Western Kentucky University
MID-WINTER TERM

OPENS

TUESDAY, FEBRUARY 7, 1922

At 9:30

Rooming and Boarding Rates Reduced. Full information in this issue.

Regular classes will begin immediately following Chapel. It is urged that all students who can possibly do so begin their courses with the first day of the term.

A SECTION OF THE PARLOR OF THE J. WHIT POTTER HALL.

THE MID-WINTER TERM

The third term of the 1921-22 session will open Tuesday, February 7th, at 9:30. Every indication points to the largest enrollment of the Normal's history. The Regents, the President and the faculty are earnestly endeavoring to anticipate every demand that will be made upon the institution by this attendance. No effort will be spared to insure adequate instruction, comfortable housing, and wholesome meals for all corners.

There will be a staff of student representatives, some member of which will meet all trains, and give all assistance possible in checking baggage, locating quarters, etc. If notice is sent naming exact time of arrival additional care will be taken to give satisfactory assistance.

J. Whit Potter Hall is one of the finest dormitories in Kentucky. It is thoroughly fireproof and modern. It is equipped and furnished tastefully and completely. Every room is outside, and commands a view of remarkable beauty. Dean Kinnaman is host of the Hall and Mrs. Kinnaman, Miss McLean and Miss Woods are hostesses. Mrs. Taylor is Matron, and this force cares zealously for the welfare and comfort of the young ladies who live at J. Whit Potter Hall.

Reservations will be made to the hall's capacity in order of receipt of request. But no reservations will be held later than noon February 7th. In instances where it is impossible for the student to occupy the room by the time named, special arrangements may be made to hold the reservation by depositing $5.00 with the institution. In such cases the regular rates go into effect at the opening of the term, and the deposit will be applied in the payment of the rental.

It is suggested that the incoming student, immediately upon disboarding from the train at Bowling Green, look around for the Normal's representative. He may be identified by the badge which he is instructed to wear at all times. He will be glad to render any assistance within his power.

Be sure to bring with you the authorization for free tuition, which your County Superintendent will give you on request. There are scholarships available to accommodate all applicants.
SUGGESTED COURSE FOR STUDENTS PREPARING FOR EXAMINATIONS.

The following two-term course is suggested:

Geography, American of
History, American History;
English and History.

The General Review includes Civil Government, Composition, Theory and Practice, and Kentucky History. Students of this class are at liberty to select the subjects. In general it is best for the student preparing for the examination to select first the two or three subjects in which he is weakest, and then fill out his program with some advanced subjects.

When possible, it is better to complete the work of one of the regular courses of the Normal than to prepare for and take the examination. Following a regular course guarantees more scholarship and a better training for teaching than any similar amount of self-education can ever afford. The work of this course is not "cram work;" it is far better than "cram work." It gives an education as a preparation for the examination. No one should ever be satisfied with hurry studies, cram and question book preparation. Substantial work is always the best preparation for examination. The law allows students in this institution to take the State examination in Bowling Green. It is not necessary for them to return to their home counties for this purpose.

LYCEUM COURSE.

It may be doubted if any similar institution in the country brings to its auditorium musical programmes of the quality given here. It is a series made up of the outstanding artists of the country, and the students of the Normal as well as the citizens of the town into first-hand touch with the best there is in music. The dates for these programmes are arranged by manager Will B. Hill and Professor Strahm are:

Nov. 3. Evelyn Sedney, soprano of Metropoli-
tan Opera, assisted by Igor Schonfeld, Cellist, and Charles Hart, Pianist.
Jan. 26. The Loiter Opera Company, in "Rudli-
gore."
Feb. 22. Sowel, the world's greatest Harpist.
Mar. 23. Ernka Morini, the world's greatest wo-
man Violinist.
Apr. 3. Ricardo Martin and Frances Ingram of the New York Opera.
May 1. Early in May the greatest Festival we have ever given.

SUMMER SCHOOL.

