***BIOGRAPHICAL NOTE***

Lloyd Monroe Raymer was born on 15 October 1943, in Warren County, Kentucky, to Mable A. (Doolin) Raymer and Austin Raymer. He had two brothers, Roscoe and Willard, along with two sisters, Wilma and Doris. He was an active member of the Mt. Pleasant Church of Christ. Raymer died on 11 November 2012 at the age of 69 and was buried in the church cemetery at Mt. Pleasant.

Lloyd was a professional genealogist, earning his certification in the early-1980s. He was able to turn his intense interest in history and genealogy into a part-time job, working for clients from around the country who were searching for ancestors in Warren County, particularly the northwestern section of the county. He was an early member of the Southern Kentucky Genealogical Society. He did much of his research at the Special Collections Library (Kentucky Library) at Western Kentucky University and was generous with his research and expertise.

***COLLECTION NOTE***

These files represent the genealogical research conducted by Lloyd Monroe Raymer for clients from the 1970s until his death in 2012, although the bulk of his work was done from the mid-1980s through 2010. The families studied are not exclusively from Warren County, Kentucky, but that was Raymer's specialty and so those surnames dominate the collection. Butler County surnames would come in second, followed by Logan, Simpson and Allen counties in Kentucky.

The files are arranged alphabetically by surname. Associated families have been indexed in the Subject Analytics at the end of this finding aid. When processing the collection, Raymer's reports (generally typed) to his clients were kept, as well as his correspondence and some photocopies of original documents. There are no original documents in this collection, so early dates on folders will indicate photocopies. Raymer's reports nearly always include a title page that lists the major surname(s) researched and the date; it was generally accompanied by a cover letter explaining the research conducted and often raises new questions or avenues of research. The report itself shows the research path Raymer typically covered: census records,

court records, military records, cemetery records, etc. If personal papers were involved, Raymer noted collections, but that was a rarity. He meticulously recorded his sources, so the reports remain valuable to researchers even today. His reports did not include genealogy charts, although the folders may occasionally contain such. Correspondence with his clients, within the folders, also contains clues about the families.
