Teachers College Highlights

Entered as second-class matter December 18, 1916, at the Post Office at Bowling Green, Kentucky, under an Act of August 24, 1912.

Published Bi-Monthly by
The Western Kentucky State Normal School and Teachers College

Vol. 9.

Bowling Green, Ky., February, 1927

No. 5

AS TO CERTIFICATES

High school graduates entering the institution at the opening of the mid-semester, April 4, may take up to a maximum of nine semester hours of college work. Those whose grades do not fall below "B" will be permitted to enroll for seven hours during the first summer term. The satisfactory completion of both of these programs would authorize the issuance by the institution of the Elementary College Certificate.

It should be borne in mind, however, that no student may take more than seven hours during the first summer term who has a grade below "B." It is recommended strongly, however, that students remain for the entire summer session of ten weeks. Students whose work ranks high may in the period from April 4 to August 12, achieve twenty-three semester hours of credit, thereby making very satisfactory progress toward the Baccalaureate degree.

The first summer term closes July 8. This will accommodate those who find it necessary to begin their schools early in July.

It further should be borne in mind that work completed on the Elementary College Certificate will apply on the Standard Certificate course, and also on the Degree course.

ELEMENTARY EDUCATION

There is a considerable demand for trained teachers in the primary grades. Boards of education generally are conscious of the possibilities involved in these grades and are demanding teachers of special fitness and training. In behalf of this demand, the institution is offering courses during the summer session for the special training of elementary teachers. These courses are:

Education 200	Education 211
Education 209	Penmanship 101
Education 210	English 205

LEARN KENTUCKY

Various courses will be offered this summer to give students the opportunity of broadening their acquaintance with their native state. Probably the greatest drawback to the progress of the state is the ignorance of Kentuckians with reference to their own history and environments, and these courses will offer an opportunity of coming in closer touch with the affairs of the Commonwealth. The courses which will be offered are as follows:

Geog. 203. Geography of Kentucky	3 hrs.
Biol. 102. Kentucky's Wild Animal Life	2 hrs.
Biol. 103. Native Plants of Ky.	2 hrs.
Eng. 309. Literature of Kentucky	2 hrs.
Hist. 218. Ky. Hist. After 1865	2 hrs.
Econ. 210. Kentucky's Needs	1 hr.

TWILIGHT

The Twilight hour again this year will be under the direction of Professor Gordon Wilson. He has made of it in the past a period of rest, relaxation and genuine wholesome fun.

ATTRACTIONS NEAR BOWLING GREEN

ONE OF THE MANY BEAUTIFUL CAVE SCENES

THE NEW HEATING PLANT—The new heating plant is nearing completion. This is a brick structure, modern in every respect. The entire school plant will be heated by this system.

SPECIAL RAILROAD RATES TO SUMMER SCHOOL

ONE AND ONE-HALF RAILROAD FARE SECURED FOR ALL STUDENTS WHO ENTER EITHER ONE OF THE SUMMER SCHOOLS OF FIVE WEEKS.

In order to get these rates you must write us for an identification certificate. We give below a letter from the Southern Passenger Association which explains itself. Read it carefully and write us now for an identification blank. You will not be able to get the rates unless you have the identification certificate at the time you purchase your ticket. You must present the identification blank at that time.

SOUTHEASTERN PASSENGER ASSOCIATION

Office of Chairman,
Room 1007, 101 Marietta St.,
Atlanta, Ga.

W. H. Howard, Chairman,
G. G. Shephard, Supt. Tariff Dept.,
Geo. D. Snow, Secretary.

January 21st, 1927.

Please refer to file B-420.

SUMMER SCHOOL, WESTERN KENTUCKY STATE NORMAL SCHOOL AND TEACHERS COLLEGE, BOWLING GREEN, KY., JUNE 6-JULY 9. JULY 11-AUGUST 13, 1927.

H. H. Cherry, Esq.,
President Western Ky. State Normal School,
Bowling Green, Kentucky.

Dear Sir:—

Referring to your application for reduced rates account of the above occasion.

I take pleasure in advising that reduced rates on Round Trip Identification Plan, basis fare on one and one-half for round trip, minimum excursion fare \$1.00, will be authorized from stations in Alabama, Kentucky, Mississippi and Tennessee, tickets to be sold only to delegates and members of their families upon presentation of Identification Certificates to ticket agents at time of purchase of tickets.

Supply of Identification Certificates will be furnished you by this office at cost and it will be your duty to make distribution to all concerned. I enclose statement of the cost of Identification Certificates, and if you will advise me the quantity desired, sending at the same time check to cover, they will be printed and forwarded to you promptly. Please also send copy of your signature two inches in width written on a blank sheet of paper for use in printing the certificates.

