Alumni Association
Kentucky Military Institute
Lyndon, Kentucky

Gentlemen:

The enclosed statement - probably several months old - has just come to the surface in the process of resettling here in Louisville. My check for same is enclosed.

Mrs. Keeney and our two young sons and I have just returned to Louisville after a period of three years in ophthalmic training in Philadelphia and prior to that we were together for about two years in Korea. We are, of course, glad that our sojourn in Korea was a few years ago rather than now.

In spite of interruptions by my Army service and the subsequent birth of our sons, Mrs. Keeney is again resuming part time studies in medical school. She also works with me - and sometimes does the bulk of the work - in several investigative studies which we have made concerning certain eye diseases.

Now that we are back in this area, I look forward to occasional participation in some of the KMI alumni activities, which apparently have been greatly accelerated in the last few years.

With best wishes, I am,

Very truly yours,

Arthur H. Keeney

Col. C.B. Richmond
Kentucky Military Institute
Venice , Florida

Dear Col. Richmond:

At the present time I am on leave here in Florida . I won't be able to visit school due to the fact I have to return to my home station tomorrow , Jan. 3 , 1952. The main reason for my not coming to Venice was my fathers illness . The entire family is here in Florida there-fore I have a favor to ask of you. I would appreciate it very much if you would verify , in written form , that I graduated from the Kentucky Military Institute . Also include the number of years of military training and indicate two of which were senior military R.O.T.C. As you know , during my last year at K.M.I. , I was a junior military instructor.

The reason for my requesting this material is, I am going to apply for the Air Force Cadet School for pilot training and the schools requires a graduation certificate and verification of military training . With the entire family in Florida and Dad in the hospital I have no possible means of securing my diplomas which are at home. We have a dead-line date for the issuance of this material which is the 18th. Jan , 1952. Along with the letters of yerefication would you please enter a personal character reference and any other information that you think will help gain my entrance into the Cadet Corps.

My most sincere hopes that you have a very happy New Year and a fine school year at K.M.I.

K

Yours truly,
Noel L. Mudd Jr.

Capt. O. O. Pillans,
Alumni Secretary
Kentucky Military Institute
Venice, Florida

Dear Captain Pillans:

Referring to the postal card next attached relative to information for the Kentucadet, you know how hard it is to catch these youngsters and I am sure you have trouble getting information from them after they leave school.

For your guidance, Julian is Sergeant at Lackland Air Base. Is Flight Chief and his training at KMI has come in very handy. He drills the raw recruits when they come in and gets home almost every weekend. He is enjoying the best of health and looks wonderful.

Richard is in his first year at Texas University at Austin, gets home frequently on weekends and is majoring in Geology. He, too, is in good health and looks fine. I am sure they both want to be remembered to you and I will tell them I have written you, in fact, will mail them a copy of this letter.

Please remember me to your associates and especially Colonel Richmond and his family. Kind regards to all and say hello to Mary.

We won't be in Florida this winter. We hope to go to California, in fact, are leaving forepart of next month. The Krauss' were over to the Cotton Bowl Game, and we saw lots of people from Kentucky we knew. It was quite a game and they had a capacity crowd and tickets that brought \$20 and \$25 apiece up there were being given away at the game, but at that most of the seats were full. The half time activities were beautiful. The Rangerettes from Kilgore, Texas, are equal to the Rockets at Radio City.

Kind regards to all.

Sincerely,

Julian Scott

Mr. O. O. Pillans, Alumni Secretary
Kentucky Military Institute
Venice, Florida

Dear Sir:

The attached post card was received, and I, Richard's father, am taking the liberty of replying, because of the possibility that mail would not reach him promptly, and perhaps I can give you the information you desire.

Richard is a Lieutenant in the United States Air Force, and recently graduated from Williams Air Base, at Phoenix, Arizona, as a jet pilot, and also completed a gunnery course at Nelis Base, Los Vegas, Nevada.

He left San Francisco last Sunday morning, January 27 by plane for Japan, and at the present time, the only address we have for him is as follows:

Lt. Richard C. Zimmerman
A.O. 1853602
Provisional Squadron 957
APO 959
% Postmaster, San Francisco, Calif.

In the event that any one at KMI would like to communicate with Richard, I am sure he would be more than pleased to hear from you, or any of his instructors and friends of his KMI career days.

I am Thanking you for your inquiry regarding him,

Yours very truly

W. B. Zimmerman
