SUMMER SCHOOL NUMBER

RURAL EDUCATION AND RURAL LIFE ONE OF THE OUTSTANDING FEATURES OF THE FIRST SUMMER SCHOOL OF 1928

Five weeks' continuous conference on the country problems in Kentucky.

Noted rural life workers from various sections of the United States will be in charge of regular and special classes throughout the term.

County superintendents, rural supervisors, principals of village and consolidated schools and teachers of one and two-room schools are offered a great opportunity.

We Give Below Some of the Courses Offered During the Summer School

MUSIC SUPERVISION FOR RURAL SCHOOLS: Mrs. Travelstead will offer this course with special reference to superintendents, supervisors and principals. The specific aim will be to aid in supervision of singing in country schools. Music must become an integral part of the rural school curriculum in the very near future.

HOME ECONOMICS: This course will treat the subject of child nutrition in general with special reference to supervision and management of the school lunch and the care of under-nourished children. Every superintendent and principal must soon be able to give intelligent aid in the organization and management of the school lunch room.

MANUAL ARTS: Special attention given to construction and repair of rural school buildings. Beauty, comfort and sanitation will receive due attention. Superintendents, principals and supervisors must have a knowledge of proper construction of buildings if they are to be able to prevent waste of money and health.

AGRICULTURE: Agriculture must be at the basis of any great improvement in Kentucky's prosperity. The law requires that agriculture be taught in all elementary schools. This course will enable superintendents, principals and supervisors to direct teachers in a kind of work that will function in our campaign for a more profitable agriculture in the state.

TESTS AND MEASURES: This course will aim to give superintendents and principals the most scientific methods known for measuring progress of pupils and efficiency of teaching. Every school worker who has any work as an overseer should have this course.

THE SCHOOL SURVEY: A course to prepare heads of school systems to make an invoice of their educational assets and liabilities. The rural schools everywhere need diagnosis and treatment. No better course could be offered for this purpose.

PROBLEMS OF THE COUNTY SUPERINTENDENT: A course dealing with the practical problems of the county superintendency. Budgeting of time. Economics in finance, teacher selection, teachers' meetings, application of the salary schedule, visitation program, county-wide campaigns.

SECONDARY EDUCATION: The junior high school is attracting world wide attention. No part of the country needs it so much as the rural sections. This course will deal with the whole

A kodak picture of a part of Teachers College Heights, made by one of the members of the faculty from an aeroplane three hundred feet above the Hill.

problem of organization, administration and supervision of the small country high school.

THE RURAL SCHOOL CURRICULUM: Fitting the best elementary school curricula to the possibilities and needs of the country schools is one of the gigantic problems of the present day. This course will deal with the best thought and practice on fitting a good curriculum to the small country schools.

A Campus Scene

RELAY COURSE FOR HIGH SCHOOL STUDENTS: Many teachers are below high school graduation. A relay course meeting twice a week has been arranged for such teachers. Such topics as teaching agriculture, rural school life, rural economics, music and health in country schools will be discussed.

Special Features

RELAY COURSE: The relay courses on the Needs of Kentucky which met with great favor in 1927 will be repeated. It deals almost entirely with the needs of rural Kentucky.

KNOW KENTUCKY: The Know Kentucky courses in English, History, Geography and Biology will be given again in Summer of 1928.

TWILIGHT HOUR: In the twilight hour singing and games of special interest to country leaders will be stressed.

RURAL SOCIAL PROBLEMS: Education 300, known as Rural Social Problems, will be given by men and women of national fame as rural life workers. Each will conduct the class for a week on one great phase of the course.

RURAL CONFERENCES: Every day during the first summer term one of the great visiting teachers will conduct a conference on some phase of rural education. These conferences will be made a clearing house for the troubles and knotty problems of rural school heads and teachers of small schools.

PHYSICAL EDUCATION AND HEALTH: Numerous conferences will be held for discussing rural school health work and physical education and play for the small school. If possible a uniform program will be worked out for the county school systems.

COURSE IN STUDENT ACTIVITIES: A regular credit course of two semester hours value will be offered. This course will deal with extra curricular activities for country schools. No more important course could be offered, as definite student activities must receive attention in all well organized schools.