Tickets will be sold June 2-8, inclusive, and July 7-13, inclusive. Final limit of all tickets August 19. Tickets to be validated by the regular ticket agent at Bowling Green before return journey is commenced.

Very respectfully,
(Signed) W. H. HOWARD,
Chairman.

GDS-GCM
Copy to R. D. Pusey, Esq., GPA.

The new Home Economics Building is almost ready for occupancy. It is universally agreed that this will be one of the handsomest buildings on the Hill.

PLENTY OF GOOD ROOMS AND BOARD

The J. Whit Potter Hall can take care of any number of students for meals at \$4.00 a week. These meals are planned and prepared under the direction of a regular dietitian and they are always good, wholesome and well balanced—as good as or better than the average meal for which one usually pays from 60 cents to \$1.00.

Many, many private homes in the city are asking for students to room in their house at rates ranging from \$1.50 to \$2.00 a week. These places offer excellent accommodations. Many students prefer to room in private homes and take their meals in the J. Whit Potter Hall. Those who prefer to do so may get their meals in private homes at rates ranging from \$4.00 to \$5.00 a week. We shall be glad to aid students in making such arrangements as they desire.

Let us know when to expect you and our representative, wearing the badge of the school, will be at the train to meet you. It is always a pleasure to meet the students (especially those who have not been here before), and give them every assistance they desire. Write to

H. H. CHERRY,
Teachers College,
Bowling Green, Ky.

BOWLING GREEN IN SUMMER TIME

The Western Kentucky Teachers College offers excellent opportunities to study and work out credits during the summer session. The work offered is difficult; it could not be else and justify the credit offered. At the same time, every effort is made to make this work as pleasant and inspirational as is possible.

This institution is magnificently situated. It is located on a dome rising high above the business section of the city, and from whose top spreads in every direction one of the finest panoramas the country affords. Naturally, it gets a bit hot here during July and August, but whatever breeze may exist anywhere in this section is certainly available on the Hill. There is plenty of shade and green grass, and in the intense thrill of work, personal contacts and exquisite scenery, the warmth of the summer is but incidental.

EXCURSIONS

Bowling Green is situated so as to offer under the most favorable conditions and environments excursions to various points of interest. For instance, Mammoth Cave is but twenty-nine miles away. Opportunities will be given to visit Mammoth Cave. The various clubs plan further to spend some time at Lincoln's Home and at Federal Hill, Bardstown. The Geography Club will very likely make a trip to the plant of the Kentucky Rock Asphalt Company.

DEMONSTRATION SCHOOL

The Demonstration School will be in session during the first summer term. The Rural School will be in session during the same period. This will offer the students during the first term all the advantages the Demonstration School implies.

THE K. E. A.

The 63rd meeting of the Kentucky Education Association will begin April 20 and conclude the session April 23.

The Kentucky Education Association is in the best state of organization in its entire history. It has consolidated all of its forces toward the achievement of "AN EQUAL EDUCATIONAL OPPORTUNITY FOR EVERY KENTUCKY CHILD." It will by its opening meeting have enrolled approximately 12,000 members. Of these, in all probability, 10,000 will be in attendance.

The Western Kentucky Teachers College will run a special train to this meeting, as usual. This train will leave here early Friday morning and reach Louisville for the return trip late Saturday night.

One of the features of the session will be the banquet of faculty, students and the alumni of the institution. This will be held in the auditorium of the Seelbach Hotel. The meeting will in itself be in the nature of a contribution to the service of President H. H. Cherry, whose administration of the affairs of the Kentucky Education Association during the year has brought it the prominence not before realized in its history. The auditorium carries a seating capacity of about 1,000. It is earnestly hoped by the institution that the seating capacity be used to its maximum.

The price for tickets to this dinner is \$1.00 a plate. These may be reserved in advance by communicating with Miss Florence Schneider, the Bursar of the institution.

The dinner is scheduled for April 22, beginning at 4:30.

HOME ECONOMICS BUILDING

This beautiful building may be said to have risen Phoenix-like from the destruction of the old Cabell Hall (the first home of our Domestic Science and Arts Department), as it is built of the stones which formed that residence and which were carefully taken down and removed from the east side of the campus, to make way for the handsome new Library building, to the southern side where it was unanimously agreed the new building should be erected. This structure is not only beautiful to behold but it is commodious, convenient and more in keeping with the extensive work that is now being done in this line. The most up-to-date and scientific equipment has been purchased and is being rapidly installed. In the opinion of many, this is the most beautiful building on College Heights. Students who major in Home Economics and complete the regular B. S. course here are in great demand as teachers in the Smith-Hughes high schools of the state as well as elsewhere.

