SUBJECT: Parking Lots

The Department of Public Safety has requested that the University consider assigning permanent designations to parking lots, streets, drives, etc. It is their contention that confusion exists due to improper designation which results in administrative errors and could produce a hazard in the event of misdirected fire fighting or other safety equipment.

A sub-committee of the Traffic and Parking Committee is at work assembling designations for presentation to the President. The Committee desires your comments on what has been referred to in the past as the "upper and lower drive" to Wetherby Administration Building and the continuation of the drive to Diddle Dorm.