Courses Offered at Teachers College BOWLING GREEN, KENTUCKY

Agriculture	Biology
Athletic Coaching	Botany
Art and Design	Chemistry
Bacteriology	Drawing
Education:	
Kindergarten—Primary	
Intermediate

Physical Education	Secondary Courses
Physics	Zoology

FREE TUITION IS OFFERED ALL

The Administration Building

J. Whit Potter Hall

Primary Work

During the summer session there will be a great opportunity offered those who desire to specialize in the elementary field. Experts in the kindergarten, as well as in the first grade will give demonstration work. In fact, all of the grades will be represented in the training school which will be in session during the first summer term, which continues five weeks. In addition to the regular faculty of the training school some of the leading supervisors and teachers in the primary field will be employed. In the demonstration school one will have an opportunity to observe the equipment as well as the methods of instruction, and devices used.

MAMMOTH CAVE SCENES

The Mammoth Cave, which is one of the Seven Wonders of the World, is situated less than thirty miles from Bowling Green, and opportunity is offered at intervals to visit this and the adjoining caves during the Summer School.

Twilight

Heretofore one of the most popular features of the entire summer program has been the twilight hour. During the approaching term the twilight hour will again prove attractive in every way. Games, lectures and music, both vocal and instrumental, will characterize the occasion. Much fun and frolice will be intermingled with inspiring talks and addresses. The hour will be one of relaxation, as well as helpful suggestions for your future work.

Westerners Again Take Rifle Honor

LOCAL R. O. T. C. TEAM BEST AMONG THIRTY SCHOOLS OF FOUR STATES Won Cup Last Year

The Rifle Team of the R. O. T. C. of Western Kentucky Teachers College has again won the silver cup for excellence in shooting, having defeated about thirty colleges in the states of Ohio, Indiana, West Virginia and Kentucky.

The War Department has now entered the team in the finals, and it is now shooting against the winning teams from all other sections of the United States. If the Western boys win this contest, they will be the inter-collegiate champions of the United States.

The victory of the team is especially marked because the R. O. T. C. unit has only 114 members, from which a team of ten had to be selected, while the units they shoot against were seven hundred, eight hundred and some of them a thousand strong.

The large silver cup offered by the War Department for proficiency in rifle practice is now

in possession of the local school, having been won by the team last year. Any team winning the cup three times, makes the cup the property of the school permanently.

Western has won it twice and has only to win it next year for the trophy to be placed in the College Museum at Western for all time.

Renewal of Certificates

Certificates that have been secured in the high school field by examination may be renewed by the Department of Education at Frankfort prior to the date of expiration upon presentation of approved evidence of two standard high school units of additional scholarship. This work may be done here during the Summer School, as one unit may be completed during each of the terms.

The Elementary College certificate, issued high school graduates upon the completion of sixteen semester hours of college work, is renewable from time to time upon the completion of sixteen semester hours of additional work, at least eight of which in each instance must be earned in residence in a state normal school. A total of 12 or 13 semester hours of college work may be completed during the summer session.

What Makes A Great Summer School?

IS IT THE LOCATION? If so, Bowling Green, because of its natural environment, its accessibility, its healthfulness, its many churches, and its cultured, intelligent and sympathetic citizenship, is pre-eminent.

IS IT THE COURSE OF STUDY? Then, let us refer you to the catalog and special announcement that Teachers College at this place has arranged an extensive program reaching from Kindergarten through the high school and to the A. B. and B. S. Degrees.

IS IT THE FACULTY? If so, we call your attention to the fact that we have secured 96 of the ablest and most scholarly instructors that can be found anywhere.

IS IT CONGENIAL ASSOCIATION WITH FELLOW-STUDENTS? Rest assured you will find at this place, among the 3,500 splendid men and women who register here annually, many fine, progressive, brainy, stimulating acquaintances and friends. Some of the dearest friendships of life are frequently made during one's stay in college.

IS IT RECREATION? Observe the opportunity for trips to many attractive points of historic and geographic interest within the city limits and within easy access by walking, motoring or by rail.

IS IT OPPORTUNITY FOR SECURING POSITIONS? Then it will be well to keep in mind the fact that association with superintendents, principals and other school officials who will be here either in the capacity of instructors or as other student-teachers will be likely to give much information and even assistance in putting you in touch with desirable vacancies. Aside from this, a special department with one of the regular members of our faculty in charge gives earnest, careful and continuous assistance in aiding boards of education in meeting and employing qualified student-teachers. No charge is made for this assistance.

