AUTHORITY FOR ENGAGING EMPLOYEES-- Under Section 4535-9, Carroll's Kentucky Statutes, the Board of Regents of the Western Kentucky State Teachers College is empowered to engage all employees of the institution, to fix their salaries and terms of service. The Board of Regents, by resolution, has instructed the President of the Western Teacher College to nominate all employees of the institution and to assign their duties and supervise their work. All persons now engaged by the Western Kentucky State Teachers College have been employed according to the provisions stated above.

ADMINISTRATORS-- All administrators spend from eight to twelve hours a day in their offices or on the campus performing their regular administrative duties.

INSTRUCTORS -- All members of the teaching staff spend a minimum of six hours per day or thirty hours per week on the campus. This includes classroom instruction, work as student advisers, committee assignments, extra curricula responsibilities, academic investigations and faculty conferences. This does not include making lesson plans, special preparation for classroom teaching and numerous other school duties which are performed in addition to the above while not on the campus. Many spend from six to twelve hours on the campus daily.

CLERICAL SERVICE--All members of the clerical staff are engaged in their regular duties eight hours per day or forty-four hours per week.

JANITORIAL SERVICE-- All janitors and laborers spend a minimum of nine hours per day or fifty-four hours per week performing their regular duties.

EXPENSE ACCOUNTS OF EMPLOYEES OF THE WESTERN KENTUCKY
TEACHERS COLLEGE - JANUARY 1, 1931 to JANUARY 1, 1932.

The expense accounts of teachers and employees of Western Kentucky Teachers College as listed on the following pages are incurred in regular authorized travel in the interest of educational development in the Commonwealth and in the discharge of regular administrative duties pertaining to the work of the institution. While the resolution does not request a statement as to the purpose of the travel, the purpose of each trip has been shown in order that a full interpretation of the expense account may be made.

A virile, growing institution cannot confine its activities to classroom and campus alone. It is not enough to train teachers in academic and professional subjects. These teachers must be followed to their field of activity and their teaching observed in order that those who train teachers may be qualified to judge the success or failure of certain procedures followed in the past. An educational institution must also be a leader of the educational thought of the territory in which it resides. This can be accomplished only thru frequent visitation of teachers and employees of the institution to the communities of the Commonwealth for the purpose of conducting rallies, holding educational conferences and assisting in educational campaigns. It will be noted from the description of items of travel given below that the expense incurred has been for the purpose of assisting the public schools of the Commonwealth in their efforts to develop higher standards of efficiency.

Numerous conferences with County Superintendents and other educational leaders have been conducted. Numerous rural school surveys have been made at the request of county superintendents. Practically all of the travel listed below has been made at the request of superintendents, school administrators and teachers in the parts of the Commonwealth served by this institution.

It is the opinion of the administrative authorities of Western Kentucky Teachers College that should the institution fail to allow travel of the nature shown above it would not only fail in its efforts as a leader of educational thought in Kentucky, but it would seriously hamper the development of new and modified curricula which enable it to alter teaching procedure and content in instruction to meet the change in needs of the teachers of the Commonwealth.

It will be noted that under the expense accounts of E. A. Diddle and Will B. Hill certain items are starred. These starred items represent students solicitation and other activities of an educational nature. These items are also reported in response to House Resolution calling for expense accounts incurred in the solicitation of students. Should the two reports be compared it will be noted that the starred items are duplicated in the two reports for the reason stated.

Itemized statements of each expense account given below are on file in the office of the Auditor of Public Accounts.

EXTENSION REPRESENTATIVES

Travel incurred by extension representatives is for the purpose of promoting extension and correspondence study and student placement. Expense incurred for this travel is paid from receipts of fees of persons taking extension and correspondence study courses. The expense accounts listed below are not paid from funds derived from state appropriations.

Your attention is respectfully called to the fact that the success of extension and correspondence work rests upon travel necessary to establish contacts with individuals and groups desiring extension and correspondence study. The practice pursued by the institution in this respect is in accord with that of all other institutions offering courses by extension and correspondence study. The income derived from the sale of extension and correspondence courses is sufficient to cover all salaries and expenses incurred by this division of the college. The Extension Department is now and has been in the past self-sustaining.

EXTENSION REPRESENTATIVES

All of the expenses incurred by Extension Representatives as shown on preceding pages have been paid from the extension fund and may, therefore, not be charged against state appropriations. As pointed out above the Extension Department is self-sustaining. It should also be noted that certain items of expense occurring under the name of Kelly Thompson are starred. These items represent travel for solicitation and other educational work and are duplicates of items occurring in a separate report in response to the House resolution calling for expense accounts of persons engaged in travel for solicitation. Should these two reports be compared this duplication of accounts should be noted.

GENERAL INFORMATION CONCERNING
SALARIES OF TEACHERS

On the basis of information found on page 35 of the report sent out by the United States Department of Education, and dated December 23, 1930, we have the following salary comparisons:

TRAINING SCHOOL--The median salary for critic teachers in 90 institutions is \$2400.00; in the Western Kentucky State Teachers College the median salary for critic teachers is \$2030.00, \$370 or 19.6 per cent less than in the other schools.

ENTIRE TEACHING STAFF OF COLLEGE AND TRAINING SCHOOL--Including all members of the teaching staff under the heading "Instructors," we find that the median salary in the 48 teacher-training institutions reporting is \$2730.00. In the Western Kentucky State Teachers College the median salary for all teachers, including both Training School and College, is \$2498.00. This is \$232.00 or 8.5 per cent less than the median in the other institutions included in the study made by the United States Department of Education.

NOTE: The salaries in all cases are based on the regular year of 36 weeks plus the two summer schools of six weeks each.

STATE SUPPORT OF TEACHER-TRAINING INSTITUTIONS FOR MAINTENANCE AND
BUILDING FOR 1930-31

The following statement was prepared by Dr. Donovan
of Eastern Teachers College.

INSTITUTION	ENROLLMENT	FOR MAINTENANCE	FOR BUILDINGS

TOTAL	<u>5,568</u>	<u>\$1,441,661.05</u>	<u>\$1,000,000.00</u>

Per capita cost for Kentucky\$258.92

Per capita cost for the United States..... 270.00

The per capita cost of the Teachers Colleges in Kentucky is \$258.92

The per capita cost of Teachers Colleges in the United States in \$270.00

The percapita cost in Kentucky is \$11.08 less than for the United States.

To help meet the present financial emergency the Teachers Colleges are making no requests for building or other capital expenditures.

THE TEACHERS COLLEGES ARE PRESENT BUDGETS WHICH PROVIDE FOR MAINTENANCE ONLY.
