THE SPRING SEMESTER

The Fall Semester ends January 28. Registra-tion for the Spring Semester will begin January 31. Although a liberal period is allowed for entrance it is urged that each student who can possibly make such arrangement register for the semester on the opening day. This promptness in registering will permit the student more free-dom in the construction of his program. It will also enable the school to adjust itself better to the work of the semester. Every advantage will be served if both pupils and teachers are allowed to begin at the beginning. Registration will start at 8 o'clock and with the exception of an hour's intermission will continue through the entire day. day.

Herewith is printed the program for the semec-ter and copies of this issue of Teachers College ter and copies of this issue of reachers conlege Heights are being mailed so that students may work out their individual program before the day of registration, being enabled thereby to employ their time most economically. It is possible that some courses will be added to the ones stated here; if so, these additions will be posted in the lobby. In the main, however, the program will stand as printed.

SATISFACTORY PROCRESS IN BUILDING CAMPAIGN

Music Hall is now occupied, and is providing for the department a freedom and an opportunity heretofore unknown.

It is believed that the new Household Arts Building will be occupied by the time these lines are read.

The Heating Plant is nearing completion, and The Heating Plant is nearing completion, and satisfactory work is going forward on the new library. When completed this will be possibly the most magnificent structure on the hill. It will be entirely composed of stone and will be a building of beauty and inspiration. So thoroughly have been the changes made in the Potter College Building that few students would be able to identify its interior. It is one of the most complete school buildings in the state.

AGES

It is a recognized fact that the age of the col-It is a recognized fact that the age of the col-lege student today is lower than of former days. This point has recently been checked up in West-ern Teachers College, with the following results: Average age of men in attendance, fall semes-ter 1925, 21½ years. Average age for women attending at the same time, 20½ years. Winter semester 1926 average age for men 22

Winter semester, 1926, average age for men, 23

years. Same semester, average age for women, 211/2 years.

THE SPRING TERM

The Spring Term will begin April 4. This Spring Term is nine weeks in length and students are allowed to work out credit to the amount of eight, and in exceptional cases, nine semester hours. The program for this term will be printed in the next issue of this publication.

COLLEGE HEIGHTS HERALD

Early in the present semester the College Heights Herald was completely reorganized. The paper is now published once a month by the stu-dents of the school, under the supervision of the class in journalism. Twelve issues of the paper will be published yearly. The Herald has been increased in size. The paper now contains eight pages.

pages. A new subscription policy has been adopted. All members of the student body are subscribers as long as they remain in school. The subscrip-tion rate to those not in school has been reduced to fifty cents per year.

CONGRATULATIONS!

Mr. and Mrs. Carlos L. Jewell announce the marriage of their daughter, Grace, to Mr. Arnold Broadus Collins, on Sunday the twenty-eighth of November, one thousand nine hundred and twenty-six, Miami, Florida.

PERSONNEL

Taken from the annual report of the Director of the Personnel Department. We note the fol-lowing information which may prove of interest to the reader. The Personnel Department was instituted two

years ago with the idea of giving assistance to the students in every possible way along certain

the students in every possible way along certain very definite lines. Eighty-five group conferences were held; such as county delegation meetings and committees from different student organizations. Twenty-one meetings of the senior class were held as the Director of the Personnel Department is sponsor of the organization. Three thousand and eight hundred letters were written in the Department, largely letters of recommendation. The work required the entire time of Professor

The work required the entire time of Professor J. J. Craig, and two-thirds of the time of Mrs. Lillian Thompson, Secretary.

EXPANSION AND ACTIVITIES OF MUSIC DEPARTMENT

The added quarters which the new Music Hall and several musical units in the Demonstration provides for the department is enabling the development of new activities in this field. An orchestra and a band are in constant training School are being given regular training.

PERSONNEL

During the year eight weeks were spent visiting rural schools in the counties of the state. Nine week-ends were spent in the same way and twenty-six public addresses were made.

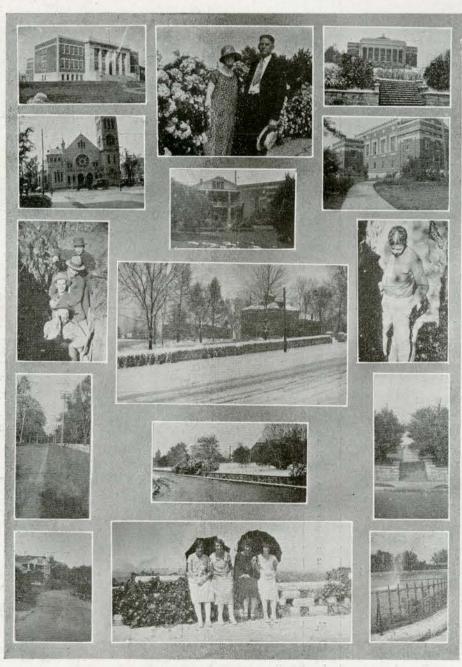

During the year 1926 there were held four thousand and two hundred personal interviews relating to matters of interest to the student and to the institution. The subjects of these interviews are very varied.

Records were kept of different students placed as teachers to the number of two hundred and seventy-eight. Others were assisted to positions but no record was kept of their final employment.

The department is now in new quarters, on the first floor of the Potter College building, and is starting the new year with a good deal of spirit. All students and friends of the institution are families to call at the office at all times.