IS IT "THAT OTHER THING," FAITH, EARNESTNESS, LOYALTY, CONSIDERATION, SYMPATHY, SERVICE? Then bring yours, unite it with what you find is worthwhile at this place and we will have a glorious term.

Special Railroad Rates to Summer School

ONE AND ONE-HALF RAILROAD FARE SECURED FOR ALL STUDENTS WHO ENTER FOR EITHER OF THE SUMMER SCHOOLS

Reduced rates on round trip identification plan, basis fare and one-half for the round trip, minimum excursion fare \$1.00, have been authorized from stations in Alabama, Kentucky, Mississippi and Tennessee (except stations on the New Orleans Great Northern), tickets to be sold only to delegates and members of their families upon presentation of IDENTIFICATION CERTIFICATES to ticket agent at the time of purchase of tickets.

A supply of IDENTIFICATION CERTIFICATES has been purchased and they are now ready for distribution. We shall be glad to furnish them to all who expect to enter for either the first or the second Summer Term. Write for them. No cost is attached but they will be sent you with our compliments.

The tickets will be on sale May 31-June 6 and July 5-11, inclusive, with final limit August 23rd; tickets to be validated by the regular ticket agent at Bowling Green before the return journey is commenced. Address your request for the identification certificate to

DR. H. H. CHERRY, President, Teachers College, Bowling Green, Ky.

MR. WILBUR A. BRANSON OF ONTON, KY.

Mr. Branson, whose picture appears above, won the \$400.00 scholarship and a gold medal awarded by the American Jersey Cattle Club at the 1927 National Dairy Contest at Memphis. He was awarded highest score for judging dairy cattle. He entered the institution again at the beginning of the second semester for the purpose of taking a more extensive course in our agriculture department.

The Administration Building on Ogden campus. It was built about 1870 as a private residence and was later used by the old Warren College, now Vanderbilt University at Nashville. In 1877 this became the property of Ogden College.

This is Perry Snell Hall of Ogden College, which was given to the school by an alumnus of Ogden, Perry Snell, of St. Petersburg, Florida. The cost of its construction was about \$85,000. It contains seven classrooms and an auditorium.

Many Worthwhile Books Added to the Library

Our Library now contains more than eighteen thousand well selected volumes besides sixteen thousand pamphlets and magazines. Each month the Librarian with the recommendations and advice of the heads of the various departments adds to this group.

Ogden Is Now Merged With Western

At a joint meeting of the Board of Regents of the Western Kentucky State Normal School and Teachers College and the Board of Directors of Ogden College recently, an important step was taken in the interest of universal education. The two boards reached an agreement whereby the Teachers College took over Ogden College on January 1, 1928, its beautiful campus consisting of two splendid class room buildings and about eight acres of ground adjoining the property of the Teachers College, and its fertile farm located at the city limits, which consists of 145 acres of ground including the property purchased by Ogden College from the Warren County Fair Association. The addition will be known and designated as the Ogden Department of Science of the Western Kentucky State Normal School and Teachers College.

The students of Ogden College attending when that school merged with Teachers College have purchased a bronze tablet on which is inscribed, "To Ogden College, rich in tradition and accomplishment during its fifty years of history, the students of 1927 dedicate this tablet," to be erected in the old Administration Building at Ogden which will commemorate the work of Ogden during its fifty years of existence.

Do You Need A Teacher?

TO TRUSTEES AND BOARDS OF EDUCATION
 This institution will be glad to send necessary information and to recommend for employment, teachers specifically trained as follows:

1. Superintendents—College Degrees with successful experience.
2. Principals—For Junior and Senior High Schools—College Degrees, with successful experience.
3. High School Teachers—College Degrees with and without experience.
4. Agriculture Teachers—Qualified under the Smith-Hughes Act.
5. Athletic Instructors and Coaches—Graduates from Senior and Junior College, with and without experience.
6. Teachers of Home Economics—Qualified under the Smith-Hughes Act.
7. Music Teachers—Orchestra Leaders, Chorus Instructors and Teachers of Public School Music.

SUBJECTS:

8. Teachers of Manual Arts—With Senior and Junior College graduation—practical experience.
9. Rural School Supervisors and Teachers—Trained in Demonstration Rural School.
10. Grammar Grade Teachers—Graduates from Senior and Junior College—with and without experience—can teach special subjects in Departmentalized Systems.
11. Primary Teachers—Majors in Primary Methods—Graduates from Senior and Junior College—with and without experience.
12. Kindergarten Teachers—Small qualifications as for primary teachers.

