked the halls of Cherry, and the campus paths to the Western Lunchroom, Goal Post, McLean Hall, Red Barn and baseball practice. NANCY HAMMOND HUGHES, Class of 1956, B.S. Degree in Elementary Education.

After graduation from Western, I married Tommy Hughes and began teaching in the Bowling Green City School system. In 1981, I was named Bowling Green's Teacher of the Year and was runner-up for the Kentucky Teacher of the Year award.

We have a daughter, Amy, also a Western graduate, who is a social worker. She and her husband, Frankie Wood, have a son, Andrew Thomas, age three.

I retired from teaching in 1986 and I am enjoying the time I can now devote to hobbies, clubs, family, and friends. I enjoy photography, painting, and playing bridge. I am a member of Alpha Delta Kappa, Pierian Literary Club, Mabel Thomas Garden Club, Bowling Green Woman's Club, Bowling Green Homemakers Club and Whist Investment Club.

I am so glad that teaching was my career choice and that I chose Western to prepare me for my life's work. I cherish the memories of all the students that I taught and I treasure the wonderfully warm, rich memories of carefree campus life.

GERTRUDE HUMPHRIES, At age 16 I entered Western Teacher's College in 1927—deep depression days.

For two years I worked in class toward a Life Certificate and on campus at various jobs—waiting a football table, washing dishes, operating a bread salad and making salads.

In my junior year I began work toward a BS in home economics and more jobs—operating the hand powered ditto machine on which all tests were copied (I was bonded) and assisting Miss Mattie McLeon, Pres. Cherry's private secretary. Since there was no intercom system I RAN errands to all points on campus.

During my senior year I was assistant to Mrs. Penick, house mother, Potter Hall. After doing office work, four nights each week and socializing the other three, I weighed a hefty 87 pounds at graduation.

Teaching jobs were scarce but I went to a small high school in Christian County, Sinking Fork, to open its first home economics department.

At the end of four years I married Ira Humphries. We celebrated our golden anniversary in 1984 and still live in the same century and a half year old house. We had a son, Harold, who died of a heart attack at age 50.

In 1942 I went back to Sinking Fork to teach in a new home economics department. I had the same principal, Babe Hunt, a former football star and graduate of WKU.

In 1948 I transferred to Trigg County High and taught there 23 years. During my last year we planned a beautiful new department—large living and dining area, four class rooms, an observatory, office and workroom. Upon completion it was dedicated and named for me.

During our active years we were active in many organizations and officers in most of them. We are still active in our church and special groups such as Farm Bureau, Retired teachers and DAR.

We have a lovely daughter-in-law and two "grand" grandchildren.

School for 30 years. I taught for four years in Owensboro, KY.

MARTHA HENRY HUNTER, Class of 1957, B.S. Degree in Home Economics, currently living in New Madrid, MO.

I am currently the head branch librarian for the New Madrid County Library. Had I known I would wind up a librarian, I would certainly have taken some Library Science while at Western!

I taught Home Economics for 18 years, but left to raise my two adopted children and never resumed teaching.

I have three grandchildren and spend my time outside the library sewing, doing crafts and researching my genealogy.

I came to Western in the fall of 1953 with my friend Joyce Littrell, also from New Madrid, MO. At that time, I believe we were the only ones on campus from Missouri and we got a lot of teasing.

We lived in West Hall. I later moved to the Rock House and was there when I graduated.

I was a Home Economics major so my "fondest" memories are of my days in the Home Management House trying to "learn" to be a good homemaker and mother.

I have only been to Western twice since graduation in 1957 and found so many changes I could hardly recognize the old campus.

I welcome you to stop in New Madrid to visit me. I'll tell you about the 1811-12 Earthquake!

RONDA (GRAHAM) IRACANE, B.S. Business. Currently living in Owensboro, KY.

CORDELIA KING JACKSON, Class of '55, B.S. Elementary Education, Owensboro, KY.

The Fabulous Fifties began in January of 1950 as I entered Western. The Rockhouse, thanks to Mr. and Mrs. H.B. Clark and Randy, became my 'home away from home'. Next door was the Goal Post, Hub of the Hill, a place to eat breakfast, play pinball machines, and pass the time between classes not otherwise spent in the library. The jog down the hill to Western Lunch Room was refreshing and re-filling. The sledding down College Street was exhilarating on snowy evenings.

While completing my B.S. in Elementary Education, who could forget working part time in the clinic with Ms. Redd, or attempting to take dictation from Dr. Gunderson, Head of the Music Department as well as the hours as hostess in the Cedar House. All were great fun!

I have taught in Owensboro City Schools and Daviess County Schools. I also taught in Rolla, MO while my husband completed his Petroleum Engineering Degree at Missouri School of Mines. I earned a M.S. in Education from Indiana University in 1968.

I am married to Louis Jackson, president of ReBart, Inc. We have one daughter, Leigh, who is planning to enter Western next year to study veterinary medicine. May her years at Western be even more rewarding.