Teachers and those planning to teach who cannot enter school early in the year should begin now to make arrangements to be here for the Sommer School of eight weeks which opens on June 27, 1925. The Sommer School is intended to meet the needs of:

- Rural Teachers.
- Grade Teachers.
- High School Teachers.
- Principals and Superintendents.
- Cooper's permits.
- Supervisors of Public School Drawing and Art.
- Supervisors of Public School Music.
- Home Economics Teachers.
- Students preparing for the County and State Examinations.

High School Students.

Regular Course Students.

Persons desiring recreation and to study games and plays suitable for school, health problems, and Physical Education.

Students desiring to take special subjects and do a limited amount of work.

Every minute of the Sommer School will be full of inspiration, professional spirit and instruction. The work will be done by the regular faculty and a large number of educational leaders and entertainers of national reputation, secured for special work.

BRIEF WORDS ABOUT WORTH WHILE PEOPLE.

Mr. Wilson

Ivan Wilson is an artist. He sees art with the eye of an artist and reveals it in the seeing. He teaches art with the fine appraisal of values that belongs to an artist. But his intense modesty is almost inarticulate.

Mrs. Taylor

As matron of the J. Whit Potter Hall, Mrs. Taylor has contributed much in making the hall a home. She is mother to the two hundred girls with rare sympathy and insight.

Mr. Loudermilk

Mr. Loudermilk's job is to pass on to the men of the vocational unit the facts, figures and fancies pertaining to Agriculture. He does this so well that the men are for him strong. He was married recently to Miss Vivian Hastie, formerly of the Demonstration School and Library. There is ample reason to congratulate both.

Miss Schneider

Her second name isn't efficiency, her third name isn't capability, her fourth name isn't thoughtfulness, but those persons who have denominated haven't a thing on our justly famed Registrar.

Mr. Curry

When Miss Hitcher nominated "D. P." the Junior High Principle she chose exactly the right man for the job, which indicates a high type of choosing on her part, and a high type of teaching on his.

Miss Davis

Miss Annie Lee Davis was elected to succeed Miss Iva Scott as head of the Department of Home Economics. Miss Davis is a graduate of the Normal, of Peabody College, and has had Summer work in Columbia University. She was for several years connected with the Eastern Normal. From there she went to Drexel Institute, Philadelphia, where she also came to the Normal. Her work is sympathetic, thoughtful and indefatigable.

THE LAUNDRY.

To the young women who, for reasons of eco-

omy or convenience, desire to do their own washi-
ging, and this means practically all of them, the J Whit Potter Hall, the up-to-date laundry has proved a great blessing. Stationary wash machines have been purchased and a dozen of the best make of electric irons, ironing boards, drying racks, etc., were purchased and installed early in the year, and recently an electric washer has been purchased and will be set up at an early date.

SIXTY-THREE PER CENT.

The attendance for the Fall term is 63% greater than for the corresponding term of 1923. The campus, the chapel, the halls, the class rooms have the appearance of the Spring term. Not only is the largest Fall term in the history of the school, but also wise the finest. The high schools are sending us better material with each succeeding year.

ROOMS AND BOARD.

The Western Normal has solved the boarding question. It has solved it in a most satisfac-
tory manner. It is highly gratifying to these tremendous successes it has achieved along this line. No one need stay away from the institution on account of not having suitable means of tea-
ning and boarding accommodations at reasonable rates. The Western Normal is especially interested in keeping the rates for rooms so low as to permit the financial range of every boy and girl in this land. One can get rooms and board for less than the average price ordinarily charged at the average insti-
tution.

See important announcement of revision in rates published on last page.

HIGH SCHOOL COURSES.

Under certain conditions the student may do high school work in the Normal School to prepare for entrance upon the Junior College courses. While doing the work of the elementary and intermediate courses one will cover the sixteen high school units. One can do the high school work alone and take out no certificate. He would be prepared then to enter the Junior College course and could receive the Intermediate Certificate in forty weeks, and the Life Certificate in eighty weeks. Young boys and girls just out of the grades and desiring to do high school work, if possible, should take it in a high school with boys and girls of their own age and ability. Young men and women who have passed the high school age can get their high school work here in classes with students of their own age and ability more advantageously, and receive teaching certificates while doing it.