Western Teachers College is a member of the Southern Association of Colleges and its teaching certificates are validated in all states. We are also a member of the Kentucky Association of Colleges and the American Association of Teachers Colleges. We promise our careful and conscientious efforts in making selections and recommendations if called upon. Write early and so avail yourself of the opportunity to get one or more of the best.

Free Tuition and Reasonable Board

EXPENSE FOR THE SUMMER TERM OF FIVE WEEKS

Can any progressive teacher afford not to take advantage of the opportunity offered at so low a rate?

The Colonnade of the Stadium

The Cedar House

Music Building

A part of the Domestic Science and Arts Building.

All students in attendance during the first summer school will be entitled to free admission to the entire Seven-Days Redpath Chautauqua Program. Two magnificent programs daily.

The Western Kentucky State Teachers College, Bowling Green, Ky.

THE ABOVE PICTURE OF TEACHERS COLLEGE HEIGHTS WAS MADE FROM THE TOP OF THE SCHOOL BARN, ABOUT A HALF MILE FROM THE HILL.

INTERPRETATION OF THE PICTURE

1. J. Whit Potter Hall. 2. The Stadium, built in the side of the Hill. 3. A rear view of the Administration Building. 4. A small part of the new Library Building which is shown elsewhere on this page. 5. Recitation Hall. 6. A temporary Gymnasium, built and paid for by the students. 7. Home Economics and Arts Building. 8. Office College Heights Foundation. 9. The School of Music. 10. The Training School.

NOTE:—The reader will observe the top of a building between No. 5 and No. 7. This is a building made of cedar logs and is one of the most attractive small buildings on the Hill. It was constructed and paid for by the student-body. It has been used for the past six years for the Library but will in the future be used as a center for student activities. It was built by the students for this purpose but was turned over to the management of the institution six years ago for the Library when no other building or place could be found.

THE NEW FIREPROOF LIBRARY BUILDING

A SCENE ON THE INSIDE OF THE COLLEGE COURT

THE FRONT OF THE ADMINISTRATION BUILDING

THE FIRST SUMMER SCHOOL OF FIVE WEEKS BEGINS JUNE 4TH. THE SECOND SUMMER SCHOOL OF SIX WEEKS BEGINS JULY 9TH. COURSES LEADING TO THE A. B. AND B. S. DEGREES AND TO RE-NEWAL OF CERTIFICATES OFFERED.

Noted rural experts who will teach during the Summer Schools include Miss Mabel Carney, Professor in Rural Education, Columbia University; Superintendent A. F. Harman, Director of Division of Educational Administration, Montgomery, Alabama; Mrs. Marie Turner Harvey, founder of Porter Rural School of Missouri; and Mr. Paul Vogt, Dean of University of Oklahoma.

Many county superintendents are preparing to enter. Opportunities for Academic and Professional Advancement while enjoying rest and relaxation, are offered.

College Heights is located on a great hill overlooking Bowling Green. The climate is delightful. Beautiful Barren River, the many wonderful caves nearby, and places of historic and geographic interest in the city and vicinity will prove attractive.

Dr. Edward Howard Griggs, one of America's most noted educators and lecturers, has been employed for a week.

Many other famous men and women have been secured. A seven-days' program of entertainment, instruction, and magic will be given by the Red-path Chautauqua.

FREE TUITION———**REASONABLE LIVING EXPENSES.**
The privilege of free tuition is not limited to any section of the state.

REDUCED RAILROAD RATES ARE OFFERED. IDENTIFICATION CERTIFICATES FURNISHED WITHOUT COST. WRITE FOR THEM.

Persons desiring further information should address:
H. H. CHERRY, President,
Western Kentucky State Teachers College,
Bowling Green, Kentucky.

A KODAK PICTURE OF ONE SECTION OF THE CAMPUS

THE 1928 SUMMER SCHOOLS

SOME OF THE LEADING EDUCATORS OF KENTUCKY AND OTHER STATES WHO WILL BE FULL-TIME INSTRUCTORS IN THE SUMMER SCHOOL, SUPPLEMENTING THE WORK OF THE REGULAR MEMBERS OF THE FACULTY.

Mr. D. B. Cofer, English Department, Agricultural and Mechanical College, College Station, Texas.

Dr. R. T. Wyckoff, Department of Language, Berea College, Berea, Ky.