The new \$200,000 Library is being rapidly constructed. It occupies the site of the old Home Economics Building.

The Music Hall is in use at the present time although hardly complete. In addition to a large auditorium it contains many studios and class rooms.

NEW SEMESTER

The Spring semester began Tuesday morning, February first, at eleven o'clock with the largest attendance, by some 150 students, of any spring semester in the history of the school. There are now about 1,800 students enrolled in the institution which is a record for a February opening. The attendance of the fall semester was increased practically a hundred per cent by the incoming students, many of whom have been here before, though a greater number entered for the first time. The chapel auditorium is now filled to capacity.

All the students in school last semester were registered Friday afternoon, February 28; the fall semester closing at noon on that day. Registration of the great deluge of new students began Monday morning, January 31 and continued through Monday and Tuesday. The first classes of the new semester were held at 1:20 Tuesday, February 1.

At the first chapel exercises at 11 o'clock on Tuesday morning President Cherry welcomed the new students into the institution and expressed the hope that they might early get the spirit of the school and begin work in earnest. To the many old students who had returned he said, "You, by your willingness to return to this school after once being a student here and learning of us and our work, could not have paid the institution a higher tribute than you have by returning to us to complete your work."

THE KINDERGARTEN IN OPERATION

On Wednesday morning the members of the faculty were formally introduced to the new students. President Cherry asked Mr. Crabb to introduce them but he said that with the permission of the president he would merely introduce one member who in turn would introduce another and so on. Some very humorous and pointed introductions were made by some of the faculty members. Mr. Anderson in introducing Professor A. C. Burton said that on College Heights he was known as Daddy Burton, at the First Baptist Church as Deacon Burton and elsewhere in the state as Bingen on the Rhine. This introduction brought such a burst of applause that to save a riot Mr. Burton gave his famous reading, "Bingen on the Rhine." He said that he wouldn't give it if it were not for the fact that there were six new students in the audience who had never heard him give it. The applause following this classic rendition would indicate that a thing may be just as funny and pointed the hundredth time as it is the first time.

Because of the building program now in progress on the Hill there is some congestion, but by putting the larger classes in the larger rooms and discontinuing some classes not having enrolled in them as many as ten students and using these teachers to teach sections of large classes which were divided, everyone is being taken care of, and things are moving off beautifully.

The various class organizations served cakes and hot tea to the incoming students on Monday. Report has it that this part of the matriculation

process was even more enjoyed than the "You can't take but sixteen hours with all those D's and F's" part of it.

The most obvious thing around school during the beginning days of the new semester, with the exception of the new song books which were placed in the racks of all seats in chapel, was the assortment of lines. Some of these, like Wordsworth's daffodils, seemed to stretch in never ending line along the corridors of the Administration Building. There was a registration line, a "change program" line, a book store line, and one new student is reported to have asked where the line might be for folks about to die. Everything has a "line" here it seems at registration time, but that part is all over now and everything is well under way. When the building program is completed the institution will be better able to take care of its students.

HIGH SCHOOL POSITIONS

The institution will be prepared presently to make recommendation for various types of high school vacancies. This year approximately one hundred and fifty will take the Baccalaureate degree. Of this number fully half will be prepared to teach subjects in the secondary schools. Inquiries relative to students should be addressed to the Personnel Office of the institution.

WE WILL MEET YOU IN LOUISVILLE

Seelbach Hotel, where the Western Teachers College will have its Headquarters.

RECREATION

Among the most pleasant outings that students and teachers enjoy during the spring and summer terms, is a trip to the wonder caves near Bowling Green. Besides the Mammoth Cave, the most noted of the ages, there have recently been opened to visitors a number of others that are marvelously beautiful. These caves are only twenty-eight miles from Bowling Green, and are easily reached by rail, steamboat, or motor, while a large camping party at the end of the spring term annually makes the trip by slower stages and hikes most of the way. County delegations and other congenial groups with different members of the faculty enjoy frequent picnics in the groves near the city or on the banks of the beautiful Barren River. Those who delight in swimming have a fine opportunity to indulge their preference for this exhilarating sport in the many more shallow turns of the river.

NEW TELEPHONE

Until a few weeks ago all telephone calls came through Miss Schneider's office, but for the sake of efficiency a new telephone system has been installed. The exchange is situated in the office of the College Heights Herald with Miss Lois Dickey at the board.

All telephones on the Hill are connected with the new system except those of the village. There are fifteen telephones on the campus and three more will be added at the opening of the heating plant, the home economics building, and the new library.

This is indeed an improvement over the old system. It will save time and make things easier for the office forces. In time it will prove its worth.

