

Give the child one of the papers 2
Tomorrow morning & every morning after
till done - there are 4 of them, Mix
the powders in Honey, molasses, little
Coffee, Tea &c. — They will operate on
his bowels - He may drink cold water while
taking the medicine — You will
mix half of the medicine in the
other paper in two table spoonful of
clean Honey, take about the size of a
hazle nut on your finger & put it in its
mouth 3 times a day till that is done
then mix the other half in
the same way, and use it as before
directed — you may rub it about on
the sore parts as well as you can —
You will first wash his mouth

with a decoction of white oak
Bark, with a little alum in it.
Do this each time before you
Put in the honey with the med-
icine in it.

13th Dec 1894.