Mr. H. R. Kirk, Superintendent Schools, La Grange, Ky.

Mr. Arkley Wright, Superintendent Schools, Hopkinsville, Ky.

Mr. J. O. Lewis, High School Principal, Owensboro, Ky.

Mr. W. L. Matthews, Superintendent Schools, Franklin, Ky.

Mr. E. K. Spahr, English Department, Agricultural and Mechanical College, College Station, Texas.

Mr. Walter Jetton, Principal of High School, Paducah, Ky.

Dr. E. S. Spring, Newport, Kentucky, who has just finished his Ph. D. degree in the University of Cincinnati.

Mr. C. E. Dudley, Superintendent Schools, Henderson, Ky.

Miss Elizabeth North, Principal High School, Cropper, Ky.

Miss Mazza Lee Segars, graduate Sargent School of Physical Training, Cambridge, Mass.

A Large Attendance

The Western Kentucky State Teachers College is enjoying an attendance and educational advancement in other ways that it has never experienced in the past. Notwithstanding the fact that the institution enrolled 3,462 student-teachers during the last scholastic year, not counting the 450 in the Training School and the 1,900 who took advantage of the Correspondence and Extension Department, there are 160 more student-teachers enrolled today than at the same period on last year. The correspondence and messages from friends and former students indicate that the increase in attendance at the opening of the Summer School will be larger still. The institution has not only advanced in enrollment, but is using every opportunity available to develop its work along all fundamental educational lines. The student-body and faculty are working together in perfect harmony. The spirit has never been finer and the outlook more optimistic.

College Heights is literally a bee hive composed of earnest young men and women seeking the larger preparation in order to render the larger service.

Reserve Rooms in the J. Whit Potter Hall

Owing to the great demand for rooms in the J. Whit Potter Hall, it will be well for students desiring to room there to send the usual fee of \$5.00 early in order to be assured of a place. This fee will be applied on the room rent when entering here. The room rent in this Hall is: \$5.00, \$6.25 and \$10.00 each student for the five weeks, depending upon whether a four, three, or two-student room is preferred.

Free Tuition for Everybody in Kentucky

The Legislature of Kentucky removed the boundary line between the Teachers Colleges of Kentucky. Any student in Kentucky, regardless of the county in which he lives, is now entitled to Free Instruction in this Institution.

Mr. James Barnes, Graduate University of Wisconsin, Madison, Wisconsin.

Mr. Harper Gatton, Superintendent of City Schools, Madisonville, Ky.

Mrs. Harper Gatton, Madisonville, Ky.

Mr. Vest Myers, Superintendent Schools, Fulton, Ky.

The Personnel Department

The Personnel Department will be glad for any information given by former students of vacancies in the teaching field. Care is always taken in making these recommendations and no charge is ever made for the services.

If the institution places a good teacher in a good position they have served both the teacher and community.

The Extension Department Moves

The Extension Department has moved from rooms 109 and 110 in Potter College Building to the lower floor of the Ogden Building. This gives greater space and better advantages for the increased amount of work which is coming to the Extension Department.

EXPENSES.—The annual expense for attending Teachers College is little more than half what it would be at most other institutions of equal rating. In other words, one can complete the degree course for an outlay of money that ordinarily would be required during two years of college work elsewhere. Teachers College being a member of the State Association of Colleges, American Association of Teachers Colleges, and the Southern Association of Colleges, assures you of proper recognition of all credits earned at this place.

BOARD.—Excellent meals at J. Whit Potter Hall are offered for only \$4.00 per week or \$20.00 for the entire Summer School of five weeks. Room rent ranges from \$1.25 to \$2.00 per week. Many students make this item even less where more than two occupy one room.

CHERRYTON.—Cherryton offers opportunities for economical living especially for couples who desire to have a small "home" of their own where the little folks may play and romp without disturbing others in a boarding house. Students who know how to plan their meals and conduct the house on a systematic basis, tell us that their expenses need not exceed ten to fourteen dollars a month for rent, board, light, water, fuel and other expenses. These cottages are very simply built amid the attractive trees, shrubs, and vines of the western slope of College Heights, and can

Dr. William Lyon Phelps, educator, editor, author, and lecturer will deliver the graduating address to the class of 1928 on the morning of Thursday, May 31. Dr. Phelps is head of the English Department of Yale University.

