Dear Jimmie I will write you a few lines to let you know that we are well as common, hope this will find you well, Hershels and Sams is well.

I got your first letter the 24th inst, don't know just when it was wrote as you failed to date it, but I got one from you on Saturday before I got mine on Wednesday and you told Jimmie that you had wrote to me "A day or two ago" but his got here first.

The flu is still here some are still dying with it, Boogie Walden has it now, that is the closest it has bin to us, is there any flu over there?

Jimmie your Ma said ask you if you had a good place to sleep and plenty of cover these cold nights.

Well Jimmie I hope you will still

[9]

enjoy yourself and have a jolly good
old time whilst time you stay over there.

I guess you are seeing many things
that you never saw any thing like before
and that is right, for the war is over
and you are there and so if I was you
I would take the thing in a sightseeing
as much as your opportunity affords
for you might not get to go back
any more right now again, ha ha.

I am sowing and halving wood now
I have a boat 15 boards up, are sowed today
but is helping me.

I got 2 lbs of corn out of the meadow
and half of it was squabbling corn;
after I cut and shocked it the thing
went right in the shocks and ate it
safe before I knew it.

By the way the flour has been and is now

(3)

there are grasshoppers on Mount Camp but
it finally has not killed any one yet.

After that Jack, Ernest and Emma
all taken it the same night, they all
sent it from Ben Hammers, the one that
gives them all the measles.

Ernest is still at camp Taylor but
Emma is at West point. I think the most
of the boys here will be in by the first
of the year.

Ray has been down here every day
this week but one that is he stayed all
day and taken dinner with us by him-
self, he calls me and your Ma,
"Pa" and "Ma" he calls Ada "Addie".

He can say most any thing and
he is continually saying something and
in to everything that he can get to.

Ray, Jim, Hat and Pearl took a
motion they wanted to go back to

2 weeks that he has got
children are 12 months (I wish a message on)
PA. I like the little man to be a messenger for 2500
there of late, they will move about
now, I have sent to "Jine Hos"
and "Eot Bent" they have done more
? but of late, good and the like, and
if you don't get out by new year he
will come right in one time, but not
knows it, yes, you know how "yearly"
Jine Hos loves to move.

Hollen is putting up some things
has it a bout done I think.

Joe says Barlow out learn most any
of them and is the best kid that ever
come to school to learn. Joe loves to
teach there, and the district like him.
So I will close for this time.

Hope to hear from you again
in the near future.

Love to you
