SUMMER SCHOOL NUMBER

This number of the "Letter" is out just to remind you of the summer school and the work to be offered. The term will open Monday, June 14th, and will continue six weeks, closing on Friday, July 20th.

May we call your attention to the fact that this is the only Summer School in Western Kentucky? It is yours and you can attend it tuition free. Will you come and benefit from the instruction, and from the magnificent, restful scenery with which the institution is surrounded? It is always cool and comfortable up on The Hill.

THAT TIRED TEACHER AGAIN.

Many teachers, after the worry and work of the school room through a nine or ten months' term, want to get away into a restful environment, for a few weeks of the summer, where they can recuperate and at the same time do some special work to keep themselves abreast of the profession. The institution does not want idlers, but the tired teacher who recreates and who carries with his recreation one or two subjects in regular classes and who hears some special lectures and catches a new inspiration, a new spirit, is in no wise idling. Such teachers make most desirable students and are choosing work most wisely. The State Normal offers the best possible opportunity to the "tired teacher."

No student is expected to take more than three solid subjects or four light subjects during the Summer Term. We attempt in
six weeks to cover the same work in each subject that we regularly cover in ten weeks.

Full credit will be given for all regular work done and for all lectures, conferences, round tables, etc., attended and properly represented by notes taken.

**SOME DISTINCTIVE FEATURES OF THE SUMMER SCHOOL.**

The regular class work will be given. A statement of the classes to be offered will be seen on the succeeding pages of this issue of the "Letter."

All work taken receives full credit toward completing a course in the State Normal.

The entire faculty is retained for work, a condition not always to be found in Summer Schools.

Primary work of great variety: Method in Reading, Method in Geography, Method in History, Dramatization, Folk Dances, School Games, Manual Arts in the grades, and the School Garden.

Numerous lectures and conferences on the problems of the grade teacher will be open to all.

The Training School will be in session four weeks for demonstration work and for observation.

Physical Culture will be directed again by Miss Katherine Cronin, of Wisconsin University. Miss Cronin will be here during the first five weeks of the Summer Term. She is an enthusiastic, popular, discriminating teacher. Regular class work will be offered in games, plays and folk dances, all adapted to use in both graded and rural schools. The tennis courts will be open to all.

There will be conducted one general field day, involving numerous games, plays and contests. A great deal of interest has been created in this way in the past. Every student can take part in some form of athletics. It is the policy of the institution to encourage all students to take up some line of physical activity. Some credit toward graduation is allowed for time conscientiously given to this subject.

Special lectures and entertainments:

Congressman Heflin—Friday June 18, 8:30 p. m.

Dr. T. B. Dresslar, of Nashville, formerly specialist in the Bureau of Education—Two lectures, June 16.

Dr. John Lee Coulter, recently appointed by the American Statistical Association upon a special committee to advise with Presi-
dent Wilson's cabinet looking toward a better organization of the various statistical bureaus of the Government—Two lectures, June 21.

Miss Nannie Lee Fraser, the matchless story teller—June 22, 23.

Supt. McHenry Rhoades—Lectures, June 23.

Summer Health Course, State Board of Health—June 28-30.

Prof. T. J. Coates, Rural School Supervisor—Lectures, July 5.

The Coburn Players—July 12, 13. The announcement that the celebrated Coburn Open-Air Players, one of the most artistic companies in America today, have been secured for three plays during the Summer School, will, no doubt, be received with enthusiasm. Realizing that the acted drama is one of the greatest means possible to entertain and at the same time to educate, we have arranged to have these artists present: Shakespeare's "Macbeth," "La Malade Imaginaire (The Imaginary Invalid)" of Moliere, whom Louis XVI declared the first of all the great men who adorned his reign, and the "Jeanne d'Arc" of Percy MacKaye, on the campus of the Normal during July. All students have the privilege of attending these entertainments, July 12, 13, 1915.

N. T. Lowry—Professor Lowry comes from Chicago University to offer courses in English. He is a live wire as a teacher. We predict a lively and enthusiastic interest in his work.

WORK TO BE OFFERED BY DEPARTMENTS.

Agriculture—(1) The plant and the Soil; (2) Weeds and Their Seeds.

Domestic Economy—(1) Cookery and Sewing; (2) Soups and meals; Drafting patterns, fitting, etc.; (3) Cake baking, pastry, salads, desserts, garnishing, invalid cooking; (4) Sewing, designing, constructing, textiles; (5) Crocheting embroidering and cross stitching.

(One other class will be organized to suit the needs of students in attendance.)

Drawing—Drawing and penmanship of several grades and a supervisor's course.

Education—School Economy, general and special courses in Pedagogy, Primary Methods, method in Reading, in Latin and several High School subjects, supervision for principals of Graded and High Schools. This field is so large in the Summer School that we must refer you to the Summer School Bulletin, which will be sent to you for the asking.
English—This department will offer: American Literature, Oral English, High School English, Story Telling, The Elizabethian Period, The Victorian Period, Old English and Shakespeare.

English Grammar—Two Grades: Grammar Two and Three.

Geography—Two Grades—Physical Geography and Method in Geography.

Latin—Latin Two, the last half of Beginners' Latin; Latin Five, or Rapid Reading in Caesar; Latin Seven, or Cicero; and Teachers' Method Course.

Library Economy—A most valuable course open to all book users.

Mathematics—Arithmetic, two grades; Geometry, Plane and Solid; Trigonometry and Surveying.

Music—Public School Music of two grades; piano, voice, etc. Special. Ask for catalogue.

Modern Languages—Five grades of German, two of French and one in Spanish. Probably no beginning classes.

Natural Science—In this department will be offered a course in Sanitary Science and Nature Study.

Physical Education—See explanation of this elsewhere in the "Letter."

Physical Sciences—Courses will be given in General Physics covering: Mechanics, heat, light, sound and electricity. In Chemistry, work will be given in food analysis. A special course in the methods of teaching Physics and in making Physical Apparatus will also be given. Credit on the regular Normal courses will be given for this work.

Reading—Advanced class work and Method in Reading.

Theory and Practice.

HOW MUCH WILL IT COST?

That will depend somewhat upon one's habits and tastes, but the following will be helpful in making up the estimates. Appointees receive free tuition.
Good Table Board, $1.75 Per Week.—Excellent furnishing rooms, 75 cents and $1.00 per week. Good board and well-furnished rooms, $2.50 and $2.75 per week.

Private Board for Students—We are glad to announce that you can get excellent private board, in good families, everything furnished, for $3.25 and $3.50.

A fee of from 75 cents to $1.50, according to the material used, will be charged all students who enter the School of Domestic Science and Arts. This will be used in purchasing groceries and other material for demonstration work in this department. Small laboratory fees are charged in classes using the laboratories regularly. A small incidental fee will be paid by all students. This entitles the student to free admission to all lectures, plays and games, including the tennis courts.

THE OLD MILL ON THE BARREN.

The Catalog number of the State Normal Bulletin will be in press in a few days. It will contain a complete analysis of the courses of study and of the work done in each department of the institution, along with a calendar, subjects offered each term, books used and practically everything that you may wish to know prior to entering the State Normal School as a student. Write us at once for a copy. Address all communications to the Western Kentucky State Normal School, Bowling Green, Kentucky.
N. T. Lowry,
Coming from Chicago University to offer courses in English during the Summer Term.

Congressman J. Thomas Heflin,
Of Alabama, will lecture before the Summer School, Friday evening, July 18th.

"Witch Scene" From McBeth
One of the dramas to be given by the Coburn Players during the Summer School.
