Dear Professor Page -

I wish to thank you for
your fine appreciation of Rose Windom.

I was very pleased to get
it, and I shall keep it among
my other valuable letters.

Quite a number have
come in, including the highest
appreciations from Mrs. Maynell, W.H.
Daines, Sir John Lucas Mand Holland
(the fine translation of Carducci) and others,
though the book has only just come
out. The Times here also gave
a good one though I do not
expect to be treated as openly
by the Press as by the poets and
Professors. Thanks again and

Best wishes to you from
Rottschäfer

P.S. The book has indeed been received with delight by everyone, and the appreciations both here and from America are of the highest order. Almost all the poems have been "especially commended." But the press & fan will never open their eyes and certainly not their hearts, which is doubtful if they have.

Something of the same thing occurred in a less degree about "Through dust to light" but the public took absolutely no notice.

Letter!