Congratulations to a fine school and thanks for the memories.

The late 40s and early 50s are remembered as the GI Era. The camaraderie that existed between faculty members and student Vets makes the period most unforgettable. Also, it seems that the entire student body could be found at the "Goal Post" around lunch time.

I attended the Church of Christ on 12th and Park Street and found great knowledge in Bible study.

My memories of Western include the good times we had in Mr. Wilson's Art Club, meeting lifetime friends from Park City, KY (J. Jackson, K. Toms, M. Riber).

My husband Eddie, Union County Circuit Clerk, our daughter Julie, a Union County High School senior and I live on a farm near Sturgis and raise registered quarter horses.

The people who made such a contribution to my life constitute my fondest memories of Western: such as Dr. Miller and his Western's

Summer Theatre, Ivan Wilson the gentle man behind those marvelous watercolors, Dr. Wilson Wood, my appreciated mentor and my friend Frances Dixon.

Other memorable impressions include leading the homecoming snake-dance downtown and through Tandy's; the late night aroma of fresh-baked bread from Colonial Bakery wafting up the Hill to the steps of Van Meter; typing a term paper all night; the thrill that went up when the band played "Stand up and Cheer"; and all the strange and interesting personalities that became a part of my life as a result of being on that hilltop.

In 1971, I quit teaching and became a photographer. Some may recall that I worked with the Herald and Talisman staffs at WKU as a

photographer. In 1973, I started my own business in photography and have done a little of almost every kind of photography; sports, portraits, weddings, public relations, architectural, and commercial, and I have won a number of awards for my work as the photographer for Seng Jewelers in Louisville.

I married Charleen Sullivan, a Bowling Green girl, and also a graduate of Western ('53). She also has an MA in Secondary Ed. from U of L, plus her 30 hours. She has taught in the Jefferson County System since the mid-70s.

We have a family of three; one son and two daughters. Charlie lives in St. Louis, Cathy lives in Philadelphia, and Carrie lives in Lexington. Charlie and Cathy are married, and Cathy has a son, our only grandchild. Wouldn't you know? Charlie and Carrie both decided to get their degrees at the University of Kentucky! They are 31 (Charlie), 30 (Cathy), and 27 (Carrie). (You might have noticed: all of us have "C.W." as initials - it was intentional.) Charleen and I have lived in Louisville since 1957. We bought a motor home when we got our house paid for and have toured the country from coast to coast and border to border. That's our "gig"; we like traveling and get out in the tioga on every occasion we can. Naturally, I take a few pictures along the way.

Even though two of our kids went to UK, and I worked 13 years taking pictures for the University of Louisville Sports Information Office (as a freelancer), we still have fond memories of Western. After all, that's where we met. I'm an Alabaman by birth, lived in New York City 11 years, but when I came to Kentucky, I found my "home". I've lived in Kentucky for 36 years now. No place like it anywhere.

I'll be forever indebted to Bob Cochran; he did more for me than anybody, outside my family. They used to tell us how Western folks were in demand everywhere; after 35 years of living in the real world, I know they weren't just whistling "Dixie". The "Hilltoppers" are still being played by DJ's; movie scripts are being written by Western grads; scores of our grads accounted themselves very well in defense of our country; Western grads abound in the teaching field, and the coaching field; yes, and there are more than one of us who have "made the scene" as photographers, some more so than others. I'm happy to have been one who learned that the Spirit does indeed make the Master.

It's fun and rewarding.

I married Nancy Wilson. She has her PHD in education and is a professor on the college level. We have four children and two grandchildren. Jay Todd, age 24, lives in Virginia with his family. great, the memories and experiences at Western are equally outstanding. I remember the basketball games in the Red Barn, exploring caves with my roommates. I remember weekends at Beech Bend Park for those who couldn't get home on weekends. I remember working for the Industrial Arts convention trips.

But most of all, I remember the closeness of friends and faculty. The Industrial Arts Department was like family. Mr. L.T. Smith, Mr. Carl Barnes, and Mr. Walter Naubach were invaluable, but Mr. H.B. Clark spent many hours moulding men from boys.

I continued to teach and attend Western on short term basis most every year until I graduated. During this time I married a farmer, had three children and helped with farm work, gardening, canning, etc.

By the time I graduated my oldest child, a son, had already graduated from the University of Kentucky after his first two and a half years at Western. My oldest daughter was working, after attending four quarter semesters at Western. My youngest daughter had graduated from Murray and was teaching.

Since retirement I have made several cross stitch quilts, and table cloths, also latch hook rugs. I had never done this before.

I remember Western's first President, Dr. Cherry, very well. He used to get very upset with cigarette butts being thrown on the walks and campus. He wanted everyone to attend Chapel every day. Chapel programs were very interesting. I once had a bird watching class at Western. The teacher and students would meet on the steps of Van Meter Hall just before sunup. We would walk down behind the building into a wooded area and watch for birds and listen to them sing at day break. We would make a list of the various birds we would hear or see.
