it is in our power. If you will write us a day or two before you leave home, telling us when to expect you, our representative will be glad to meet you at the train, go with you and aid you in selecting the kind of boarding place you desire, and see that you are properly classified and started off in your work.

As many of the best homes in the city offer rooms and meals to our students, hundreds of them every year prefer private board. Others take rooms in private residences and their meals at the School Boarding Home. A complete boarding list is kept on file in our office and no place is recommended a student until we have ascertained the desirability of it. We recommend Friebie Hall to all young girls who are leaving home for the first time; but where parents prefer their daughters or sons to take private board, we exercise a special interest in seeing that a suitable place is secured. Parents should write us and let us know their preference in such cases. Your letters will be appreciated and we will, to the very best of our ability, carry out your wishes.

Remember the date of the opening—September 7, 1915. That will be an excellent time to enter here. Please write us about your plans.

permit us again to call your attention to a few items true of the Normal School: The homes of Bowling Green's best citizens are open to our students; the churches and Sunday Schools welcome and solicit them; and you will be made to feel perfectly at home here. The courses of study are strong and thorough; each department is in charge of SPECIALISTS; one's expense for attending school here is nominal; the State has arranged to issue FREE SCHOLARSHIPS to those who expect to teach. If it is your purpose to teach, I suggest that you either see or write your County Superintendent and ask him to issue you an appointment. Even if you do not expect to teach, only a small tuition fee of $15.00 for five months is charged. Excellent board, everything furnished, can be secured for $3.00 to $3.75 per week, depending upon whether one selects board in the School Home or with private families.

All questions cheerfully answered. Correspondence solicited. Address, H. H. CHERRY, President, State Normal School, Bowling Green, Kentucky.

The Fall Session of the Western Kentucky State Normal School opens Tuesday, September 7th. We hope to see you here at that time.

The outlook is flattering for the largest opening in the history of the school. Hundreds of people, including high school graduates from every county in the Western Normal District, are writing us that they will be here to begin work on opening day.

Many of the former students who have been with us heretofore will not teach next year but will return to the institution to continue their courses of study in order to prepare for a more efficient service in the teaching profession. Many others have written us they will be here and will bring a delegation of students with them.

We earnestly ask all former students whether they return or not to see the prospective students who will enter school somewhere in September and get them interested in attending at Bowling Green. The school has no representative in the field but is relying entirely upon the former students to make the attendance next year the largest since the organization of the institution. We shall be glad to write and send literature to any whose names we secure.

The new catalog, containing a picture of the buildings and the student-body on the way to Chapel, has just been received from the printer. We shall be glad to send a copy to all those requesting it. The catalog contains a full outline of the different courses of study offered, a statement of the expenses incurred in attending school here, information as to how to secure free tuition from your County Superintendent, and other items.

The State Normal maintains a strong Lyceum Course. Many of the greatest lecturers and entertainers on the American platform have been engaged for next year. Our students will have the advantage of the best talent in this country.
The Western Normal has been authorized to issue STATE CERTIFICATES good for two years or longer to those who complete the Elementary, the Intermediate, or the Advanced Course. These certificates give the holders the privilege of TEACHING anywhere IN KENTUCKY WITHOUT FURTHER EXAMINATION for a limited number of years or for life as the case may be. If you expect to teach at any time, you should write for the new catalog which explains in detail these certificate courses.

The expense of attending school here is much less than at other schools of the same educational rating. In fact, the State has arranged to issue FREE SCHOLARSHIPS upon certain conditions. If it is your purpose to teach, I suggest that you either see or write your County Superintendent and ask him to issue you an appointment.

The time required to secure a State Certificate from this institution depends not only upon the qualification of the student at the time of entering here, but upon his earnestness, his natural ability and his application.

Strong graduates of standard high schools have been able to secure our Life Certificate within less than two years. Credit will be given you for all the work you have thoroughly done above the Common School Course, and you will have the privilege of completing the course of study you select in as short a time as possible. Full information as to the amount of work required in each course is contained in the complete catalog, which we will gladly send you without cost.

We hope the former students will call the attention of all prospective students to the efficient work that is being done by the School of Domestic Science, the School of Agriculture, the School of Music, as well as all other departments. The Normal is offering exceptionally fine opportunities to persons desiring special training along these lines or special training for higher academic work whether they are going to teach or not.

Let every former student send us one or more students for the fall session. We are expecting this of each of you, and we have never yet been disappointed in the result of any campaign in which you have enlisted. The fact that you will assume this responsibility guarantees success.

The various churches of the city, including those of all denominations, always welcome the Normalites to their different services. The Normal students are recognized everywhere as ladies and gentlemen and made to feel at home wherever they go.

Good board, everything furnished, is offered both at the school home and in private families for a very reasonable rate indeed. Work is being rapidly pushed to completion on a large dining room in Bailey Hall, where fully five hundred students can be accommodated. Good meals, under the same successful plan of last year and the year previous, will be offered for two dollars per week. The new dining room will be attractive, perfectly sanitary, and meals that would elsewhere cost the student from $2.50 to $3.50 per week, furnished at the low cost of $2.00.

Our graduates are given SPLENDID CREDITS in COLLEGES and UNIVERSITIES. In fact, many of our graduates have COMPLETED THEIR UNIVERSITY COURSES IN TWO YEARS—a few in EVEN LESS TIME. From this you will readily see the splendid rating that is given this institution by the best universities in America.

The school is putting forth an unusual effort to make the approaching scholastic year the greatest yet experienced in point of attendance as well as efficiency. It is our sincere desire to so instruct and inspire every student of this institution that he will go back into his community fired with the determination to be and to do something—to make his school the most sanitary, the most earnest, the most attractive, the most progressive and the most useful in all this land.

The School of Music, with a corps of instructors who are skilled performers, noted composers, and successful teachers, offers opportunities the equal of those of the Eastern or Northern Conservatories, and at much less expense. It includes departments of Public School Music, Piano, Voice, Violin, Guitar and other stringed instruments. Public recitals in which all students take part are given in Van Meter Hall at intervals during the year.

The Senior class of next year has already organized with a membership even larger than the class of 1915. You who are ready for the work come and join them and so help to make the class of 1916 the banner class in "quality" as well as quantity.

A deep personal interest in the welfare of the student, both in and out of the school room, is manifested by all members of the faculty. It is a pleasure to meet all students and to know them individually and personally and to extend to them advice and assistance at any time.
