The good of the different Literary Societies was discussed, particularly the importance of keeping up the attendance. Upon motion of Mr. Leiper, duly seconded and passed, it was agreed that:

1. The leader of each Literary Society group should make a special effort not only to ascertain the plans of students who are going home for the Holidays and to urge them to work as rapidly as possible toward the A.B. course, but to insist that they aid in building the attendance from their respective counties.

2. That these leaders should meet and formulate arguments for influencing young men and women to remain in school continuously, where possible, and to show the many values of an education.

A request was made for a list of former Life Certificate graduates who should return for the Degree. This is ready for use of the faculty who will write personal letters to those they may select from the list.

BUREAU OF PUBLICITY Oct. 17, 1924.

By action of the faculty on October 14th upon a report of the Committee on Publicity, it was decided to establish a bureau of Publicity for Western Kentucky State Teachers College and Normal School as a recognized department.

Included in the resolution as voted upon was the fact that the Committee on Publicity shall issue certain rules and regulations looking toward an
effective working schedule and that the head of each department and chairman of each organization listed upon the diagram as presented shall be given a copy of these rules and regulations, including all members of the faculty.

Pursuant to the action of the faculty, the Committee on Publicity has attached a mimeographed copy of the working diagram, together with a set of rules and regulations looking toward an effective working schedule.

We feel that the general principles governing the successful functioning of this Bureau demands that we should first learn WHY such a Bureau is necessary and then learn HOW to promulgate it in the way that President Cherry desires.

Promoting this effort, we have put together certain general principles and suggestions, a copy of which is attached, and we hope you will cooperate with us to the fullest extent.

Fraternally yours,

PUBLICITY COMMITTEE.

M. A. Leiper, Chairman
H. C. Anderson,
G. G. Craig,
Ivan Wilson,
Mrs. T. C. Cherry,

Dean Gamble called attention to the practice of some schools of allowing additional hours for high quality of work in the institution and requested that the committee of which Dr. Griswold Chairman investigate the advisability of adopting the practice of this kind here, making a report at some subsequent meeting.

Information was again asked as to the penalty that should be enforced for nonattendance at the Literary Societies and it was agreed that this should be handled exactly as non-attendance at Literary Classes, the receiving of the Certificate being dependent on the record here as elsewhere as acted on at the meeting of February 18, 1924.

Den Gamble discussed the prospects of Summer School and requested that members of the Faculty give him information as soon as possible as to whether they will be available for Summer School work.

Upon motion the Faculty then adjourned.
The Faculty met in room H as usual. The meeting was called to order by Dr. Gamble who stated his regrets for mistakes in the catalog.

The report of the committee on Curriculum was called for and Dr. Grise made a statement, but desired to give further consideration to the management of the educational departmental societies.

The question of the membership and requirements for membership in the R.O.T.C. was discussed at length. Especially the advisability of requiring each young man to become a member for the regulation time. It was finally decided to refer the matter for additional consideration to the committee on Extra Curriculum Activities. Their recommendation in detail to be reported at the next meeting of the Faculty.

Upon the suggestion of Dean Gamble it was moved, seconded and agreed that we do not adopt the policy of permitting students to drop out of classes at mid-term, but that those students who are doing weak work in their classes or showing a possibility of failure at the mid-term should be reported to the office of the Dean and called into him for consultation. The individual teachers also expressed their approval of this plan.

It was unanimously agreed that the institution should resume the practice of holding the educational conference which has been discontinued since the great war. The date was again set for February 22nd, 23rd, and 24th.