MUSIC HALL

Here Prof. Franz J. Strahm and his talented assistants fill the air with sweet strains—when they are not instructing younger musicians in this gentle, delightful art. Private lessons in piano, voice, violin, and other stringed instruments are given. Among the many musical organizations to which all music students are invited are the Orchestra, the Band, the Chorus, no membership fee being required. Sometime during March the Music Club will give for the benefit of the public the operetta, Iolanthe.

PRIMARY WORK OFFERED

One of the most interesting and decidedly helpful features of the Training School is the KINDERGARTEN DEPARTMENT which is under the direction of an expert teacher and demonstrator. Those who expect to teach in any of the primary grades

will derive invaluable suggestions from observing the work in this department. The teacher is a specialist in her field, and the department has been completely equipped with most attractive and efficient physical material. Her methods will be an inspiration to any primary teacher.

SCHEDULE of CLASS PERIODS
for the SUMMER SESSION

During the first summer session, classes will begin at 7:15; the second period, at 8:15. Chapel at 9:15, the third period at 10:10, the fourth at 11:10. In the afternoon the fifth period will begin at 1:20, sixth at 2:20, the seventh period at 3:20.

THE APRIL TERM

STUDENTS SHOULD READ THIS BEFORE REGISTERING:—Below is presented the program offered for the second half of the Spring semester. A maximum of nine semester hours may be taken by students. College Freshmen, entering for the first time, should make up their programs from these subjects: English 101a, English 101b, Education 100, Education 101, History 101, Penman-

ship 101, Biology 100, Agriculture 100, Mathematics 101, and Geography 102.

No student may enroll for English 101a unless he also enrolls for English 101b, except in the cases of those students who have taken one of the courses and not the other one. Students who enroll for Education 100 should also enroll for Education 101, except in similar cases.

MID-SEMESTER—APRIL 4, 1927.

NEW TEACHERS

In response to the call for new teachers, as a result of the enlarged student body, we have several new members of the faculty this semester.

Dr. J. L. Morris, who received his Ph. D. from the University of Illinois last June, is now teaching French and History in the college department. Miss Elsie Hess, who holds a B. S. degree from the University of Wisconsin, is teaching in the Home Economics Department. Mr. T. H. Likens teaches Mathematics in the Normal Department; he finished the A. B. course here the last semester. Miss Edith Mayfield is teaching high school English. Miss Mayfield took her Master's degree from Peabody last August. In the training school Miss Harriett Idol has taken the fifth grade in the absence of Miss Scoville who is now in Columbia University. Miss Idol comes from the Central Missouri State Teachers College; she was librarian there and also the supervisor of English in the Junior High School. In the fifth grade Miss Beauchamp is assisting Miss Kimmel who has some classes in the college. Mrs. McCord is teaching classes in Freshman English.

SPECIAL FEATURES

In addition to a carefully organized program of studies, opportunities will be provided for the students of the summer session to attend an unusual offering of lectures, concerts and dramatic performances.

Dr. Edward Howard Griggs, one of the foremost thinkers of America, will deliver ten addresses in the institution the week beginning June 20. The Redpath Company will present one of its seven-day chautauqua series here, beginning June 20. This organization carries some of the best oratorical talent in the country. In addition to this, a number of musical attractions, among them being Kryl's Band, and three specially selected comedies will be given. There will be a number of other speakers added to the program.

Tickets to all of these will be issued to students upon payment of the required incidental fee of \$3.50 for the first term, and \$2.50 for the second.

LIBRARY

When completed this magnificent structure will be by far the finest building yet erected for the institution. With the generous appropriation made by the last Legislature, we have been able to use the very best and most beautiful building material to be found, and under the direction of the architect and contractor there is rapidly rising a product that will not only be a thing of beauty but a "joy forever." It will not be long before the move from the present overcrowded quarters in the senior house to this really great library building, can be made.

THE SUMMER SESSION

Following are printed the subjects which will be offered during the summer session, beginning June 6 and ending August 12.

It will be noted that these subjects are included in three groups. In the first group are presented those subjects which will run throughout the entire session; in the second group those subjects which will run during the first summer term, beginning June 6 and ending July 8. Group number three includes those subjects which will be offered during the second term, beginning July 11 and closing August 12.

Students who can remain for the first term only should make their program from Group number two. Students who attend during the second term only should make their program from group number three. Students who will be here for the entire session may select their program from all three groups.

It is hoped that the students who come to stay for the entire session will register for the entire session, thereby eliminating the trouble and confusion incident to the second registration.

Students in the high school field are limited to one unit per term, or two units for the entire session. Students in the college field may not take more than six hours per term, or twelve for the session, except in the cases of those students whose grades have not fallen below "B." These students are allowed a maximum of fourteen hours for the session. But this excess load cannot be allowed in other instances.
