## Seymour Hersh, Journalist, Opens Lecture Series

The university's 1983-84 Lecture Series opens this Wednesday at 8 p.m. featuring Seymour Hersh, the 1970 Pulitzer-prize winning investigative reporter who won the award for uncovering the My Lai massacre in Vietnam.

Hersh will speak on his recently published book, The Price of Power, which chronicles foreign policy during the Kissinger era and profiles Kissinger himself.

The lecture will be held in Van Meter Auditorium and is free.

Hersh has won numerous awards and has written several books including: "Chemical and Biological Warfare: America's Hidden Arsenal," "My Lai 4: A Report on the Massacre and Its Aftermath" and "Cover Up: The Army's Secret Investigation of the Massacre of My Lai." His articles have appeared in The New Yorker, Saturday Review, the New York Review of Books and the New Republic.

## Happy Birthday, WKYU-FM!

Sixty community leaders from Warren and surrounding counties will be helping WKYU-FM, Western's public radio service, celebrate its third birthday during the station's annual fund-raiser and membership drive Nov. 7-12.

Western's guests will serve as co-hosts with regular on-air staff trying to reach a \$20,000 goal this year, according to Pam Younglove, coordinator of development and public relations at WKYU.

Ron Howes, meteorologist and weather anchor for WTVF, Channel 5 in Nashville, will be a special on-air guest from 10 a.m. until noon Thursday, Nov. 10, and a new twist to this year's event will be speaker phones so callers may talk live with hosts all week.

The fund-raiser will kickoff Sunday, Nov. 6 with a reception from 2 to 4 p.m. at the studios in the Academic Complex, and there will be refreshments, tours and live entertainment.

"We're Calling On You!"

Future alumni of the university are doing their part in WKU's tomorrows planning the 1983 Phonothon which gets underway Sunday, Oct. 30.

More than 50 students from campus organizations each evening will be helping the third annual Phonothon reach its \$50,000 goal, according to co-chairmen Melissa Buckley and Chuck Hickman.

Students will be calling alumni all across the country Sunday through Thursday evenings between 5:30 and 9:45 p.m. during the three-week period through Nov. 17.

"We're Calling on You" is this year's theme, and Phonothon headquarters are in Room 340 of Downing University Center.

It's a "Running Festival" Nov. 5

The Fourth Annual Wendy's 10K Classic will be held Saturday, Nov. 5, beginning and ending on campus.

The "classic" will feature its 10K road race at 11:30 a.m. and 1-mile Fun Run at 10:30 a.m.

Recognized as one of the top 100 races in the United States, the Wendy's 10K Clasic will return a star-studded field of world-class runners and an impressive list of national and regional road race stars, and special guest will be Dr. George Sheehan, noted speaker and author of several books on the running phenomenon.

A new feature of this year's race will be a runner's Expo, major running companies and manufacturers on exhibit at Red Carpet Inn from 2 to 5 p.m. on race day.

On Gandhi's Teachings

"Gandhi's Teaching: Truth and Love" will be the topic of a lecture by Dr. V.S. Naravane, author, teacher and lecturer, Tuesday, Nov. 8 at 7 p.m. in Van Meter Auditorium.

Dr. Naravane is from Allahabad, India, and is currently a visiting professor at Centre College in Danville.

His visit to WKU is sponsored by the Department of Philosophy and Religion and his lecture is free.

There will be a discussion session with Dr. Naravane Wednesday, Nov. 9 at 3 p.m. in Cherry Hall Room 309 on Gandhi's philosophy and religion.

Joan Retallack, Poet, To Speak Nov. 3

Joan Retallack is degreed in philosophy, and takes a philosophical approach to her poetry, and she will present a reading of her works Thursday, Nov. 3 at 8 p.m. in Room 166 of the Ivan Wilson Center for Fine Arts.

The Creative Writing committee of the English department is sponsoring her visit, and she will speak to creative writing classes while she's here.

Retallack is a consultant on writing and critical thinking and teaches at the University of Maryland in College Park.

She has been published in several anthologies and periodicals and has a collection of poetry, Circumstantial Evidence, coming out this year.

Karen Pelz of the English department says of Retallack's process: "Her approach is epistemological; she is interested in a philosophical approach to the explanation of life through poetry."

### Two WKU Colleges Form Science Education Advisory Council

The university has a new 14-member Science Education Advisory Council that met for the first time earlier this month to address the issue of providing quality education to secondary and elementary math and science teachers.

"The Council hopes to find ways to better serve the needs of math and science teachers and the new professionals coming along," says Dr. William G. Lloyd, dean of the Ogden College of Science, Technology and Health, who collaborated with WKU's Dean of the College of Education, Dr. J.T. Sandefur, on the council's membership and purpose.

"It is a joint effort of both of our colleges to recognize the need to help teachers in the years to come," says Lloyd.

The Council is made up of faculty members from both of the university's colleges, plus members from area high schools, and is chaired by Douglas Jenkins, a physics teacher at Warren Central.

The first meeting established goals of the Council, and for starters they include helping science and math teachers be better prepared, imbued with the concept of math and science going "hand-in-hand," training in use of computers, fund-raising, and improving in-service programs.

Concurrently, a story in The Chronicle of Higher Education Sept. 21, ran a front page story on the need for greater emphasis on training qualified secondary school teachers to provide by 1995, "a level of mathematics, science, and technology education that is the finest in the world," the National Science Board's Commission on Pre-College Education in Mathematics, Science and Technology said.

This blue ribbon panel has recommended several steps to upgrade science and mathematics education programs nationwide.

At WKU's first advisory group meeting, President Zacharias supported our campus efforts. "We want to take advantage of the national attention focused on science and education as a whole and see what Western can do about it," the President said.

ABOUT YOU

DR. JOSEPH CANGEMI, professor of psychology, received the State University of New York at Oswego's Distinguished Alumnus Award recently at the school's homecoming.

Cangemi is a 1959 graduate of SUNY and holds a master's degree from Syracuse and a doctorate from Indiana University.

He has written six books and 53 articles, and has served as a consultant psychologist for a number of organizations.

\*\*\*

DR. TOM DUNN, professor of sociology, was a guest recently on "New Shapes: Education," a monthly television program sponsored by the Kentucky Department of Education.

The program was aired on KET Oct. 21, and also was shown on WLEX-TV in Lexington and WDRB in Louisville, and featured "television and children."

Dunn conducts research on the effects of TV and children, and recently completed along with graduate student Sandra Long, a series of 14 state-wide programs for the Kentucky PTA.

\*\*\*

DR. RICHARD SALISBURY, professor of history, was invited to address the Illinois College Conference on Central America Oct. 10 and 11 on "The Crisis in Central America: The Historical and Political Background."
