You of the Class of 1940 take with you from the Hill our confidence and affection. As her sons and daughters you are forever a part of Western. We have faith that you will represent her with honor.

That your memories of this lovely spot and your associations here may always give you joy; that your training here may justify itself in your greater usefulness; that you ^{may} make manifest the Spirit of the Hill through useful service; and that through these memories and usefulness and service true happiness and success may be yours through all the years is my sincere wish for each of you.