Reverend Dr. Samuels Parkes Cadmen, Brooklyn, N. Y., has been selected to give the sermon to the graduating class, Sunday evening, May 27, at eight o'clock. Dr. Cadmen is well known on both sides of the Atlantic as one of the leading clergymen of the age. In addition he is a noted author and lecturer as well as the President of the Federal Council of Churches of Christ in America.

Miss Mabel Carney, educator, lecturer and author, will come to us from Columbia University for a week's work, June 11 to June 16. Miss Carney is Professor in Rural Education, Teachers College, Columbia University and a noted leader in this field of work.

Mrs. Marie Turner Harvey, founder of the Porter Rural School, a laboratory for the rural teachers of Missouri.

The work of Mrs. Harvey has attracted favorable attention from all leading school men and women. She will be with us for five days' work beginning June 25.

DR. EDWARD HOWARD GRIGGS, Lecturer, Educator and Author.

For the week of June 18 Dr. Griggs has been secured to give a series of lectures on the life and work of the great novelist and dramatist, Ibsen. Dr. Griggs has lectured at College Heights repeatedly and each return adds even greater popularity and effectiveness to his record.

Dr. Paul Leroy Vogt, nationally known sociologist, Dean of the University of Oklahoma, who will discuss rural life problems and the relation of the school, church and other rural agencies on July 2 and July 3.

MR. BRITON B. DAVIS

MR. BRITON B. DAVIS. Architect

When the present Administration Building was to be erected in 1910-11 Mr. Davis was selected as the architect. Later he was chosen as the architect for the \$200,000 stone library building and also for the beautiful home economics building and the stadium. The next building to be constructed under the plans and direction of Mr. Davis is the new boarding home for the young women of the institution. Work on this building will be started at an early date.

We did not receive the photo of A. F. Harman, the noted County Superintendent of Montgomery, Alabama, in time to use it in this issue. Superintendent Harman will be with us for a full week's work during the first Summer School. He is one of the great leaders in the development of rural education.

MR. HENRY WRIGHT, A. I. A., Of New York City.

Mr. Wright has been the landscape architect of College Heights for the past 18 years and under his skilled planning and direction, the campus is rapidly becoming an object of beauty. Flowers, shrubs, trees, drives, walks and buildings have been carefully located with regard to beauty and efficiency as well as the needs, considering the present and future development of the plant.

HILL TOP NEWS.—Mr. Henry Wright of New York City, who has had charge of the landscape work at Teachers College for a number of years, made a trip to the school recently and presented plans for its further development. Since the merging of Ogden College in January, walks and drives have been laid out and shrubbery planted on that campus.

The main campus has been improved in every respect. Magnificent asphalt drives, beautiful sod and handsome trees and shrubs have added a thousandfold to the original beauty of the Hill. During the past few weeks the Athletic Field has been put under a cover of bluegrass. This will make it possible to utilize the large stadium this summer for various kinds of social activities, lectures, concerts and plays and games of the Twilight Hour.

Since the move of the Library from the old cedar house to its handsome new domicile the management of the institution is having the former senior house put in good order for the center of social activities of the students.

be rented by the month or leased for a year or longer, either unfurnished or provided with the necessary furniture in the way of beds, dressers, chairs, tables and heating stoves.

THE REGISTRATION FEE entitles the student to the full use of the Library and admission to all numbers of the lyceum course; to the great athletic events, the Redpath Chautauqua and to many other magnificent lectures and programs offered.

IN THE MATTER OF DRESS students are encouraged to exercise good taste in selection but to avoid extravagance. While no requirements as to uniformity in style or material are made, the young lady or young man who can dress attractively on the smallest outlay of money is the one who is most honored.

University.
Friday, June 1—
5:00 A. M.—Overland Trip to Mammoth
Cave, in charge of Prof. G. V.
Page.
9:20 A. M.—Annual Excursion, L. & N. R. R.
Co., to Mammoth Cave.
- It is earnestly hoped that many, many of the former students will return to their Alma Mater and enjoy the Commencement activities with us. Never before in the life of the school has the Hilltop been so beautiful. The entire institution extends a warm-hearted invitation to each of you to return, make yourself at home, take part in each of the occasions planned, renew old friendships among the student-body and meet and greet your former teachers, all of whom will be more than pleased to see you again. Many of you, no doubt, will be planning to enter school for the first summer term and will be glad to avail yourself of the opportunity to come a week early and so have the benefit of the magnificent programs arranged for commencement.