If there is no High School in your community, or if you have passed the age of entering High School with pupils of your age, or near your age, you can do your high school work in the Normal. In a term of ten weeks, you can make from one to one-half to one and two-thirds units. In thirty weeks you can usually accomplish the equivalent of four and possibly more high school units.

One who has had no high school work, but has done the equivalent of three months school graduation, should make the Elementary Certificate in a school year of forty-eight weeks. The Elementary Certificate permits the student to teach anywhere in Kentucky for two years.

If you have had the equivalent of one year in high school, you should make the Elementary Certificate in a year of forty weeks, and have time to do some work on the Intermediate.

Representatives of the Western Normal will meet incoming students at the station a few days before leaving for school and tell us when to expect you.

Every preparation is being made for the big opening on February 7th.

If you want a room in the J. Whit Potter Hall you should write the school at once and ask that one be reserved.
A TRAVELING MAN.

President Cherry is playing the part of a travelling man this fall. He has travelled continually over Western Kentucky preaching “The Spirit of the Institution.” At Paducah, at Mayfield, at Hickman, at Benton, at Madisonville, at Glasgow, at Munfordville, at Horse Cave, at Hardinsburg, at Lewisport, at Stephensport, at Cloverport, at Beaver Dam, at Hartford, at Central City, at Marion, at Sturgis, at Morganfield, at Hopkinsville, at Franklin, at Owensboro, at Edmonston, at Murray, at Livermore, and at numerous way stations in between he has told of the Normal. This he has done with all the sincerity and fervor that have characterized his life long labor.

Table board at Western Normal has been reduced from $4.50 to $3.50 per week. These rates will begin at the opening of the mid-winter term, February 7th, 1922.

The Football Team of the Western Normal.

LE ROI EST MORT! VIVE LE ROI!

King Football is dead—temporarily. King Basketball is on the terrace. The football season was one of interrupted progress and improvement. At the beginning of the season the men were unseasoned and amateurish; at its close they were trained gridironists. Four games at the beginning of the season were lost, at the close one was tied, and two won. It was a clean team, and its members are the pick of the school, in conduct, in class room work, and in general loyalty.

Now, Queen Basketball is Athletic Sovereign and, in all, about a hundred students are paying tribute to her ascendancy.

The Normal Girls’ Team, coached by Miss Cherry and Mr. Craig, has played two games, one against Bethel, the other against Logan. Both were decisive victories for the Normal. The inter-class series will open presently. The best material of the Normal’s history is being trained for the fray.

Hubert Meredith, recently elected Commonwealth’s Attorney, Seventy-Second Judicial District.

Joe L. Price, elected Circuit Judge, Second Judicial District.

Sam A. Cary, elected Representative, Thirty-eighth District.

A FEW OF THE CHOSEN.

Cordell Hull

Mr. Cordell Hull, recently elected chairman of the National Democratic Campaign Committee, is a graduate of the Southern Normal School. Mr. Hull was a student under and is a warm personal friend of Professor Alexander.

As many students as can do so should rush Bowling Green in time to enroll and be classified on Monday, February 7th.

THE R. O. T. C.

The R. O. T. C. is in excellent shape this season. One hundred and twenty-five men are enrolled, and are vigorously engaged in their work. Under the guidance of Colonel Tyman and Sergeant Blackburn, the unit presents all of the advantages of military training with none of the less wholesome elements.

THE VOCATIONAL UNIT.

There are one hundred and sixty men enrolled in the vocational unit maintained at the Western Normal. These men become an integral part of the institution and are vigorously pursuing the courses outlined for them. They are directed, in the main, by Mr. J. W. Alexander, Mr. Ford, and Mr. Loudenmark.

The largest number of students in the history of the institution will be in attendance after the opening of the term on February 7th.

HOW YOU INSULATED?

Are you insulated? Do you contain the currents of your friendship, or do they flow across and vitalize and stimulate those whom you meet? Do you forfeit opportunities to greet and shake hands with old friends—friends whom you know at the Normal term's ago, or perhaps members of the faculty? Social insulation has defeated many an individual, and a human short circuit warns, revoltively, "Turn away the insulation.

Commence now and make your arrangements to enter the Western Normal February 7th.
