

Saturday Aug. 27-49

Dear Sis,

What do you know. I got two more letters today. One was wrote July 27 the other on the 30th. I really was glad to get them. I should be getting some fresh mail by the last of the week.

We got back from our field problem Wednesday night. I really enjoyed it. All I did was help set up a tent about 3 times. The rest of the time I lay around and slept.
(Sunday)

We had a practice parade Thursday and the parade Friday. The Commander of the First Division is ~~now~~ retiring so of course we had to have a parade to show our respects toward him.

We had a inspection yesterday Morning. We didnt even have to clean up. We just stood it in our work clothes

1-2
3 nothing like that ever happened while we were in the states.

It has been raining all morning. The sun has just shined out. I need to do some washing. Today and get ready to go back in the field.

I like fine over here. I had rather be in the states but they treat you better over here than they do in the states. We lay around and sleep half of the time over here. When we were in the states they kept us on the move all the time. The only difference is going on pass. I don't even want one over here. They have two open air theatres just across the field. We usually go every night.

I washed my socks & some underwear after dinner. They have already dried some of them had holes in them (my socks).

1-3
you should have seen me sewing them
up. I did a pretty good job though.

Everything is sure in a mess in the
tent. We have been laying around and
making throwing cigarette butts and paper
on the floor. None of the beds have been
made today. You can imagine how it
looks.

I hope Wilsons cold is better by
now. He had better be careful. It would
be awful if they throwed him out
of school.

Well honey, I had better close and
write a line home.

Write when you have time.

Love,
Clayton
